## A CLEAN SWEEP

GROW ELECTED BY 160－

The Republicans of Pennsylvania did themselves proud Tuesday when they elected G．A．Grow congressman at－large by a larger plurality than ever recorded in the state before Mr．Cleveland may consider himself modestly endorsed．
Senator LuDue still loves the ad－ ministration for the enemies it has made，but only in a Pickwickian

Gov．McKinley of Ohio is billed for a speech in Minneapolis next month．He will also invited to deliver one at St．Paul．
Chairman Bixby of the state cen－ tral committee favors an early conven－ tion．He thinks the republicans will elect the seven congressmen and the entire state ticket．

Granite Falls Tribune：The second district is represented in congress by a man that is no dough－head． He comes very near hitting the nail on the head when he opens up．His re－ cent discussions will commend him to his constituents as closely al－ lied to the interests of his district and his knowledge of what the people de on protection will gather some infor－ mation from his speech in this pârtic－ ular．
Col．Bob Ingersoll delivered a lec ture＂Some mistakes of Moses，＂at St．Paul Sunday night．Admitting Mr Ingersolls splendid oratorial abil－ ity，yet hisso－called lecture must have been a herrangue．We quote one paragraph：＂There will be this cruel oppressor 解 long as you put an ybook above your reason．The greatest of all tyrants is that book called the Bible．It has filled the world with superstition，with malice，with hatred， with cruelty，with oppression．＂This leads the St．Paul Globe to editorially say：As an orator and word－painter ．Ingersol is a success，but as public teacher he is a dismal failure to the otblic mind，and the wotid would＇th thetter if he had never been borin．Whe truth or falsities of his theories we tio not propose to ar gue or consider．It there is any one thing which makes the world better or more civilised it is the Christian religion．In the portion of the world where it is not recognized，a state o ractual or semi－barbarism exists．It

Slayton Herald says：It is now in

＂McKinley prices＂would take effect to advise their patrons not to make any purchases until the＂Wilson bill＂ prices shall prevail．But it is not in the range of probability that they will prove themselves such＂philantro pists＂this year，They were making
party capital in 1890， party capital in 1890，and increase
their business at the same time．But their business at the same time．Bu Wilson bill，affords the democrats no opportunities to create party capital in fact it will not be the means o creating capital of any kind in th country，but it is a good law fo －England，Europe in genera Robbers＂the Luverne of＂Express fully says：A Luverne Herald truth 100 lbs ，is carried by the express com pany from Chicago to Luverne $\$ 2.50$ ．The charge for 12 lbs ．is 80 cts ． The express company is a robber who
has thus far kept out of the clutches of the law．Almost everything has been＂regulated＂except the express companies．Perhaps one reason fo this exemption is the fact that the
express companies have always been express companies have always been
kind to members of the legislature The Herald is a ware of the fact that its populist contemporary paid noth ing for express，while its populist editor was an employe in the populis legislature of this state． E．C．Huntington，the strike－out－
from－the－shoulder，editor of the
Windom Reporter，has this to say ot Senator La Due：The republicans
over in the Luverne－Worthington dis trict who voted for Jay LaDue for state senator，against Bert Miller，
ought to feel proud of their man．In act，a republican ought to feel proud and has no reason to complain when was a political pharisee．LaDue
at Washington the other day with the democratic congressme pulling all the wires possible with the attorney general and the presi dent to get the appointment of United States Marshal of this state．We have no objections to LaDue having
the appointment，though J，J．The the appointment，though J．J．Thorn on is entitled to it，but we do protes
against a man who stole republica against a man who stole republican
votes under the guise of a reformer selling them out and going back into the democracy for a paltry office We believe it is bad politics on the part of democrats to give such men
fices，but this administration offices，but this administration ha nothing to its credit but mistakes
and judging from everything it is and judging from everything it is it is as likely to give LaDue the ap pointment as anybody．
A lot of hoys say that Frank A
Day of Fairmont would make a good candidate for lieutenant governor，and
the Reporter is the Reporter is of the same opinion Frank has had long experience in leg

with parliamentary law，and then i Gov．Nelson should be chosen as sen ator or as angel，Frank would make
a mighty good governor．－W indon a mighty
