SOME CONNECTICUT AUTOMOBILE LAWS

A. G. Nelson Read a Few From Newspaper Clipping

At the Luncheon and Smoker given by the Automobile Club A. G. Nelson read from a newspaper clipping a few of the laws claimed to have been enacted by Connecticut farmers in regard to automobiles. From this clipping it would appear that motor laws in Kansas are a great deal better for the tourist than in Connecticut.

Among the rules more were a few to this effect:

In approaching a corner the motorist could not see around the corner he should stop his car a number of yards from the corner, toot a horn, blow a whistle, fire a pistol and send sky rockets before he goes all the way to the corner.

If a motorist meet a farmer on the road and his team become frightened, said motorist shall dismount take his car in pieces and hide it in the grass until the farmer has passed.

That when a motorist passes a farm house, he shall drive at a speed of one mile per hour, stop the engine and hand sprinkle the road so that no dust will blow into the house, from the car.

The speed limit shall be secured and for violations of it a fine of one hundred dollars shall be imposed for one mile per hour over the limit, two hundred dollars for two miles over the speed limit and so on.

Toast master Farrelly immediately announced his intention of making a motion to the effect that the Kansas farmers and especially those of Neosho county should adopt the above rules.

SUBSCRIPTION FOR THE BAND

T. L. Morrison, Stacy Gordon and T. A. Jeffers, band committee are busy this morning with getting subscriptions for the support of the band during the coming year. Cards are printed and these are to be filled in with the amount one cares to give per month to the band and signed. Then each month collectors are sent around for the payment. The band committee reported good success with the beginning of their campaign this morning.

Had Guns But Not the Game

Some poor lonesome duck hunter went early to the country Tuesday morning to get some of those ducks that the other hunters had said were so plentiful. He took with him plenty of the implements of duck shooting, having a couple of guns. But he must have missed the ducks for only one little specimen of the duck variety had rewarded all his efforts with his two trusty guns.

SEWER ORDINANCES PLENTIFUL

Besides the sewer from Pine to Ash on North Evergreen avenue the commissioners have on hand two other construction ordinances for sewers. One is in Main Sewer district number three and the other in Main district number 2.

COMMITTEE OF TEN MET

The Committee of Ten, East side, with a few members of the Committee of Ten West, met Tuesday morning in the office of J. J. Hurt and discussed at some length the high school proposition. At four o'clock Tuesday afternoon another meeting of the East side committee was called and this was a real "executive session," one at which they have not told the public at large, as yet, about.

Coughs that keep you awake at night also disturb the sleep of the rest of the family. They can be stopped in a few minutes with

FUNERAL OF MRS. LESTER

Wednesday's Timesett

The funeral services of Mrs. Lottie Lester will be held from the residence of Mrs. Chadd's daughter, Mrs. George F. Boehm this evening at seven-thirty by Rev. G. G. Horne, pastor of the Christian church. The body will be shipped to Ottumwa, Ia. for burial and will leave on the one o'clock train tonight. Mrs. Lester is sixty-four years, eight months and sixteen days old at the time of her death. Death resulted from a cerebral stroke.

The surviving relatives are Mrs. L. Lester of Springfield, Mrs. Fuller of Little, Wash. and one brother Mr. McKinney Herculba, Mo.

Smith to Tour with K. U.

Lloyd Smith is again this year one of the Basket ball Varsity team who will make a tour through Missouri this week. The bunch left Lawrence this morning. The trip includes games at Columbia, St. Louis and Warrensburg. Smith was a Varsity basket ball man last year, winning his "K" at that time.

SANTA FE ENTERTAINMENT PLEASSED

The Santa Fe Reading room entertainment at the First Christian church Tuesday night attracted a large crowd, there being standing room only at eight o'clock. The entertainment began promptly at eight fifteen and although not very long each number appeared to please the audience and brought forth a good round of applause. The Irish songs of Miss Dorothy Temple were especially well liked it seemed and the ensemble work of the company was far above the average.

Many people pronounced it one of the best, if not the best, entertainment that the Santa Fe has provided in Chanute.

Henry Draper's Mother Dead

Mrs. John B. Draper, mother of Henry Draper who formerly on the Timesett force, died Sunday morning at her home in Oswego at four-thirty. She was fifty-eight years, two months and ten days old. The funeral services were held at the Presbyterian church Monday afternoon at two o'clock. Interment was made in the Oswego cemetery.

POSTOFFICES FOR KANSAS

A public buildings bill passed Congress last week containing authorizations for four new public buildings in Kansas, an appropriation bill carrying appropriations totalling \$154,000 for the completing of buildings previously authorized by an act of Congress. The four new post offices will be located at Cherryvale, Hiawatha, El Dorado and Pratt, and each is to cost sixty thousand dollars.

One of the Public buildings already authorized is the post office here for which an expenditure of \$75,000 is authorized; already appropriated \$15,000. Work will be placed on the market in the last quarter of 1914.

For Ottawa, authorized \$85,000, already appropriated \$42,500. Work to be placed on the market early in 1914.

Parsons, already appropriated \$75,000. Contract awarded and work seventy-three per cent completed.

A. C. Caylor of St Joseph, Mo, is in town on business.

Market Report.

Kansas City Stock Yards, Feb. 24 1913
Ed Harrison, Greenwood County, Kansas, topped the native steers market with one load of 1463 pound steers at \$8.85. Bulk of the native steers sold at \$8 and upwards, sugar mill steers from Northern Colorado \$8 to \$8.40, Colorado feeders \$7.90, quarantine steers \$7.35 to \$7.90, Colorado cows \$6.45.
How receipts today 5000, market 10 to 15 higher, top \$8.40 and bulk \$8.25 to \$8.35.
Sheep and lambs are irregular, with aged sheep showing strength, and lambs holding barely steady, and the difference between them is closing up. Receipts here today 11,000, sheep steady, ewes up to \$6, weathers \$6.50, yearlings worth \$7.75, lambs 10 lower, top \$8.60.

There Is a Difference

Did you ever stop to think that there is as much difference in Monuments as there is in Dry Goods, Clothing, Shoes, etc, etc?

Go with me to the cemetery and you will soon discover that the substantial improvements made are Chanute products. You will also discover that there is an individuality about the monuments furnished by the Chanute Marble and Granite Works that you do not find in work that is furnished by outside parties.

I have been in the monument business in Chanute over fifteen years during which time there was about an average of \$200 worth of work shipped in by outside dealers and I assure you there is a vast difference between this work and that furnished at the Chanute works.

I have not erected any monuments amounting to over \$100.00 but what are of granite throughout and these are in no cheaper granite than that I used for my Mother, which has been a standard granite in the United States for over one hundred years. My competitors can not compete with me on this class of work owing to the fact that the expense in local freight and delivering the same amounts to from 5 to 15 and sometimes as much as 20 per cent, this, as well as cost of selling makes considerable extra expense which you can avoid by buying at home.

My competitors say they can sell cheaper; this is true by using cheaper material and making cheaper designs than my conscience allows me to use. I aim to use only the best and I carry about fourteen varieties of domestic and imported granites. However, some of my would-be competitors build monuments out of Limestone and call it Marble, the analysis of which is in line with our native stone. They back up their material with a lifetime guarantee. Well now that is convincing when we think that a monument should last a DEATH TIME and if it is not built out of a good variety of granite it will not stand against the elements. These inferior materials are barred from our large city cemeteries and well they should for the question is what would the coming generations do with wrecks and ruins of cemeteries that are being dotted with so-called monuments built out of material that will deteriorate in less than a decade.

The best grades of granite is the cheapest material that should be used for monumental work; the same should be worked into pretty designs and well executed in art. Do not trust a stranger with furnishing, or try to furnish you with, a would-be duplicate of a flashy photograph when you can step into my showroom and select the very monument you want and at prices that can not be duplicated by outside parties.

I am furnishing about 90 per cent of the work that is being erected in the Chanute cemetery and I assure you I can find more dissatisfied customers out of the 10 per cent that buy their work abroad than you can find with the 90 per cent that buy their work at home.

In my fifteen years of business in Chanute, I have enjoyed a very good business; as a whole the Chanute people have been loyal to me. You all know me and my methods of doing business of which I am not ashamed.

Trusting you will consider these points in buying a monument, I am Very truly yours,

His Fear.
"Weren't you afraid to go downstairs in the dark last night?" asked a woman of her little son recently. "Yes, I was a little afraid," answered the boy. "But what were you afraid of?" asked the mother. "H'm," said the boy, "I was afraid there wouldn't be any doughnuts."

Changing Hues.
"You are in love with a blonde," remarked the fortune teller, "but after you marry her, beware of a brunette who—" "No danger," remarked the patron; "it's the same woman."—The Ladies' World.

Wife's Privilege.
"That is the wife's privilege," remarked the West Ham Clerk to a man who complained that his wife nagged him.—London Globe.

Sharpening Scissors.
The simplest way of sharpening scissors is to take a knife and cut away at the back of it, as if you wished to cut the blade of the knife in two with the scissors. Do this ten or twelve times. The effect is marvelous. The poker can take the place of a knife.

His Unavailing Search.
"Well, James Henry Williams, did you enjoy yourself at the seaside?" "Yes, teacher, very much. I liked the sea, but I couldn't find the inthemis." "The what, James Henry Williams?" "The inthemis, teacher; where it says in the Bible, 'The sea and all that in them is.'"

Air Purified.
The air of a cellar or any dark store room can be kept sweet by hanging lumps of charcoal in net bags. Every few weeks the charcoal should be taken out, made very hot and returned to the bags.

Softening Granite Slabs.
It has been observed that, under certain conditions which have not been explained, granite will warp like wood. A slab set in a wall has been under observation in Switzerland, and a perceptible distortion has made itself apparent.—Harper's Weekly.

Jap Baker's Sign.
The oriental capacity for using our mother tongue with strange twists of unconscious humor is well known, but few examples are equal to this delicious sign on a Japanese baker's shop: "A Karinura, Biggest Loafer in Tokyo."—Oriental Review.

Snubbed "Iron Duke."
The Duke of Wellington, who had a taste for anything that Napoleon had liked, applied to David the artist, who had painted Napoleon's portrait, requesting David to execute one of himself. "Sir," replied David, "I paint only historical characters."

Dors at the Party.
Little Dors had been to a party, and in answer to his mother's inquiry as to whether she had enjoyed herself exclaimed, "Oh, it was lovely, mummy, but so hot that I come out all in a perforation."

The Correct Time

Is sometimes a matter of great importance. A watch that doesn't tell the correct time is just as bad as no watch at all. If your watch shows an inclination to be eccentric, unsteady in its habits, bring it to us and we will put it in shape at a very reasonable cost.
C. E. CONKLIN, the Jeweler

Cause of Fall of Bullet.
The resistance of the air and the attraction of gravitation cause a bullet or cannonball to end its flight and fall to the earth; these two forces operating together cause the projectile to describe a curve dependent on its initial velocity. The greater the speed at the beginning the farther it will go.

Error of Intellect.
Through the ordinary course of mortal failure and misfortune, in the career of nations no less than of men, the error of their intellect and the hardening of their hearts may be accurately measured by their denial of spiritual power.—Ruskin.

Law of the Harvest.
The law of the harvest is to reap more than you sow. Sow an act and you reap a habit; sow a habit and you reap a character; sow a character and you reap a destiny.—George D. Boardman.

Generally.
The man who thinks he is one of the chosen few generally turns out to be one of the disappointed many.
