### CASES OF HORSE PLAGUE DEVELOPING

According to the report of Dr. F. S. Schoenleber, head of veterinary department and E. H. Webster, director of the experiment station of the Kansas Agricultural college at Manhattan, at least twenty thousand horses have died of cerebro spinal meningitis in the last month in the western half of Kansas. They also say that the disease is as virulent as fever. They estimated the money loss by this disease in the neighborhood of two million dollars in horses alone. In addition to this there is a direct loss to the farmers in their crop due to the lack of horses with which to do their farm work.

The Santa Fe railroad has made estimate of the number of horses that have died of this disease in the counties in Kansas through which its lines run and say that a conservative report places this number at five thousand.

A remedy has been widely advertised while the state veterinarians claim that they do not yet know of anything to cure the disease. In one county where this widely advertised remedy has been used the same rate of fatalities and recoveries continues as before the use of the medicine.

It has been reported that there are fewer cases of the plague than a week ago. As far as can be told this is not the case. There is no one to report these things any longer as the farmers now take the cases as a matter of course, while for the first week they reported them.

It has rained almost constantly over Western Kansas for four or five days and it is thought that the rain with the cold wind blowing will be a great help toward the staying of the plague.

As far as the situation is concerned, locally, it appears that there has been no horse plague throughout this section of the country. Some cases have been reported as such, but the veterinarians have not agreed upon the cases. Some of them told that the diseases of which horses have been dying here are forms of the plague while other veterinarians as stoutly insist that their death was not caused by the plague, that the horses had no symptoms of cerebro spinal meningitis.

### Market Report.

Kansas City Stock Yards, Sept. 16, 1912. The experience of the last week shows that there is no excessive supply of cattle bearing on the market this fall. Nothing prime is here today, though strictly fancy beefs would bring around \$10.00.

Today, quarantine steers \$4.20 to \$5.00 Colorado and Western beef steers \$5.75 to \$7.00, native and western grade cows and heifers \$3.75 to \$5.00, top veals \$9.25. Run of quarantines today 80 cars, and of Colorado and westerns 40 cars.

The 4000 hogs that came in today averaged steady. An order buyer paid the top, \$8.87 1/2, for a load that exactly suited, but bulk of sales ranged from \$8.40 to \$8.80.

Run of sheep and lambs today 17,000, market steady, at about a quarter above a week ago, top lambs \$7.40, feeding lambs \$5.85 to \$6.25. Range wethers around \$4.35, yearlings \$5.50.

They are Mr. and Mrs. Clyde Farthing of Neke City, Mo. They left home Saturday morning. The bride, Miss Virginia McFarland, forgetting to say anything about the matter to her mamma. They came over to Columbus Kansas to be married. They only await now the kiss of forgiveness or the apple-butter paddle, they don't seem to know which.

### CHANGING GAS PIPE

A force of men were busy Monday laying new pipe for gas across Main street just east of the Santa Fe tracks. These pipes have been in the ground for several years and badly rusted out causing a great deal of leakage. New pipes are being put in as fast as possible so that Main street consumers will be ready for winter with a good supply of gas.

### Mystery of Love.

If a man should importune me to give a reason why I loved him I find it could no otherwise be expressed than by making answer, because it was he; because it was I. There is beyond all that I am able to say, I know not what inexplicable and fated power that brought on this union. — Montaigne.

Chinese Children Like Paris. Recently a number of Chinese children have been found in the streets of Paris and taken before the magistrates as vagabonds. These children were brought to France by showmen to perform as acrobats. After a few months, their performances having lost their novelty and ceased to attract, the managers abandoned them. They have been taken to the Chinese legation to be sent home. But they don't want to go home. The beautiful city of Paris is more to their liking.
