What Do They Cure?

What Do They Cure?

The above question is often asked exercing Dr. Pierce's two leading medicines. "Golden Medical Discovery" and "Favorite Prescription."

The answer is that "Golden Medical Discovery" is a most potent alterative of blood-purifier, and tonic or invigorator and acts especially favorably in a quartive way upon all the muccus lining surfaces, as of the nasal passages, throts bronchial tubes, stomach, bowels and bladder, curing a large per cent. of caterrhal cales whether the disease affects the nasal passages, the thront, larynz, bronchia, stomach as caterrhal dyspepula, bowels (as muous) days the disease affects the nasal passages, the thront, larynz, bronchia, stomach as caterrhal dyspepula, bowels (as muous) days the disease affects the heront or informative stages of the affections. The "Favorite Prescription" is advised for the care of one class of discases—those possible weathers as defaurables and fregular ties uncident to women one is a powerful yet gently settle invigorating tonic and nervine. For weak wormout, over-worked women—no matter what has caused the break-down, "Favorite Prescription" will be found most effective in building up the strength, regulating the womanly functions, subduing pala and bringing about a healthy, vigorous condition of the whole system.

A book of particulars wraps each bottle giving the formule of both medicines and quoting what scores of eminent medical authors, whose works are consulted by physicians of all the schools of practice as guides in prescribing, say of each ingredient entering into these medicines. The words of praise bestowed on the saveral ingredients entering into Doctor Pierce's medicines by such writers should have more weight than any amount of non-professional testimonials, because such medical brethren and know whereof they speak.

THE VATIOAN SLAPS ROOSE. VELT.

The Vatican has authorized a et tament with reference to a call made by Abbot Lawrence Janssens, one of the most learned Benedictines and secretary of the Congregation of the Affairs of Religions on ex-Pres dent Roosevelt on the eve of the latter's departure from

Abbot Janmens did not find Mr. Roosevelt at home, but left his card, on which he wrote in French that he desired to congratulate Mr. Roosevelt for the constant support given to his order and the Catholic Caurch in general in America during his "gloricu : career" as president, which he heped wou'd soon be resumed.

The Vatican's s'atement says: "The Holy Father has highly dissp-proved of Father Janssen's initiative to-wards Mr. Roosevelt as cabled through the Associated Press, as this act of his evidently lends itself to an interpretation offensive to the Holy Father. Father Janssens seted through his own

THE DIB MATIER.

THE DIB MATTER.

"The degree or report submitted by Special Master Charles E. Littlefield in the Virginia West Virginia debt case is all that we expected or desired," said Judge Samuel W. Will'ams, Attorney General, "and to judge from the reports of the papers in West Virginia the report is far less satisfactory there than here. All that I have to say is that the lawyers in the case, representing Virginia, will see that her interests are protected as far as possible."

Judge Williams said that a conference had been held here on Saturday, at which was present all the members of the counsel for the certificate holders of Virginia West Virginia, except that Major Holmes Centad, of Winchester, was not in attendance.

Virginia and West Virginia have till April 16th in which to file objections and exceptions to the report, and there is a general belief that West Virginia will open her strongest arguments against the consideration of the report. It is not known that Virginia will have a word to say in connection with the matter, except in so far as the objections to be filed by West Virginia may affect the State of Virginia. Virginia will be represented by counsel but it is impossible at this time to say who will go to Washinton. Possibly, however, all the lawyers will be on hand.—[Richmond Journal.
