VERMONT DATLY TRANSCRIPT. APRIL 30, 1869

There are persons malicious enough
to assert that the trouble with Mr. Cuas. to assert that the trouble with Mr. Cuass,
Dana, the editor of the New York Sun, a sufficiently valuable one, though the New York correspondent of the Roch-
ester Democrat assigns fear of ridicule
as the motive. He says:
 nately. He sought the collectorshi

Dana is a curious pecemen of the ence-
cessfut editor. Begnning his career cn
a Boston paper yeaks ago, he beame ase-
sociated with the Brook Farm people,
and formed a close intimacy with the

philosopher, as ho was not at all times
timet so subservient dind manageable as hat
imperioussage demanded. Nor was hat
favorite with the associa.e editors. His manners Were atten insolent and
brusque. Mr. Dana's longing for oftice
bren grew irressistible when the warbroke oue
and hhe, through the intluence of the
Tribune, gained the responsibleposition of Assistant Secritary of War in 1862 .
After the war he went to Chicago, tried
his hand in a new pher the Repubi-
can, failed, and finally returned to this eity in search of an organ of his own but one came eventually, and in the
seling out of the Sun Mr. Dana's for-
tune was made. The old Tammany tune was maug. the Sun removed
Hall was bought, the

essfula career as Greeley, Raymond or essafula
Marble.

Po:itical.- The Washington Re-
publican pertinently says that the
President has solved the vexed question,
Can a negro hold oftice in Gcorgia? in
a very practical manner, by appointing a very practical manner, by appointing
Edward Belcher, an intelligent mulatto to the office of Assessor of Internal Rev-
enue for the Third District of that State.
Unrepentant Rebels may point to their this right as much as they please, so
long as there is a practical refutation of of their argument under their noses
in this effective shape. This practical
att does more to solve the question on the right side, than ant Georgeeches
that have been made in Geogia or in
Congress for a twelve-month. A rumor comes from Washington
to the effect that the President is con-
sidering the propriety of superceeding sidering the propriety of superceeding
the appointment of Ashley as Governor
of Montana; and another that Secretary Fish has taken the opinions of eminen legal
land.

## It is said that col. Crowe's political disabilities have never been removed and that he is consequently ineligible for the ofice of Governor of New Mexi

The statement made in the Pittsburgh ton Expreass, announcing the withdraw nia governatorial canvass, is untrue
Mr. Packer says he has not nuthorize any one to make sucb an announce-
ment, and that his position remains the same as
letter.

Young ve. DaNa.-Mr. Young who
has brought a libel tuit against Mr. Dana, of the Sun, is less than thirty editor of the Tribune, for three year past. He thus closes a
editor of the Evening Post
