MECHANICAL ARTS AND SCIENCES

D. Appelton & Co., New-York.

Have in course of publication, in parts, price twenty five cents each,

DICTIONARY,

OF

MACHINES, MECHANICS, ENGINE-WORK, AND ENGINEERING,

DESIGNED FOR

Practical working men and those intended for the Engineering profession.

EDITED BY OLIVER BYRNE,

Formerly Professor of Mathematics College of civil Engineers, London. Author and Inventor of the calculus of form; 'the new and improved system of Logarithms,' 'the elements of euclid by colors,' etc., etc., etc.

This work is of large 8vo size, containing nearly two thousand pages, upwards of fifteen hundred plates, and six thousand wood-cuts. It will present working drawings and descriptions of the most important machines in the United States. Independent of the results of American ingenuity, it will contain complete practical treatises on Mechanics, Machinery, Engine-work, and Engineering; with all that is useful in more than one thousand dollars' worth of folio volumes, magazines, and other books among which may be mentioned the following:—

1. Bibliotheque des Arts Industriels. Masson, Paris. 2. Civil Engineer and Architect's Journal, London. 3. Engineer and Machinist's Assistant, Bourne, Glasgow. 4. Publication Industrielle, Armengaud Aine, Paris. 5. Jamieson's Mechanics of Fluids. 6. Treatise on Mechanics. Poisson. 7. Allgemeine Bauzeitung mit Abbildungen. Forster, Wien. 8. Organ for die Fortschritte des Eisenbahnwesens in technischer Beziehung. Von Waldegg, Wiesbaden. 9. Sherwin's Logarithms. 10. Byrne's Logarithms. 11. The Mechanical and Mathematical Works of Oliver Byrne. 12. Silliman's Journal. Allgemeine Maschinen-Encyclopedie. Hulse, Leipzig. 14. Cotton Manufacture of Great Britain and America contrasted. 15. Holtzapffel's Turning and Mechanical Manipulation. 16. The Steam Engine. J. Bourne. 17. Eisenbahn-Zeitung, Stuttgart. 18. Thrydgold on the Steam Engine. 19. Pike's Mathematical and optical Instruments. 20. Dictionnaire des Arts et Manufactures, Laboulaye, Paris. 21. Sganzin's Civil Engineering. 22. Brown's Indicator and Dynamometer. 23. Origin and Progress of Steam Navigation, Woodcraft. 24. Essai sur l'Industrie des Matieres Textiles, Michel Alcan, Paris. 25. Mecneill's Tables. 26. Grier's Mechanic's Pocket Dictionary. 27. Templeton's Millwright's and Engineer's Pocket Companion. 28. Lady and Gentleman's Diary. 29. Marine Steam Engine, Brown. 30. Weisbach's Mechanics and Engineering. 31. The Mathematician, London. 32. Barlow on Strength of Materials. 33. Hann's Mechanics. 34. Mechanical Principles of Engineering and Architecture, Mosley. 35. Journal of the Franklin Institute. 36. The Transactions of the Institute of Civil Engineers, London. 37. The Artisan. 38. Quarterly Papers on Engineering, Published by Weale, London. 39. Imperial Dictionary, Glasgow. 40. Student's Guide to the Locomotive Engine. 41. Railway Engine and Carriage Wheels, Barlow, London. 42. Recueil des Machines Instruments et Appareils, La Blanc, Paris. 43. Buchanan on Mill Work. 44. Practical Examples of Modern Tools and Machines, G. Rennie. 45. Repertoire de l'Industrie Francaise et Etrangere, L. Mathias, Paris. 46. Treatise on the Manufacture of Gas, Accum, London. 47. Setting out Curves on Railways, Law, London. 48. Hedge on the Steam Engine. 49. Scientific American. 50. Railroad Journal, New York. 51. American Artisan. 52. Mechanics' Magazine. 53. Nicholson's Dictionary of Architecture. 54. Dictionnaire de Mecine a Voiles et a Vapeur, De Bonnefoux, Paris. 55. Cuenwy and Menai Tubular Bridges, Fairbain. 56. Brees' Railway Practice. 57. Barlow's Mathematical Dictionary. 58. Bowditch's Navigation. 59. Gregory's Mathematics for Practical men. 60. Engineer's and mechanics Encyclopedia, Luke Herbert. 61. Patent Journal, London. 62. Brees' Glossary of Engineering. 63. Encyclopedia of Civil Engineering, Crasy. 64. Cradock's Lectures on the Steam Engine. 65. Assistant Engineer's Railway Guide, Haskoll. 66. Mechanical Principles, Leonard.

The great object of this publication is to place before practical men and students such an amount of theoretical and scientific knowledge, in a condensed form, as shall enable them to work to the best advantage, and to avoid those mistakes which they might otherwise commit. The amount of useful information thus brought together is almost beyond precedent in such works. Indeed, there is hardly any subject within the range which is not treated with such clearness and precision, that even a man of the most ordinary capacity cannot fail of understanding it, and thus learning from it much which is important for him to know.

From the annexed list of the principal authors and subjects comprised in this work, it is self-evident that all citizens engaged in the practical and useful arts, etc., may derive essential advantages from the possession and study of this publication:—the following trades are especially designated.

Millwrights, Moulders and Boiler makers. Artificers in brass copper and tin. Cutlers and workers of steel in general. Carpenters. Brickmakers. Workers in ivory bone and horn. Civil engineers, railway contractors, and contractors of earth work and masonry of every description. Architects and bridge builders. Builders, master masons, and bricklayers. Ship builders, masters of vessels, ship carpenters, and others connected with building and docking ships. Block and pump makers. Hemp dressers and rope makers. Manufacturers of linen and cotton fabrics. Manufacturers of spinning machines, roving machines, card breakers, and finishers, drawing frames, willows and pickers, etc., connected with cotton, flax, and wool machinery. Calenderers, bleachers and calico printers. Cloth fullers and measurers, and persons interested in sewing machinery. Cutlers and cable chain manufacturers. Cutting and turning tool makers. Pin and needle makers. Nail and rivet makers. Bolt and screw-bolt makers. Nail cutters. Coiners. Leather dressers and carriers. Manufacturers of great guns and small arms. Candle makers. Biscuit and cracker makers. Lace makers. Ribbon weavers. Stone cutters and marble masons. Dyers, cloth washers and scourers. Coopers. Cider and cheese manufacturers. Crown, chrystal, and plate glass makers. Sugar boilers and refiners, with proprietors of sugar plantations. Manufacturers of railway, bar, round, ribbon and rod iron. Wheel, axle, and spring makers. Engine drivers and persons connected with the locomotive generally. Engineers and captains of steam vessels. Managers of stationary engines. Lumber dealers and owners of saw mills. Veneer cutters. Owners of planing machinery. Corn millers, and persons connected with bolting and bran separating machinery. Farmers and persons using grain shelling and threshing machinery. Buhl workers, carvers, engravers, and ornament makers in general. Persons employed in the manufacture of gas. Makers of copper and lead tubing. Linen and straw paper makers. Shipowners, harbor masters, and others interested in dredging machinery. Well sinkers. Astronomers, philosophers, and others using philosophical apparatus and instruments.—Engineers, miners, and others interested in pumping engines. Persons interested in canals and aqueducts. Warehousemen, and others using hydraulic presses, dynamometric cranes, jack screws, common and fixed cranes. Workers in metals and alloys. Tin plate workers. Spring manufacturers. Wheel wrights, clock makers and horologists. Etc., etc., etc.

The publishers have expended a large sum of money to get original drawings of machinery in practical use in this country, and have procured almost every work on the subject, whether published in England, France, or Germany, the most essential parts of which being comprised in this Dictionary, render it as perfect and comprehensible as possible. The publishers have endeavored to use great economy in type, so that each page of the work contains at least four times the number of words found in ordinary pages of the same size. This has also occurred to such plate working drawings of ample size and clearness, so that a mechanic may construct accurately any machine described.

The publishers are, in short determined, regardless of cost, to make this work as complete as possible; and it is hoped every one desirous to obtain the work will procure it as issued in numbers, and thus encourage the enterprise.

The work will be issued in semi-monthly numbers, commencing in January, 1850, and will progress with great regularity.

The whole work will be published in 40 numbers, at 25 cents per number, and completed within the current year, 1850. A liberal discount will be made to agents.

Any one remitting the publishers $10 in advance, shall receive the work through the post office free of expense.

☞ If the foregoing advertisement is inserted five times during the year, and the paper containing it sent to us, a copy of the work will be sent gratis in payment.

WORKS ON PHRENOLOGY & PHYSIOLOGY, Published by Fowlers and Wells:

129 and 131 Nassau street, N. Y.

Education Complete: embracing Physiology, Animal and self-culture, and memory, in one large volume, price 2 00.

Moral and Intellectual Science. By Combe, Stratton, Cox, Gregory, and others. Illustrated. Price 2 00.

Phrenology Proved, Illustrated and Applied. Embracing a concise Elementary view of Phrenology. Thirty-seventh edition. Price 1 00.

American Phrenological Journal and Miscellany. Devoted to phrenology, physiology and self-improvement. A year. 1 00.

Water-Cure Journal and Herald of Reforms. Devoted to hydropathy and medical reform. A year, 1 00.

Combe's Lectures on Phrenology. By Geo. Combe. A complete course as delivered in the United States. Price 1 00.

Familiar Lessons on Phrenology and Physiology. Designed for children and youth. Beautifully illustrated, 1 00.

Phonographic Class Book and Reader: Containing the first principles of phonography. p 62c.

Hereditary Descent: Its Laws and Facts applied to human improvement. A new and improved edition, price 50c.

Self-Culture and Perfection of Character; including the management of youth. Improved stereotyped edition, price 50c.

Memory and Intellectual Improvement: Applied to self-education and juvenile instruction. Twentieth edition, price 50c.

Religion, Natural and Revealed; or the Natural theology and moral bearings of phrenology.

A Home for All: Or a New, Cheap, Convenient and superior mode of building, with appropriate diagrams, price 50c.

Maternity: Or the Bearing and Nursing of Children, including female education. With appropriate engravings, price 50c.

The Principles of Physiology. Applied to the improvement of physical and mental education. By Andrew Combe price 50c.

Combe on Infancy: Or the Physiological and moral management of children. Illustrated p 50c.

The Constitution of Man, Considered in Relation to external objects. A new, revised, enlarged and illustrated edition, price 50c.

Education, Founded on the Nature of Man; containing an illustrated description of the temperaments, price 50c.

Human Rights and their Political Guaranties; founded on the moral and intellectual laws of our being, price 50c.

Water-Cure in every Known Disease. By J. H. Rausse. Translated by C. H. Meeker, from the German, price 50.

Water-Cure Manuel: A popular work on Hydropatyy. By Joel Shew M. D. Every family should have it, price 50c.

The Parents' Guide for the Transmission of desired qualities to offspring, and childbirth made Easy, price 50c.

A Defence of Phrenology. By Andrew Boardman, a good work for skeptics and unbelievers 50c

Mesmerism in India,. A superior work by the celebrated Dr. Esdaile. Highly recommended by professional men, price 50c.

Rationale of Crime, and its appropriate treatment, with notes and illustrations, price 50c.

Food and Diet: containing an annalysis of every kind of food and drink. By Prof. Pereira, 50.

Vegetable Diet, as sanctioned by Medical Men, and experience in all ages; also a system of Vegetable cookery, price 50c.

Familiar Lessons on Astronomy: Designed for children and youth in schools and families.—Beautifully illustrated, price 50c.

Botany for all Classes: containing a Floral Dictionary, with numerous illustrations. By John B. Newman, M. D., price 50c.

Woman: Her education and influence. With a general introduction by Mrs. C. M. Kirtland. With thirteen portraits, price 40cc.

Fascinnation, or the Philosophy of Charming. (Magnetism.) Illustrating the principles of life. Illustrated, price 40c.

Marriage: Its history and philosophy. With a phrenological exposition of the functions for happy marriages, price 37c.

The Water-Cure for Women in pregnancy and childbirth. Illustrated with numerous cases.—By Joel Shew, M. D., price 25c.

Kectures on the philosophy of mesmerism and clairvoyance. With instructions in its process and practical application, price 25c.

Matrirmony: Or Phrenology and Physiology applied to the selection of congenial companions for life. Illustrated, price 25.

Love and Parentage: applied to the improvement of offspring, including important directions to lovers and the married, price 25c.

Symbolical Head and Phrenological Chart in map form: designed to convey the natural language of each organ, price 25c.

GREAT AMERICAN REMEDY

WESTERN NEW YORK

COLLEGE OF HEALTH.

207 Main Street, Buffalo, New York.

DR. G. C. VAUGHN'S

Vegetable Lithontriptic Mixture.

THIS celebrated remedy is constantly increasing its fame by the many cures it is making

All over the World.

It has now become the only medicine for family use and is particularly recommended for

Dropsy.

All stages of this complaint immediately relieved, no matter of how long standing. (See pamphlet for testimony.

Gravel,

and all diseases of the urinary organs; for these distressing complaints it stands alone; no other article can relieve you, and the cures testified to will convince the most skeptical. See pamphlet. Liver complaint, bilious diseases,

Fever and Ague.

To the great west especially, and wherever these complaints prevail, this medicine is offered.

No Mineral agent,

no deleterious compound is a part of this mixture, it cures these diseases with certainty and celerity, and does not leave the system torpid. See pamphlet.

Piles,

a complaint of a most painful character, is

Immediately Relieved.

and a cure follows by a few days use of this article; it is far before any other preparation for this disease, or for any other disease originating from impure blood. See pamphlet.

Debility of the System,

weak back, weakness of the kidneys, &c., or inflamation of the same, is immediately relieved by a few days use of this medicine, and a cure is always the result of its use. It stands as

A Certain Remedy

for such complaints, and also for derangements of the female frame,

Irregularities, Suppressions,

painful menstruations. No article has ever been offered except this, which would touch this kind of derangements. It may be relied upon as a sure and effective remedy, and did we feel permitted to do so, could give

Thousands of Names

as proof of cures in this distressing class of complaints; see pamphlet. All broken down, debilitated constitutions from the effect of mercury, will find the bracing power of this article to act immediately, and the poisonous mineral eradicated from the system.

Eruptive Diseases

will also find the alterative qualities of this article

Purify the Blood,

and drive such diseases from the system—see pamphlet for testimony of cures in all diseases, which the limits of an advertisement will not permit to be named therein. Agents will give them away; and they contain 32 pages of certificates of high character, and a

Stronger array of Proof,

of the virtues of a medicine never appeared. It is one of the peculiar features of this article that it never fails to benefit in any case, and if bones and muscle are left to build upon, let the emaciated and lingering invalid

Take new Courage,

and keep using the medicine as long as there is an improvement. The proprietor would

CAUTION THE PUBLIC

against a number of articles which come out under the head of Syrups, Sarsaparillas, &c., as cures for Dropsy, Gravel, &c.; they are good for nothing, and are only concocted to gull the unwary.

Touch them not.

Their inventors never thought of curing such diseases till this article had done it. A particular study of the pamphlet is earnestly solicited.

Agents and all who sell the article are glad to circulate gratuitously. Put up in 30 oz. bottles at $2; 12 oz. do. at $1 each—the larger holding 6 oz. more than the two small bottles. Look out and not get imposed upon. Every bottle has "Vaughn's Vegetable Lithontriptic Mixture," blown upon the glass, the written signature of "G. C. Vaughn," on the directions, and "G. C. Vaughn, Buffalo," stamped on the cork. None other are genuine.—Prepared by Dr. G. C. Vaughn, and sold at the principal office 207 Main street, Buffalo, at wholesale and retail. No attention given to letters unless post paid—orders from regular constituted agents excepted; post paid letters or verbal communications soliciting advice, promptly attended to gratis.

Offices devoted exclusively to the sale of this article, 132 Nassau street, New York city; 295 Essex street, Salem, Mass., and by the principal druggists throughout the United States and Canada.

For sale by

S. BUCKLAND, & CO., Fremont;
J. W. Goodson, Bellevue,
Charles Powers, Woodville,
J. K. Owen, Tiffin,
W. Ayers, Upper Sandusky,
Jos. E. Fouke, Little Sandusky,
R. Perry, McCutchensville.

Fremont, June 3, 1849—1y

FIRE AND MARINE *INSURANCE.*

THE undersigned would call the attention of merchants and others having property exposed to loss by fire or the perils of navigation to the superior advantages offered by the

PROTECTION INSURANCE COMPANY, Of Hartford, Connecticut.

1. Rates of premium as low as those of any other RESPONSIBLE office.

2. A speedy and satisfactory adjustment of losses by the General Agent of the company, for the western and southern States.

3. Arbitration (of all differences which may arise) by referees mutually chosen.

4. Awards promptly paid in specie, bankable funds, or exchange on N. York, Charleston, Baltimore, New Orleans, St Louis, Louisville, Pittsburgh or Cincinnati, at the option of the insured.

☞ Pamphlets setting forth the mode and principles of adjusting losses—rates of premiums—classification of hazards, &c., &c., furnished to the customers of the office free of charge.

For further information

apply to the undersigned who is fully authorized to insure dwellings, stores, hotels, warehouses, mills, manufactories, barns, &c., &c.

—ALSO—

household furniture and goods, wares and merchandize contained or stored therein, against loss or damage by fire.

—ALSO—

dry goods, groceries, manufactured goods, produce, household furniture, live stock, and every other description of merchandize or personal property, shipped or to be shipped per good steamboat, or boats to and from points on the western waters, or between eastern cities (via lakes, or other inland route) and any towns in the western country, against the hazards of inland transportation.

—ALSO—

shipments of goods, wares and merchandize, per good vessel or vessels, between New Orleans and other Gulf ports—between all American ports and English or European ports, or to any maratime port whatsoever in the Atlantic waters, against the perils of the seas.

R. P. BUCKLAND, AGENT,
Hartford Protection Insurance Co.
Fremont, Jan. 5, 1850—43-3m

FIRST SPRING ARRIVAL!

OF

New Goods!!

HEAD QUARTERS

HAS JUST RECEIVED BY EXPRESS!

And Over-land Route,

100 pieces PRINTS and GINGHAMS, for early trade, and shall be receiving from day to day until we

Cover the whole Plantation

with Goods, and for this reason they have bought very lightly of the old stocks of goods being sold at Auction. Some people had rather buy old stocks of goods for the farmers than new, but the

Proprietors of "HEAD QUARTERS"

Go in for New Goods!

GREAT BARGAINS and no nine months credit.

☞ SWEEP THIS SPRING. ☜

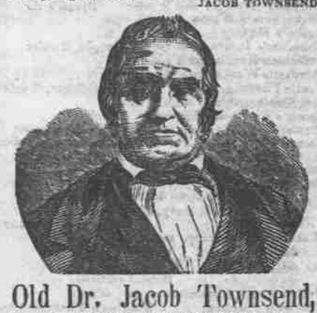
Fremont March 29, 1850.

TRICKS OF QUACKS.

LET EVERYBODY READ THIS CAREFULLY.—There is a Sarsaparilla for sale in the different towns called S. P. Townsend's Sarsaparilla. It is advertised as the ORIGINAL, GENUINE, and all that. This Townsend is no doctor and never was; but was formerly a worker on railroads, canals, and the like—yet he assumes the title of Doctor for the purpose of gaining credit for what he is not. He says "he has attended two medical schools, and practiced for fifteen years!" Now the truth is, he never practiced medicine a day in his life! Such *willful*, wicked, misrepresentation looks bad to the character and veracity of the man. I wish most sincerely, he had never made those statements of himself or of me. When will men learn to be honest and truthful in all their dealings and intercourse with their fellow men? He applied to me Rust Clapp to assist him in manufacturing his mixture, stating the large sums he would make, as an inducement to embark in the business. These men have been insulting and libelling me in all possible forms, in order to impress the public with the belief that the Old Doctor's Sarsaparilla was not the *genuine, original Sarsaparilla*, made from the *Old Doctor's Original Recipe*. This S. P. Townsend says I have sold the use of my name for $7 a week. I will give him $500 if he will produce one single solitary proof of this. His statements of Thompson, Skillman & Co., are nothing but a tissue of falsehoods, simply made to deceive the public, and keep the truth down in regard to his *scurvy, fermenting* compound. This is to caution the public to purchase none but Old Dr. JACOB Townsend's Sarsaparilla, having on it the Old Doctor's likeness, his *family Coat of Arms*, and his signature across the Coat of Arms.

Principal Office, 102 *Nassau-street, N. Y City.*

JACOB TOWNSEND



Old Dr. Jacob Townsend,

THE ORIGINAL DISCOVERER OF THE

Genuine Townsend Sarsaparilla.

Old Dr. Townsend is now about 70 years of age, and has long been known as the *AUTHOR* and *DISCOVERER* of the *GENUINE ORIGINAL "TOWNSEND SARSAPARILLA."* Being poor, he was compelled to limit its manufacture, by which means it has been kept out of market, and the sales circumscribed to those only who had proved its worth, and known its value. It had reached the ears of many, nevertheless, equalizes the circulation of the blood, producing gentle warmth equally all over the body, and the insensible perspiration; relaxes strictures and tightness, removes all obstructions, and invigorates the entire nervous system. In not this then

The Medicine you are eminently need?

But can any of these things be said of S. P. Townsend's inferior article? This young man's liquid is not to be

COMPARED WITH THE OLD DR'S,

because of one GRAND FACT, that the one is INCAPABLE of DETERIORATION, and

NEVER SPOILS,

while the other DOES: *souring, fermenting*, and *blowing the bottles* containing it into fragments; the sour, acid liquid exploding, and damaging other goods! Must not the horrible compound be poisonous to the system?—*What! put acid into a system already diseased with acid?* What causes Dyspepsia but acid? Do we not all know that when food sours in our stomachs, what mischief it produces?—flatulence, heartburn, palpitation of the heart, liver complaint, diarrhoea, dysentery, colic, and corruption of the blood. What is producing but an acid humor in the body? What produces all the humors which bring on Eruptions of the Skin, Scald Head, Salt Rheum, Erysipelas, White Swellings, Fever Sores, and all ulcerations internal and external? It is nothing under heaven but an acid substance, which sours, and thus spoils all the fluids of the body, more or less. What causes Rheumatism but a sour and acid fluid which insinuates itself between the joints and elsewhere, irritating and inflaming the delicate tissues upon which it acts? So of nervous diseases, of impurity of the blood, of deranged circulation, and nearly all the ailments which afflict human nature.

Now is it not horrible to make and sell, and *infinitely worse* to use this

SOURING, FERMENTING, ACID "COMPOUND" OF S. P. TOWNSEND,

and yet he would fain have it understood that Old Dr. Jacob Townsend's *Genuine Original Sarsaparilla*, is an IMITATION of his *inferior* preparation!!

Heaven forbid that we should deal in an article which would bear the most distant resemblance in S. P. Townsend's *article!* We wish it understood, because it is the *absolute truth*, that S. P. Townsend's article and old Dr. Jacob Townsend's Sarsaparilla are *heaven-wide apart, and infinitely dissimilar*; that they are unlike in every particular, having not one single thing in common.

As S. P. Townsend is no doctor, and never was, is no chemist, no pharmaceutist—knows no more of medicine or disease than any other common, unscientific, unprofessional man, what *guarantee* can the public have that they are receiving a genuine scientific medicine, containing all the virtues of the articles used in preparing it, and which are incapable of changes which might render them the AGENTS of Disease instead of health?

But what else should be expected from one who knows nothing comparatively of medicine or disease? it requires a person of some experience to cook and serve up even a common decent meal. How much more important is it that the persons who manufacture medicine designed for

WEAK STOMACHS AND ENFEEBLED SYSTEMS,

should know well the medical properties of plants, the best manner of securing and concentrating their healing virtues, also an extensive knowledge of the various diseases which affect the human system, and how to adapt remedies to these diseases!

It is to arrest frauds upon the unfortunate, to pour balm into wounded humanity, to kindle hope in the despairing bosom, to restore health, and bloom, and vigor into the crushed and broken down victims of infirmity that OLD DR. JACOB TOWNSEND has SOUGHT and FOUND the opportunity and means to bring his

Grand Universal Concentrated Remedy

within the reach, and to the knowledge of all who need it that they may learn and know, by joyful experience, its

Transcendant Power to Heal

as those persons who had been healed of sore diseases, and saved from death, proclaimed its wonderful

HEALING POWER.

This GRAND AND UNEQUALLED PREPARATION is manufactured on the largest scale, and is called for throughout the length and breadth of the land, especially as it is found incapable of degeneration or deterioration.

Unlike young S. P. Townsend's, it improves with age, and never changes but for the better; because it is prepared on *scientific principles by a scientific man*. One highest knowledge in Chemistry, and the latest discoveries of the art, have all been brought into requisition in the manufacture of the Old Dr's Sarsaparilla. This Sarsaparilla, now, is the well known to medical men, contains many medicinal properties, and some properties which are inert or useless, and others, which if retained in preparation, fit for use, produce *fermentation* and *acid*, which is injurious to the system. Some of the properties of Sarsaparilla are so *volatile* that they entirely evaporate and are lost in the preparation. If they are not preserved by a *scientific process*, known only to those experienced in its manufacture. Moreover, these *volatile principles*, which fly off in vapor, or as an exhalation, under heat, are the very *essential medical properties* of the root, which give to it all its value.

Any person can boil or stew the root till they get a dark colored liquid, which is more from the coloring matter in the root than from anything else; they can then strain the insipid or vapid liquid, sweeten with sour molasses, and then call it "SARSAPARILLA EXTRACT or SYRUP." But such is not the article known as the

GENUINE OLD DR. JACOB TOWNSEND'S SARSAPARILLA.

This is so prepared that all the inert properties of the Sarsaparilla root are first removed, everything capable of becoming acid or fermentation is *extracted* and *rejected*; then every particle of medical virtue is extracted in a pure and concentrated form; and thus it is rendered incapable of losing any of its valuable and healing properties. Prepared in this way, it is made the most powerful agent in the

Cure of Incurable Diseases.

Hence the reason why we hear commendations on every side in its favor by men, women, and children. We find it doing wonders in the cure of

CONSUMPTION, DYSPEPSIA, and *LIVER COMPLAINT*, and in *RHEUMATISM, SCROFULA, PILES, COSTIVENESS*, all *CUTANEOUS ERUPTIONS, PIMPLES, BLOTCHES*, and in fact, in becoming a true

IMPURITY OF THE BLOOD.

It possesses a marvellous efficacy in all complaints arising from *Indigestion*, from *Acidity of the Stomach*, from unequal circulation, determination of blood to the head, palpitation of the heart, cold feet and hands, cold chills and hot flashes over the body. It has not its equal in *Colds* and *Coughs*; and promotes easy expectoration and gentle perspiration, relaxing strictures of the lungs, throat and every other part.

But in nothing is its excellence more manifestly seen and acknowledged than in all kinds and stages of

FEMALE COMPLAINTS.

It works wonders in cases of *Fluor Albus* or *Whites, Falling of the Womb, Obstructed, Suppressed*, or *Painful Menses, Irregularity* of the menstrual periods, and the like; and is effectual in curing all the forms of *Kidney Diseases*.

By removing ob
