REVIVAL OF ACTIVITY

Railway Stocks and More Especially the Engineers Loomed into Prominence.

HEAVY INCREASE IN TRAFFIC RETURNS.

St. Paul's Report for the Second Week of the Current Month Said to Show an Enormous Increase Settlement of the Western Freight Association Trouble Progressing Favorably.

New York, Oct. 15.—Speculation at the Stock Exchange took a new turn today, the railway stocks and more especially the Grangers, looming into prominence. The revival of activity in these stocks was due to reports from the West of the improvement in the outlook for business there, which started a moderate covering movement all along the line. It was said that considerable progress has been made toward a settlement of the Western Freight Association troubles and that the Colorado matter will be taken up next. Rumors of heavy increases in traffic returns to the Northwest and St. Paul, however, had more effect on the local shorts than the reports of a settlement of the rate disturbances. St. Paul's report for the second week of the current month, was said to show an enormous increase, while the Northwest for September will probably report a gain of $500,000. On these stories the Grangers improved anywhere from 3-4 to 1 7-8 per cent.; Rock Island selling up to 78, St. Paul to 77 1-2, Burlington and Quincy to 87 1-8, Omaha to 44 1-2, and Northwest to 107 1-8. Union Pacific was higher at 15 1-2@16 1-8, on the favorable outlook for the reorganization. Atchison, Missouri, Pacific and Kansas and Texas preferred were also firm. Semi-official statements that the earnings of the Manhattan are increasing and that the fixed charges after January 1st will be materially reduced caused an advance in the stock named to 111.

Sugar was weak in the early trading on a reduction in the price of refined. Later a rally from 108 1-4 to 109 1-4 took place. Leather sold at 16 3-4@18 3-4, ex-dividend of 2 per cent. The sales of listed stocks were 168,000 shares; unlisted, 21,000 shares.

Money Market.

New York, Oct. 15. Money on call at 2@2½%; last loan at 2½%, and closing offered at 2%. Prime mercantile paper 3@5½%. Sterling Exchange firmer, with actual business in bankers' bills at 487@487¼ for sixty days and 487½@488 for demand. Posted rates, 487@487¼. Commercial bills, 486@486½. Government bonds steady, State bonds quiet, railroad bonds higher. Silver at the board was steady.

Chicago Market.

Chicago, Oct. 15.—Wheat rose in value to-day and retained the most of the gain right up to the close. A prominent short covered freely and his following emanated his example. The advance was made with suddenness and accompanied by some little excitement, inasmuch as the cause assigned for the strength was in itself a trifle disturbing. The morning papers published a dispatch to the effect that English troops were marching through Brazil in the direction of disputed Venezuelan territory. As the public has been given to understand that the United States has demanded of England that the matter be settled by arbitration, the dispatch was seized upon by speculators as a decidedly bullish argument, and the buying that resulted was sufficient to cause the advance in wheat spoken of. Later in the day liberal clearances and sales for wheat imported additional firmness to the market. December wheat opened from 60⅝@60⅝c., advanced to 61¼c., closing at 60⅞c.—¾ cents higher than yesterday. Cash wheat was ½@1 cent higher.

This was the first day in a long time that privileges have been good. Last night's buyers of calls were winners to-day, and the sellers will likely display recklessness in the near future. For a considerable period puts have been selling above calls in order to tempt buyers, but they will now probably return to their proper position. Prices in corn made quite a respectable gain at the opening, which was held at the close. May corn opened at 29¼c., sold at 29½c., where it closed ⅜ cent higher than yesterday. Cash corn was ½c. higher.

Oats enjoyed the good feeling exhibited by wheat and corn advancing early and remaining firm throughout the session. No extraordinary improvement in the business was noted, however, the principal activity being seen at the time the other grains were advancing. Cash oats were firm and ¼c. higher.
