### SIGN CONTRACTS FOR FEDERAL AID

Guymon Herald says: Through the services of County Engineer W. A. Ingram, supported by Commissioners O. C. Glatthaar and Sam B. Hall, Texas county is to secure Federal Aid for the building of highways through Texas county. This means that the Federal government with the tax payers of Texas county will put up dollar for dollar to build substantial highways for the use of the citizens and the tourists who travel this way. This was finally arranged for by Messrs. Ingram and Glatthaar while they were in Oklahoma City last week, and they brought the contracts back with them, which were signed and returned to the Highway Commission early this week. This contract was accompanied by a warrant for sixteen odd thousand dollars, the amount now on hand of state road funds. This means that road work to the extent of thirty-two thousand dollars will be contracted by and executed under the direction and inspection of the Federal government in Texas county. We understand that the first work is to be done on the Atlantic-Pacific, or what is better known as the Right-of-Way Road, which parallels the Rock Island tracks from northeast to southwest, through the county, and that the road between Guymon and the Kansas state line will be given the first attention.

The County Commissioners held an adjourned session Saturday to consider this proposition, and it was at this meeting that the contract was decided upon. For some reason Commissioner Landess had a change of heart after first favoring the Federal aid project, for after conferring with local political guides, he concluded he would not sign the contract for the Federal aid. It is safe to say that he did not get such a "bum steer" from the good roads boosters of Hooker and Tyrone in his district who attended the recent Atlantic-Pacific Highway convention held in Liberal, Kansas, because they were they were unanimous in their insis- way for Federal aid should be se- tence that recognition of this high- cured at the earliest possible mo- ment. This highway is already rec- ognized as one of the very great highways of the nation, and they will

not relish any action that might tend to block its progress, and develop- ment through their communities.

### COMMUNITY BASE BALL

There is a chance now to have the entire community back of the base ball for the summer. The members of the team agree to play all games on week days and as far as possible to make the games in Liberal on Wednesdays, so that it can be made a special day on the part of business. They also agree that they will give us clean sport, free from gam- bling, and conducted in such a way that ladies may at all times be wel- come at the games. They ask that the community back them by attend- ing the games and by buying season tickets, thereby helping to finance the games. The tickets will be good for ten games and will sell for \$2.50. Children's tickets for \$1.00. The money will be placed in the bank and held by a citizen's committee com- posed of members selected by the churches and various civic clubs of the town and paid to the ball team as the games are played.

Next Tuesday afternoon a canvas of the city for the sale of tickets will be made. We believe this is a move in the right direction and should receive the hearty support of the peo- ple. In this way we can have clean sport and in such a way that the en- tire community can get back of it. This plan has received the sanction and support of the Ministerial as- sociation and churches and is looked upon favorably by the Rotary and Lions Clubs. It is meeting with favor in the minds of the business men. We should like to urge that you buy as many tickets as possible. Business houses that have made cash dona- tions in the past can finance it this way and have the tickets for the use of their patrons and employees.

Let's all get together and back the team. It will do all good and the community will profit by clean amusement of this kind.

G. H. Davis of Haviland Kansas was shopping in Liberal the latter part of the week.

Ernest Evans of the Evans Har- ness Company made a business trip to Perryton the last of the week.

### DO YOU KNOW HOW YOUR CLOTHES ARE CLEANED?

Your garment is first placed in a big cleaning machine containing a so- lution which is chiefly made from high grade Naptha and Gasoline Soap. Run until garment is clean, then rinsed twice in Naptha, then it passes to extractor, which dries it; they goes to dry room to take out odor; then the garment is spotted, repaired and pressed with steam, and delivered to your room on hanger, for no more money than any other shop. Call Us, Phone 126.

## Summer Frocks Are Refreshingly Dainty

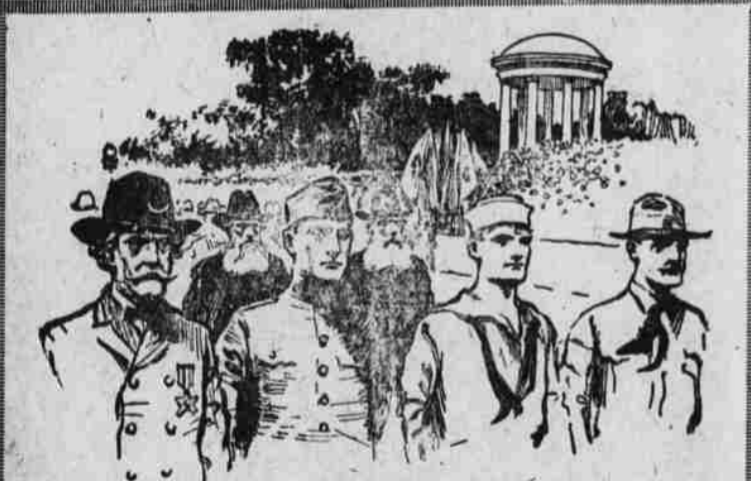

Their airy loveliness is as refreshing to the eye as their breezy coolness is comfortable to the wearers.

Though the lines of these Frocks are simple, they are often attractively garnished with delicate bits of handwork, lace or ribbon.

"Exquisite" you'll say when you see them.
