SCHENCKS PULMONIC SYRUP

THE GREATEST REMEDY in the WORLD THE GREATEST REMEDY in the WORLD for the cure of Consumption, and all Boonchial, Pulmonary, Pleuretic and Diyspeptic Affections. Ol all the remedeis now known there is but one that can be relied on for the cure of that "terror of the human race"—Consumption! That Remedy is Schenck's Pulmonic Syrup." It has succeeded is cases where every thing else has failed, and it will generally succeed in curing every case of consumption where the following things are attended to, vix: a fair trial, perseverance, and strict conformity to the directions. It things are attended to, viz: a fair trial, perseverance, and strict conformity to the directions. It may not be amiss to state the reason of the great success of the Pulmonic Syrup. It is the most powerful purifier of the system known, it operates by assisting nature, to expell the disease from the Lungs; stomach and Liver. Where there is heetic fever, night sweats, constipation, all usual symptioms of Consumption, the use of the syrup removes the fever, stops the night sweats, and regulates the action of the bowels, making them healthy and natural. It sooths and ripers the disease of the lungs, and then expels it in the form of expectorated matter and it is truly astonishing what quantities of corruption are expectorated by patients generally who have taken the pulmonic Syrup; and this continues until all disease of the lungs is removed, and the patien flads, to his joy, that he is restored to health. SCHENCK'S PULMONIC SYRUP.

A great cure at the Newbrunswie Theological Seminary.—February 5, 1845. Mr. J.H. Schenck Dear Sir:—With great satisfaction I inform you of the great I have derived from your Pulmo Syrup. I obtained six bottles from you agent in this place, Messrs. Simpson & Vail, and I had not taken two of them before the profuse night sweats and toe incessant cough which deprived me of sleep, left me, and before I had taken three secured to be paid by an Indenture of Mortgage bottles, I disolarged from my lungs, at several bearing date the 10th day of October, in the different times, a quantity of hard white substance year 1838, executed by Augustus F. Ball, then I continued using your Syrup and I had taken of Ypsilanti, Washtenaw Coun'y, Michigan, to Shubael Conant of the city of Detroit, recorded in the office of the register of Deeds of said County, on the 12th day of February A D 1839 in Liber no. 7, at page 402, which mortgage was duly assigned to Charles W. Lane on the first day of January, A D 1844, upon which tain curo for pulmonary diseases. I am your mubh indebted and humble servant. B. F. MUDON.

Preparee by J. F. SCHENCK, and for sale at his principal office, No. 32 South sixth street Philadelphie, and No. 4 Courtlandt st. New York opposie the National Hotel osie the National Hotel. Also for sale by E,

THE PRECEEDING figure is given to I represent the Insenible Perspirations .-this the great Evacuation for the impurities of the body. Life cannot be sustained without it. It is thrown off from the blood and other juices of the body, and disposes by this means, of nearly all the impurities within us. The language of Scripture is "in the Blood is the Life," If it ever becomes impure, it may be traced directly to the stoppage of the insensible perspiration. Thus we see, all that is necessary when the blood is stagnent, or in effected, is to open the pores, and it relieves itself from all impurity instantly. All practitions, direct their efforts to restore the In-sensible Perspiration. The Thompsonian, for in-stance, steams, the Hydropathist shronds us in wet blankers, the Homopathist deals out infinitis. simals, the Aliopathist beeds and doses us with

mercury, and the blustering Quack gorges us with pills, pills, pills, is a pills, pill Dr. Lewenbock; ascertained that five-eights o all we receive into the stomach, passes off by this means. In other words, if we cat and drink eight pounds per day, we evacuate five pounds of it by the Insensible Perspiration.

This is none other than the used up particles or blood, and their juices giving place to the new and fresh ones. To check this, therefore, is to retain in the system five-eights of all the vert matter that nature demands should leave the body By a sudden transition from heat and cold, the pores are stopped, the perspiration ceases, and disease begins at once to develope itself.

It is by stopping the pores, that overwhems mankind with coughs colds, and consumption,— Nine tenths of the world die from diseases induced by a stoppage of the insemble Perspiration. Under these circumstances I present to Physi

alogue of cutaneou disorders, and restore the

it in every varity of way, and there has been but
