ly and impartially consider the results which must inevitably flow from the policy and doctrines of the Republican party, if carried out as proposed. The leaders of that party proclaim that the struggle in which we are engaged is a "contest between free and slave labor." Such is not the case, but 3 a contest between free white and free black labor

from making this State his home. Repeal it

and the already large continual emigration

of negroes to Ohio, would be increased ten-

fold; and instead of the runaway slaves going

to Canada, as is now the case, they would stop

among us. Once here, they must do some

thing to sustain life. There are but three

ways they can do this, either by working, begging or stealing. If they adopt the former, they come in direct competition with the

schite laboring class, and every man known that a negro can, will, and does work for a

much less sum per day or job, than a schile

man can or will. The remuneration for labor

of every kind-will be reduced to stored

cation prices. We have evidences of this

ompeting even now in every community

where negroes can be found. We have evi-

dences of it right here in our midst. There

are to be found men in every community who

will hire labor wherever it can be done the

chemest, regardless of the ability or color of

laborer,-men who would spend half a day

in searching for a negro who would work for

twenty five cents per day rather than give the

job to a white man at fifty cents per day.

There are some such in this city. There are

and zealous of Republicans, here, not because

the negro will work for the least amount of

money. If then, such is the case even now

when we have a Fugitive Slave Law to prevent

at least, in a measure, negro emigration to the

State, how much more so would it become in

case the law should be repealed? Ohio would

then become the home of every ranaway

dave from the South, in addition to the free

negroes from other States who are now flocking

here. Indiana and Illinois have both passed

laws prohibiting negroes from settling in these

States, and hence, even in addition to their

wn inclination to do so, they would in

neasure be compelled to settle in our midst

That the clap-trap of the Wide Awake vement is becoming tiresome was very plainly evinced by the turn-out last evening.

fourth being only about two thirds full. There was a platform car attached to the train upon which was a band of music and a cannona convenience not afforded the Democrats who went down to the Burg the other night.

How many were in procession in Middle own last night we have no reliable means of knowing. The Journal says there were over 900, but we think that cannot be so, for there are not that number of Republican torches in the Third District. That's so, If anything was wanting to create a disbelief of this would be the Journal's claim; that would set tle the falsity of the matter at once. But let this suffice; we have something else to say, something of more significance than mere clap trap.

It seems that nothing was said to the Wide-Awakes, generally, about returning home, im mediately after getting to Middletown. The Band was marched to town and back again La; the People's Champion, at Davenpor with all the crowd who followed them, not giving them time to get even a plass of water! A large number of the Wide-Awakes, who desired to hear Mr. Craighead, and supposing that the train would not leave until the speakng was through, remained to hear him. In the mean time the train went off, and the men and boys-thirty or forty in number-were left behind. After the meeting was over, the boys ascertained that the train had gone and left them, and that they could'nt get home that night; and as they had no money they could not get a place to lay their heads in a hotel or private house, and they roosted around under sheds in the chilling night air, and in haymows about the alleys!

In the morning early the disconsolate crowd straggled over to the Depot, to try to get home on the train. The Republican candidate for are to be court martialed this evening at the it was estimated that ten thousand persons Congress was present on the platform, and Niewam. The charges are that they need witnessed it. I am much interested in it, not Ohio their home. They are not satisfied with to a certain extent, stands in the way, but which will open the doors for the entrance of

to the statement made to us. At the platform the Conductor put off abou a dozen men who asked to "go up to Dayton convention meets, and by renominating one of and pay when they got home!" A Republic can standing by-a Wide Awake who had got left,-then in the hearing of the Republican candidate told the Conductor to "hold on!" he would pay for the boys as far as his means would go; and actually paid out \$12, every cent he had, to assist the boys home!

At Post Town, the next Station above, the rest of the Wide Awake boys were put off the train, and although the very man they went to honor was sitting by and never said a word, when that word would have taken them home! They were thrust from the train 18 miles from home, chilled, hungry, and dispirited, (and many of them were boys,) to foot their way home and satisfy the cravings of hunger as best they may! We could give the details of from Middletown they locked them out. this matter, which would leave no possible room for covering over, or patching up! While we are writing this, the boys are on their

eary way on foot for home ! Of course they will vote for Craigheadhose who have votes! Won't they! This Wide Awake business is "played out.

The big wet blanket was put on it last night. Indignant men are at this moment of writing hurling maledictions upon the institution. We will refer to this matter sgain. In the nean time we will see how the mistake of last night will be corrected!

ment was equivalent to defeat!
On the 10th of May, 1860, Hamlin voted with scen other Senators AGAINST the Senate Homestead bill, which gave settlers the public lands at twenty-fire cents on over whilst Douglas and forty-three other Senators voted FOR THE BILL!

Reduction of Taxes.

The Republican party has promised the people, time and again, to reduce the Taxes of the State. The State's assessment last year the State assessment last year state of the state assessment is the hundred dollars. This is reducing the Taxes with a vengennee. This assessment is made to cover the expenses of the entertainment the Republican Legislature gave to the Legislatures of Kentucky and Tannosses, at which they made professions of lovality to their constitutional obligations to the South and which they violated after the backs of their guests were turned, or rather after they had returned home. A press reform is party this Republican party, indeed.

What the Tribune Says.

The following, taken from the N. Y. Tefome as far back as 1854, proves that the tendency of the Republican party is to imaggrate a system of anconstitutional energachments which would most assuredly jeopard the safe ty of the Union:

Abolishing Slavery in the States the Real Object of the Republican Party.—Admit that abolition in the States is what all menongle to strive for, and it is clear to our mind that a large majority are not prepared for this, and the practical question is this. Shall we politically attempt what will certainly involve the content of the state of ocked the Wide Awakes in the cars. Coming us in defeat and failure? or shall we not rathr attempt that which a majority are ripe for and thus, by our consequent triumph, invite that majority to go further? Shall we insist on having all the possible eggs now, or be content to await their appearance day by day? The latter seems to us the only rational, sensible course. We care not how fast Messry Birney & Co. may ripen public sentiments in the North for emancipation; we will aid then to the best of car ability, but we will not refuse the good now within our reach out of deference to that which is as yet unattainable. Mr. Birney's "oltimatum" may be just what he sees fit we have not proposed to modify a meddle with it.
