TOWN TALK.

Next Tuesday vote the Republican ticket and for continued prosperity.  
Vote for Charles H. Nuite for Sheriff, and secure a reliable and efficient officer.

Vote for Ezra A. Faunce for Register of Deeds and County Clerk; a man every way qualified to fill the position.

Vote for Watts S. Humphrey for County Treasurer and thus continue in office the best Treasurer the county has ever had.

The TRIBUNE acknowledges the receipt from Mrs. Frances M. Train of two magnificent specimens of citrons raised on their place.

Vote for Frank Passeno and Philip O'Brien for Coroners, both well known citizens who command the respect of all who know them.

Vote for Oliver S. Hayden for County Surveyor. Mr. Hayden has experience, having served four years as county surveyor of Gratiot county.

Vote for Edwin Z. Perkins for Judge of Probate. His qualifications for the office are unquestioned, and he will fill the position with ability and credit.

Last Wednesday a boy employed upon the Lady May, running between Mackinac and Point St. Ignace, had his leg broke by getting caught in a line on the boat.

Vote the entire Republican ticket, and against the ring that for years has controlled political matters in this county to further their own individual interests.

Vote for Roswell G. Horr, the Republican candidate for Congress, and thus elect a man who you know will work to protect and advance the interests of this district.

Vote for George E. Frost for Circuit Court Commissioner. Mr. Frost is one of our rising young lawyers and will fill the position with credit to himself and to the satisfaction of all.

One of J. P. Sutton's strongest arguments to secure the votes of his fellow citizens is that of the boy digging after the ground hog—"he is out of meat and must have it"—the office.

The schooner Hungerford finished unloading a cargo of brick for the Martel Furnace Co., Point St. Ignace, last Wednesday. The schooner T. Baker arrived there Wednesday with another cargo of brick for the same company.

Vote for Henry W. Seymour for Representative in the State Legislature and secure a gentleman of influence and culture to represent this growing district, and one who will use every honorable means to promote its every interest.

The following are the official figures of the total vote for governor at the October election in Indiana, as received by the Secretary of State: Porter, Republican, 230,291; Landers, Democrat, 222,740; Gregg, National, 14,933; plurality for Porter, 7,551.

The Mackinaw Lumber Company's pile driver was wrecked last Monday night against the dock of the Martel Furnace company at Point St. Ignace. The wind being strong from the eastward creating a heavy sea. Tuesday, while the tug Minter was towing the wreck to the Mackinaw Lumber Co.'s dock, it capsized and the engine was lost in deep water, and there is doubts about it being recovered.

We would call attention to an article printed elsewhere giving the facts in the Wyman-Horr matter about which the Democrat howled so much last week. It will be seen that the whole matter was submitted to, and was arbitrated by three Democrats and that the result was, they held that Gamble owed the Horr's \$23,000. So much for this political "roar-back." It is only in keeping with the maddening tactics of the Democrat.

Republicans, look well to your tickets next Tuesday and see that they are all right before voting. A party that will stoop to forgery as the Democratic party did in the purported Garfield letter will not hesitate at anything to elect their candidates. The Saginaw Herald says it has positive information that the Democrats have had Republican tickets printed with Tarsney's name inserted in place of Roswell G. Horr for Congress, and that they are being circulated in this district. Look out for them.

The propeller Waverly was at Mackinac Thursday after something over 100 barrels of lard that had been picked up from the Cannisteo cargo.

August Gilner of this place has had his pension increased from six dollars to twelve dollars per month. Geo. E. Frost did the business for him.

Watts S. Humphrey spoke at the Duncan City school house Wednesday night to an attentive audience. Those who heard him say that it was one of the best political speeches he ever made.

Some of the Democratic candidates already wear long faces and have about given up the battle as a hopeless one. They will feel worse after next Tuesday when they find how badly they have been left.

The difference between Ed. Forsyth of the Democrat and W. Chander publisher of the TRIBUNE, is that the former cannot find any respectable politician who will associate with him while he acknowledges the latter can.

The Ladies of the Episcopal church gave one of their enjoyable entertainments, in the way of an oyster supper and social at the Grand Central Hotel last Tuesday night. The attendance was large and a good time enjoyed by all.

Because a few Republicans get crazy drunk and assault saloon men, and are kicked out, is it any reason why George Paquette, the best officer Cheboygan ever had, will not make a good Sheriff? Democrat. There's richness for you—"red hot" richness.

The Garfield and Arthur club had a rousing meeting at the Town Hall, Thursday evening. The attendance was large and every one seemed fully aroused to the importance of the coming election. Those present enjoyed the speech of Gen. Granger very much.

A gentleman from Point St. Ignace says that large quantities of the lard from the Cannisteo were gathered in by the habitants of that village, but was so well taken care of that the agents of the underwriters were unable to get any trace of it. He says he heard of lard being offered for sale at ten dollars per barrel and that one dealer was seen cutting up several lard barrels for fuel.

Last Wednesday a young lad named W. E. Burt, son of the Superintendent of the works of the Martel Iron Furnace company, at Point St. Ignace, got his leg caught in a line on the Lady May, running between Mackinac and the Point, resulting in breaking the leg and nearly pulling it off. He would have been more seriously injured had it not been for the timely assistance of P. W. Hombach.

Vote for Frank Shepherd for Prosecuting Attorney. He will make an efficient prosecutor and will not be so busy but that he can find time, when complaints are made, to make out the necessary papers. It will be remembered that in the case of Moore, the jail breaker, James J. Brown, the present Prosecuting Attorney and the Democratic candidate for that office, was so very busy that he could not find time to attend to the complaint until Moore had fled.

A most distressing case of suffering and want was discovered this week in a family named Helmer on the east side of the river. The neighbors had noticed that the curtains had been down, with no one stirring around the house for a day or so and proceeded to investigate, when they found the man and wife both sick in bed with fever, with a young child with them. No wood, no food and suffering for care and treatment. The case was made known to the Directors of the Poor, who at once took steps to provide for their necessities.

The Democrat is much concerned about who attended to collecting the tolls of the Sault canal during the few days Collector Chandler was about. We would like to have the editor inform the readers of the Democrat what business James J. Brown Prosecuting Attorney had to leave and go canvassing in the interests of C. A. Gallagher while several important assault and battery cases were pending, which it was his duty to prosecute. Was it because he feared if he attended to his duty he would offend those he prosecuted and thus lose some votes?

Tim Tarsney the Democratic candidate for Congress from this district, after it was known and conclusively proved that the Garfield Chinese letter was a forgery, did not hesitate to have a large number printed in English and German and circulated in the Saginaw valley, bringing in his opponent the Hon. Roswell G. Horr as endorsing the sentiments therein expressed. Honest and fair minded Democrats of Cheboygan county can you place confidence in a man who will thus endorse a known forgery and circulate it to injure his political opponents? Can such a man be trusted to look after your interests? Think well before you vote next Tuesday and then vote accordingly to your convictions as to what is best for the interests of this large district.

The Democrat gives as a parallel case with the McKay assault and battery case that of Capt. R. H. Mosher against Kurtzman. The editor in order to ward off the damaging effect in Justice Suttons case draws heavily upon his imagination and cries eureka. Let us see how parallel the two cases are. In that before Justice Sutton the complainant is a stranger, whose business is away from Cheboygan. The defendant although residing in Cheboygan is doing business away from home and is absent the greater part of the time, should he have failed to be present on the day of trial, any one can see the injustice that would have resulted to the complaining witness, who of necessity had to come many miles to attend the trial. In the case before Justice Taylor all the parties reside and do business in the village and there could be no reasonable doubt about their presence being secured on the day of trial. Wherein are the cases parallel?

Scalloped oysters at the cafe.

Vote for Archibald Butters the Republican candidate for state Senate from this district.

The Congregational Sabbath school will give a Sunday school concert at the church to-morrow evening. An interesting programme will be provided and all are cordially invited.

Mr. Crawford has completed the brick work of Blake's machine shop and of Dr. Gerow's cottage, on the Mackinac road. Both jobs show that Mr. Crawford is a master of his trade and does not slight his work.

Watts S. Humphrey addressed the largest audience, last night, ever assembled in the Richardson school house, and was listened to with marked attention, arousing the audience to the highest pitch of enthusiasm. Next Tuesday the insects, mentioned by the Democrat, will be met in full force in every portion of the county and make themselves felt at the polls.

Messrs. Riley & Ricker arrived in town this week with their birds-eye view of Cheboygan village, and are distributing them to the subscribers. Upon all sides we hear nothing but the highest compliments paid them for the correctness of the picture, and everyone interested in Cheboygan should purchase one. In a few years from now, when our village has become a thriving and busy city, these pictures will be of great value, and all who fail to embrace this opportunity of securing one, will then regret it. The price is only \$2.00; this sum almost any citizen can afford to give.

Thursday of next week the installation and ordination of Rev. Chas. Marsh will take place at the Congregational church. At two P. M. the examination of Mr. Marsh will take place. The ordination will take place in the evening, services commencing at 7:30. Rev. J. L. Maille, former pastor of the church, has promised to be present. Mr. Maille's many warm friends will be glad to welcome him and meet him once more. The services will be interesting, and we have no doubt will attract a large attendance. A cordial invitation is extended to all to be present at these services.

A remonstrance was circulated upon the street this week, and signed by about every body it was presented to, remonstrating against the State Board of Control extending C. P. Sweet's time for completing his portion of the Cheboygan and Cross Village state road. According to his contract he was to have it completed this fall, but this it will be utterly impossible for him to do. The road is badly needed and the contractor should be held responsible for his failure if there is any way that it can be done, but we fear a forfeiture of the contract would put its completion sometime in the far distant future while the need of the road is imperative.

**The Kelderhouse is the Storm.**  
The schooner John Kelderhouse owned by the Cheboygan Lumber company, of this village, was one of the crafts out in storm that proved so destructive. She was bound from Chicago to Buffalo, with a cargo of corn, 1,300 bushels of which got wet. Captain Mullen reports being struck by the gale when off Manitowoc, but stuck it out, and after experiencing such weather as he never again wishes to encounter, he finally succeeded in getting through without having to run id anywhere for shelter. His decks were completely swept by the terrible seas which washed over them, carrying away everything loose on board and smashing his yawlbait, together with the davits, also smashing in the cabin windows and flooding it with water. During the height of the gale, while the mate was pulling on the main boom topping lift he was swept off his feet and carried overboard by a tremendous sea which broke across the vessel; fortunately he retained hold of the end of the topping lift, and another wave washing him close alongside, he managed to haul himself without receiving any injury beyond a wetting and a good shaking up.

**Personal.**  
A. ANSPACH, of Alpena, spent several days in the village this week, looking after his interests here. He left on the Keweenaw Thursday.

MAJOR F. HARWOOD, who has charge of the harbor improvements, was in the village Thursday night, looking after the work in the Cheboygan harbor.

GEN. W. W. GRANGER, of Washington, D. C., who has been stumping the Upper Peninsula, spent Thursday night in the village, and attended the meeting of the Garfield and Arthur club, at the Town Hall. After the business of the meeting was over he spoke about half an hour and made one of the best speeches of the campaign, which was heartily applauded. It is to be regretted that it was not known in time that he was going to be in the village, so that arrangements could have been made for him to address our citizens. He left yesterday morning for Petoskey.

Oyster patties at the Cafe.

The system needs to be invigorated at times. Ladies will find Reed's Gilt Edge Tonic just the thing their case demands.

Ask your grocer for Reed's Gilt Edge Tonic. It is the great, popular curative. It relieves when others fail. Try it.
