Women's Hair

keep the comb factories running. If women all had short hair, like the men, we venture to say that the comb-making business would not be the success that it is. We sell lots of combs for 5 cents, and in a short time there has to be a new comb. True, you can afford to buy several if you buy them at 5 cents, but next time ask us to show you why some combs are 25 to 30 while others are only 5 cents. There is a reason for it and it is easily explained. We keep all kinds; we also keep combs for men and pocket combs in cases.
