

# BUY All woolen Goods NOW

Because of the alarming scarcity of wool and the fact that the Government is requiring a large percent of the supply on hand, prices of woolen goods will soon be much higher than at the present.

Prudent buyers will forestall this rise by buying all woolen goods now, and buy in such quantities as will be likely to carry them for some time.

We still have a limited supply of the best at present prices. Buy before prices jump and while we have an assortment.

Meade's third annual chautauqua closed last Saturday, and those who attended say the program this year was the best yet. From a financial standpoint the undertaking was a success, when the crop conditions are considered, and it is known that the guarantors were only assessed \$2.00 each to make up the deficit. The contract for next year was signed, and it is expected that the program will be superior to the one given this year.

## What The Packers Do For You

Not very many years ago in the history of the world, the man that lived in America had to hunt for his food, or go without.

Now he sits down at a table and decides what he wants to eat; or his wife calls up the market and has it sent home for him. And what he gets is incomparably better.

Everyone of us has some part in the vast human machine, called society, that makes all this convenience possible.

The packer's part is to prepare meat and get it to every part of the country sweet and fresh—to obtain it from the stock raiser, to dress it, cool it, ship it many miles in special refrigerator cars, keep it cool at distributing points, and get it into the consumer's hands—your hands—through retailers, all within about two weeks.

For this service—so perfect and effective that you are scarcely aware that anything is being done for you—you pay the packers an average profit of only a fraction of a cent a pound above actual cost on every pound of meat you eat.
