

## SHOOTS AND ROBS DRIVER

Unsuspecting Man Picks up Fare in Atlantic City and is Brutally Attacked

Atlantic City, June 25.—Brutally attacked early Monday morning by a lone passenger on the Somers Point Longport Boulevard, Russell Stewart 22 years old, a jitney driver who has but recently been discharged from the United States army, escaped with his life only by feigning unconsciousness. Stewart picked up a man shortly after 3 o'clock at Indiana & Pacific avenues and was asked to drive him to Somers Point. At a lonely point the passenger drew a revolver and told Stewart to give up his money.

Quickly steering his machine into a telegraph pole the former soldier grappled with his fare, but was stunned by blows over the head with the revolver. He continued the unequal battle until his opponent shot him in the leg, near the groin. Stewart fell to the roadway, retaining consciousness, and allowed the man to rob him of \$10, all the money in his possession.

After his assailant had disappeared Stewart staggered to his feet, climbed into his car and started for home. A mile from Pleasantville Stewart's car, making a zig zag course, was sighted by John Morrison, a local chauffeur. He was weakly hailed by Stewart, who cried "For God's sake, get me to the hospital." The youth, weak from loss of blood, lost consciousness as Morrison, abandoning his party, leaped into Stewart's car and brought him to the city hospital. Detective Farley and Sergeant McMenamin went to the scene of the attack in an automobile. They found only a black cap as a clue to Stewart's assailant.

## BANK ROBBER TO DIE

Jury Returns Verdict of First Degree Murder Against Bank Employees' Slayer

New York, June 25.—Gordon Fawcett Hamby, alias Jay B. Allen, confessed slayer of two employees of the East Brooklyn Savings Bank in a holdup last December, was convicted of murder in the first degree yesterday afternoon by a jury in the Brooklyn Supreme Court, following a trial lasting but two days.

Death by electrocution is the arbitrary penalty for first-degree murder in New York state.

The jury was out less than one hour. Immediately after the verdict Hamby, who is wanted in connection with bank robberies in Omaha, Chicago, St. Paul, Los Angeles and Oklahoma, according to District Attorney Lewis, was remanded to jail for sentence next Thursday.

Hamby during the trial, offered no defense in his own behalf. He even went so far as to request his lawyer not to cross examine witnesses, object to questions or make any summing up speech, and his wishes were obeyed.

## BURN FLAGS OF FRENCH

Berlin, June 25.—Inspired by the news of the scuttling of the German fleet at Scapa Flow, soldiers of the old Prussian Guard invaded the big arsenal where all the French flags captured in 1870 and during the late war were stored, piled them up in a huge colorful heap in front of the statue of Frederick the Great, and set fire to him cheering the while and singing "Deutschland, Deutschland Ueber Alles."

These flags were to have been restored to the French under the peace treaty.

## Don't Scrub Walls and Woodwork

SCRUBBING ruins the tinting and finish, causing walls and woodwork to become soiled more quickly and making them harder to clean.

A better and easier way is to make a paste of

**20 MULE TEAM BORAX SOAP CHIPS**

by dissolving one cup of the chips in two cups of boiling water. Apply to surface to be cleaned and remove with a wet cloth. The Borax in the chips quickly softens and removes all dirt and stains without scrubbing.

## Diamond SQUEESEE TREAD Tires

Why their treads are black and their sides are red

Color cuts no figure in making the treads of Diamonds. For a tire tread must resist the mauling of rough and stony roads—the grind of macadam and brick.

When the toughest, most gritty rubber that could possibly be made for Diamond Treads was made, it just naturally CAME BLACK! Black! Black! It will be always unless a tougher rubber is discovered.

But the sides of Diamonds are made red purposely—because Diamond Red Rubber admirably resists side wear, and those red sides make Diamonds distinctively beautiful.

Watch those red-walled Diamonds—they're rolling up 5,000 to 8,000 miles for our customers as often as any other tires, and they COST YOU LESS than most other tires.
