tion convened in Chicago on Tuesday last, and have spent about two days in passing resolutions, adopting new planks in their platform, etc. Up to time of going to press it looks like anybody's chance to be the nomince, with Blaine, Gresham, Depew, Allison and several others, each having a strong following.

Emperor Frederick III, of Germany, died on the morning of Friday last, surrounded by the members of the Royal family, after a reign of only a little over three months. He is succeeded by William II. The funeral took place on Monday.

RAILROAD NEWS.

THE MINNESOTA AND NORTHERN AGAIN.

MERTING OF THE DIRECTORS-THE ROAD TO RE PUSHED AS FAST AS PUSSIBLE.

As stated in last week's ADVANCE, a meeting of the Directors of the Minnesota & Northern railroad was called to meet in Worthington on Friday, the 15th. The Directors were promptly in attendance, and the meeting was held on Friday at the office of the President, C. II. Smith, in Masonic Block. There were present-From Currie-Merchant Neil Currie;

Editor Maxwell, of the Pioneer; and Mr. Schneider, of the Currie Mills. From Fulda-Banker Dickson and Merchant Lewis.

From Worthington-C. H. Smith. Geo. D. Dayton, D. Shell and J. P. Also present, Rev. J. H. Long, the

active and energetic Secretary of the Company, and Real Estate Agent F. G. Barrows, of Fergus Fails, who came to represent the Fergus Falls Directors, Messrs. E. E. Corliss and J. Compton and also the Chamber of Commerce of that place. The first business transacted was the

adoption of a set of By-Laws. The Directors then proceeded to elect

Editor J. A. Maxwell, of the Currie Pioneer, Auditor of the road.

A motion was then made and unanimously carried that J. P. Moulton be elected (ieueral Manager of the preliminary work, Mr. Moulton having so far taken the laboring oar for Nocounty and Worthington. In fact, Mr. Moulton and Mr. Dayton have thus far been the life and soul of this movement, have done the working, writing, planing and pushing, and now others are expected to put their hands to the plow and help draw the furrow across have in over 200 acres. the county at least.

It was agreed at the meeting that the right of way must be pushed at once. Rev. J. R. Long has been engaged to push the work for the next three months. It was also agreed that the Directors

should at once go over the route, accompanied by their Surveyor, Editor B. W. Woolstencroft, of Fulda, and a few of the representative citizens and editors. This party will go through to Fergus Falls this week, making a general survey and inspection of the country, holding such meetings as seem adsable and confering with the people as to aid and other important matters necessary to the building of the road. Our readers can see this time that this is no longer a "paper road." The jokes at the ADVANCE for building this road in the paper are now stale. The road has passed from the projecting and the newspaper stage to the vot-ing stage and bonds are being voted all along north of us. The next stage will be the definite location of the route and the securing of the right of way. Grading may begin and be well along before winter and be finished next year, say from here to Fergus Falls north of us and to Spncer, Iowa, on

The recent attacks of Rev. T. DeWitt Talmage, of Brooklyn, upon Atheists, Infidels and Spiritualists, will condemn him in the eyes of all people except the darkest church bigots. Hence forth no liberal-minded person can ever think of him as anything but an unfair, unjust, un truthful, bitter religious partisan, as unfair and as cruel as any of the bloody priests of the pas whom he condemns. If he had attacked the doct rines of these classes merely, he might be excused But when he attacks the characters of the liberal But when he attacks the characters of the liberals, in a wholesale manner, and utters what he must know are the basest of falshoods, he is entitled to no more respect from true men and women. That Talmage lied, and lied eggregiously, in his sermon on Spiritualism, we are sure. And one of the greatest wrongs of the whole matter is the one we pointed out at the time of the publication of his sermon in our paper. Through the "ready prints," the false and malignant attacks of this man, called sermons, are laid before tens of thousands of readers of country newspapers, and they are forced upon, editors newspapers, and they are forced upon , edito who do not want them, by ready print publis

We have heard Taimage rated as equal to Beecher by some shallow minded people. He is no more to be compared to Beecher in height and breadth of mind than Pike's Peak is to be compared to a foot hill, or a Lilliput to a Gulli-

MARION HARLAND'S OPINION OF BAKING POWDERS. Our readers have doubtless noticed the numerous discussions of the scientists and hygienists as to the relative value of the various baking powders. A careful siftin of the evidence leaves no doubt as to the superiority of the Royal Baking Powder in purity, whole-someness and strength, from a scienti-fic stand-point. An opinion, however, that will weigh heavier than any other Judge Gary, the monopolistic and that given by Marion Harland, the best aristocratic judge, who condemned the known and most popul r of American science of domestic economy, of housecent letter to the Philadelphia Ladies Home Journal, this writer says: I regard the Royal Baking Powder as the best manufactured and in the

market, so far as I have had any experience in the use of such compounds. Since the introduction of it into my kitchen, three years ago, I have used no other in making biscuits, cakes, etc., and have entirely discarded for such purposes the home-made combination one-third sods and twe-thirds of cream of tartar. Every box has been in perfect condition when it came into my hands, and

the contents have given complete satisfaction. It is an act of simple justice, and also a pleasure to recommend unqualifiedly to American house-rives. MARION HARLAND. Brooklyn, N. Y., Nov. 30, 1887.

FROM HERE TO HEAVEN BY TELKGRAPII. Under this general heading a Cleve-

land, Ohio, professor has contributed to the Religio Philosophical Journal a series of articles, which are, in some respects, the most interesting we have ever read upon the subject of spirit phenomena. The experiments made by the Professor, with the aid of the medium, Mr. Rowley, were to ascerwhether or not

'a disembodied spirit can communicate with an embodied spirit by means of an ordinary telegraph instrument." This question was answered abundantly in the affirmative, and the series of papers are published to give the results of the experiments. These will soon be published in book form.

This Professor, who is one of a great number of honest teachers, like Prof. Kiddle, of New York, is ready to certify to facts ascertained in this line of investigation, precisely as he would certify to facts ascertained in the line traveled over 1,000 miles in the past of chemistry or geology. In conclusion "I was not a Spiritualist until I saw

claims of Spiritualism are true. Now the country.
