For sale by . . . The VOGE Wholesale Liquor Co. Grand Jury Has Completed Labors

(From Friday's Daily.) After a session of four days the grand jury for the May term of the district court adjourned yesterday afterday about five c'clock. While in session they have investigated twenty-

six cases, finding fourteen indict-

ments, and ignoring twelve. The jury report filed yesterday shows that two charges of burglary, made against Mrs. Fred L. Roemer, were investigated and dismissed. The report is signed by H. K. Behn as chairman and J. P. Bauder as seere-

The grand jury adjourns after finding one sensational indictment, that being against William Thomas, superintendent of the county hospital. It has been hinted that several others might be forthcoming, but the jury has ceased its labors for this term without divulging any of them.

The interesting feature of the district court session yesterday, aside from the Thomas arraignment was the unexpected plea of guilty to two more burglary charges by Fred L. Roemer. Though he had retained counsel, Roemer made no effort to defend himself against the charges.

Roemer pleaded guilty yesterday to the charges of burglary in the stores of M. Goldwater and Brown Bros. The day before he pleaded guilty to the J. I. Gardner charge, He will be sentenced tomorrow for all three offenses by Judge Sloan,

Charles Battre was arraigned yesterday on the charge of assault with a deadly weapon upon T. C. Archer, He will appear this morning to enter his pleas.

A motion was made for security of costs in the case of John H. Hise vs. C. C. Bragg.

Reardon versus the Model Gold Mining company was placed on the calen-

A motion was made to substitute the receiver for the defendant in the case of F. H. Skinner vs. the Lone Pine Mining Company.

Motion for cost bond was made in the Bradford vs. McDowell litigation. Judgment for the plaintiff on a mortgage was granted in the case of Richard Umlah vs. J. W. Burns and George Karl.

Rosenberger vs. the American Copper company was heard on a motion to substitute the trustee of the property as a party to the defense,

Judgment on a forcelosure of a mort gage was had in the case of D. N. Bartholdi versus the Monroe-Fuller Gold Mining Company,

In the case of Dickey versus the Crown King Mining Company, the defendants disclaimed ownership of the property involved, and judgment with costs was awarded the plaintiff.

Reese M. Ling filed a petition, asking that John M. Russell be examined and admitted to practice. Attorneys R. M. Ling, E. M. Sanford, and J. M. examine him.

In the grand jury report filed yesterday the following indictments are shown to have been found: Forgery, 1; burglary, 4; grand larceny, 4; assault with deadly weapon, 2; petty larceny, 1; embezzlement, 1; presenting unlawful demand on county, 1; total, 14.

The following were ignored: Forgery, 1; burglary, 3; grand larceny, 3; assault with deadly weapon, 5; total,

# Thomas Appears To Answer Charge

(From Friday's Daily.)

For the second time within the past two years William Thomas, superintendent of the Yavapai county hospital, faced Judge Sloan to answer to a charge of presenting an unlawful demand upon the county for services rendered in his capacity.

Attorney R. E. Morrison represented the defendant in court to answer to the charge of having falsified his books, as the result of which the county is alleged to have paid him \$35,75 for keeping Refusio Dorami in the hospital sixty-fifive days, when she had been there only eight.

Thomas was arraigned, and will plend to the charge this morning. His bond was fixed in the sum of \$1,000, which amount he was released to se cure and deposit with M. J. Watts. elerk of the district court. It took some time to get it.

An indictment was found against Thomas by the grand jury last Wedpesday, as told exclusively in the Jourral-Miner of yesterday. Wednesday evening a warrant for his arrest was placed in the hands of the sheriff's office. Thomas was notified, and anpeared in court yesterday morning without the formality of an officer going after him.

The indictment against Thomas sets forth in full the nature of the charges against him, and just how he is alleged to have secured \$31,35 from the board of supervisors to which he was not entitled.

It shows that on September 30, 1903, Superintendent Thomas presented his claim to the supervisors, in which he

asked that the board pay him fifty-five cents a day for the keeping of Refusio Dorami four days in the preceding July, thirty-one in August and thirty days in September. The board allowed him the full bill of \$35,75.

The grand jury alleges that Refusio Dorami was in the hospital on the days between July 28 to August 4, and that at the rate of fifty-five cents a day he was entitled to only \$4.40 for the eight days she is alleged to have been an inmate.

Among the witnesses who were examined by the grand jury in the Thomas case were H. D. Ross, C. P. Hicks, and J. H. Robinson. Probate Judge Hicks' records show that Refusio Dorami was committed to the territorial insane asylum by him on August 4. 1903, and that he has a receipt showing that she was received there on the following day.

It is stated by the defense that Thomas is innocent of the charge made against him, and that as much will develop when he is tried. It is hinted that spite work will be shown to have figured in his indictment.

#### Goldwater Gets Monument Funds

(From Friday's Daily.)

Mayor Morris Goldwater, treasurer of the Captain O'Neill Rough Rider Monument commission, now has \$355, the first sum turned over to him to be applied on the erection of the shaft to the memory of Yavapai's dead hero.

For the past five years the money has been in the keeping of Rev. Father Quetu, to whose custody it was entrusted about five years ago by M. J. Hickey, who had gathered it from various sources.

When the news first reached Pres ott that Captain O'Neill had been killed on San Juan hill on July 2 1898, Hickey and others started ; movement toward the erection of a monument to his memory. It was continued until the Prescott fire of 1900. After that efforts were turned toward the legislature for an appropriation.

Hickey stated yesterday that he had list of those who had promised to give sums toward the monument, which totaled about \$800. Of this amount he was unable to collect more than \$355 prior to 1900. In the fire of that year his list of subscribers was destroyed, and he has collected nothing since.

Efforts were made by other parties to collect funds, but no record has been kept of their success. If there is any money now that belongs to the monument the commission would like to hear from parties who have it in their pos-

Speaking about the early efforts that were made toward a monument, Mr. Hickey stated that Meyer Bros., Albuquerque cigarmakers, secured the consent of Mrs. Brodie to manufacture the Captain O'Neill brand of cigars, with the understanding that they would contribute \$2 for every 1,000 eigars At the time they turned over \$100. Inquiry will be made to determine whether or not they still owe any royalty to the monument fund for the sale of cigars since that time.

It is believed that if all the money promised or paid in a few years ago can be secured the commission will have about \$1,000 with which to swell

# Rigby Coming To Put Up Machinery.

(From Friday's Daily.) T. John Rigby, president of the Rigby Reduction plant near Mayer, has left Fairmont, W. Va., for Prescott to arrange for the installation of machinery and to prepare the plant for opera-

In Fairmont recently President Rigby discussed the plan of his company, stating among other things that a large amount of machinery has been

The Rigby plant has several times been reported ready to blow in, but for reasons best known to those in the management it has been impossible to get the plant in operation.

Rigby's coming at this time is the fulfilment of a promise he made when here a few months ago, at which time he stated that about the middle of the year the plant would be ready for

# BUCKY O'NEILL MONUMENT.

Every patriotic citizen of Arizona as glad when the legislature appro printed \$10,000 to pay for a monument for Hon, W. O. O'Neill, who lost his life on San Juan hill when leading his ompany against the Spaniards, Aritong never had a more popular citizen than "Buckey" O'Ne.II, nor one who was more intensely loval to Arizona. He came to Arizona a boy looking for a job as a printer, he left it to defend and aphold the glory of his country. During his life in Artzonn he stood at all times for those things which would upbuild and advance the interests of caper man, and in the columns of the big papers of the country he always of Arizona.-International-American.

#### Joker Is Found In School Law.

(From Friday's Daily.)

The good citizens of Prescott who are interested in the success and in promoting the efficiency of the public schools, will be surprised to learn that no relief, after all, is to the obtained from the legislature in regard to providing funds by taxation for the maintenance of the manual training and sewing departments. Although such a law was enacted, it is now discovered that the bill contains a "bug." which practically nullifies the objects for which it was intended, and Henry T. Andrews, clerk of the board of trustees, thus explains the situation in the following communication:

"Since the publication of the laws passed by the last legislature, it is learned that the manual training bill did not pass as it was originally drafted. Our graded schools, as most persons are aware, are maintained from the county school fund. The manual training bill, as originally drawn up, provided that manual training expenses should be paid from the same fund.

Immediately after the bill was passed, Leroy Anderson wrote City Superintendent Billinghurst that it went through without any change whatever. But on reading the law as officially printed, it is found that the word "district" has been substituted for "county" in such a way that to pay for manual training and sewing in the Prescott schools it would be necessary to levy a special local tax in the school district for such purpose. This method of securing funds would increase local taxes to such an extent that we believe it best to abandon manual training in our public schools.

"It would have been entirely consistent and just to have paid for ma nual training from the county school fund, as the Arizona school law now permits special teachers of music and drawing to be paid from such fund. Moreover, it would be eminently fair to the larger towns of the territory. since all of them pay into the county school fund more than they get back for the support of their own local schools. Prescott, for example, at one time paid twice as much to the county school fund as our own local schools cost. The balance goes to the support of the outside district schools. many of which are far from self-supporting. Hence, we think our manual training teachers should properly be paid from the county school fund.

"Mr. Anderson is greatly surprised that the manual training law was not passed as drawn up, and does not know where or when the change was

"The trustees of this district take this opportunity of thanking Mrs. Hugo Richards, the members of the Monday Club, and all those who have made voluntary contributions in their splendid work of introducing sewing and manual training into our public schools, and very greatly regret that the law, as passed, will not permit them to continue these subjects in our schools.

"HENRY T. ANDREWS, "Clerk of Board of Trustees."

# How Republicans of Phoenix Won

Gus Hirschfield, who took a prominent part in the municipal election in Phoenix last Monday, being a strong sapporter of Mayor-elect J. C. Adams, talked about the campaign and its results vesterday afternoon.

Hirschfield, who has business interests in Prescott, is here for a visit of a couple of days. He makes frequer! trips to the city. He has disposed of all his interests in Phoenix and has been on the retired list since March.

"We won, of course," said Hirschfield, "but I want to say right here that it was about the hottest municipal compaign I ever had anything to do with. We felt confident from the start, but that did not stop us from working all the harder.

"Phoenix is not ready yet to stop gambling and close the saloons, though it may do something of the kind in a few years. Not having any interests in any of the saloons there, it does not make any great difference to me.

"Though the republicans and demoeratic party lines as we all understand them were lost sight of in favor of more important issues. People voted for what the candidates stood for, and not because they happened to belong a some political party.

"There is not need for me to say cything about the result. We got verything we went after, and that was charge of presenting an unlawful de

44 Of course we had to celebrate the result, and on the night of the election we hired two bands and went to the residence of Dr. Hughes, who fought against us. While the crowd outside his house stood with bowed the territory. He was a brilliant news heads the band played the 'Funeral March.' The next day all the undertakers in Phoenix were telephoning to had access for his interesting stories each other to inquire who had Hughes' body."

# MINING NEWS.

In the vicinity of Wickenburg there are indications of increased activity. Here, as elsewhere, the heavy rainfall has until lately handicapped both mining and milling operations. The Oro Grande Mines Company is keeping its ten-stamp mill in operation and the savings are said to be satisfactory. The White Gold Mining Company is erecting a twenty-stamp mill. The Black Rock Mining Company is completing a plant of sixty tons capacity; the equipment in the mill including crushing rolls. A evanide department is also being added. Fred H. Perkins is the manager. The Electra M. & M. Co. is also arranging to resume work, as the Interior Mining and Trust Company owning the O'Brien mine, There s some talk of the early extension of a branch railroad from Wickenburg to a most efficient organization to be ex-Constellation and other Black Rock tended to every locality in the terridistrict points. Occasional shipments of high grade ore are being made from the King Solomon mine, of which John Allis is manager.

A valuable deposit of nitrate of potash is said to have been discovered in the vicinity of Briggs, Yavapai county, about twenty-eight miles northeast of Wickenburg. The known extent of the deposit is given as having a width of 500 feet and a length of more than a mile. In the erevices of the upheaved rocks stringers of the material

carry as high as 90 per cent nitrate of potash, while the mineralized rock itself is said to earry anywhere from 3 per cent to 8 per cent, throughout,

The Congress Mines company's evanide plant is treating about 135 tons of ore daily, the ore coming mainly from No. 5 shaft and from the 1975 foot east and west levels. The shaft from that point to the 2,050 foot level is said to be in good grade milling ore. This ore is a shoot hitherto undiscovered in the mine. A level is being run at the 2,059 foot point. Professor M. Goodloe is the general superintendcut. Sam Gunn is the mine foreman,

It is stated that the Ray Copper Mines, Ltd., may resume extensive work at the property near Kelvin, Ex. | tories. periments for a proper method of leaching the ores have been under way for some time under the direction of W. H. Westerfelt of New York, who is now on the ground. A. C. Gordon is the company's resident manager.

It is reported that the Omaha Copper ompany will start work on its property near Kelvin.

Shipments to the Douglas smelters from Bisbee are now averaging about 2,500 tons daily. They will soon be exceeding this figure by nearly a third. A year ago the tonnage was hardly two third of what it is today. At Douglas the ore received is going into the smelters just about as fast as it comes to hand, though recently an endeavor has been made to get a reserve supply established at both the smelters.

# Jointure Is Now the Common Foe.

(From Friday's Daily.)

Governor J. H. Kibbey, chairman of the territorial republican committee, and District Attorney E. E. Ellinwood, chairman of the Territorial Democratic committee, have decided to join hands to fight joint statehood.

Ellinwood stated last night that he will follow in the footsteps of Governor Kibbey, and call a meeting of his committee to be held in Phoenix or May 27 to arrange for organization to joint statehood with New Mexico.

Within a few days Attorney Ellinwood will bend Setaetaoinetashrdluu hers of the Territorial Democratic committee summoning them to gather in Phoenix on May 27 to go into a joint convention with the members of the Territorial Republican committee,

Chairman Kibbey and Elliawood have already talked the matter over together, and both agree that there is argent need of organized netion in view of the fact hat in New Mexico a joint statehood league has been formed to promote sentiment in Arizona and New Mexico in favor of the jointure

By bringing the committeemen of be two parties together in Phoenix it is hoped that much good will be necomplished and that in future the we parties will work in greater harmony and more to each other's interest in fighting the joint statehood in-

In a recent letter to the Marieopa canty board of trade, Governor Kibev set forth reasons why the two critorial committees should get together in Phoenix on May 27. He saystin parts

"Upon consultation with the Hon. E. E. Ellinwood, chairman of the demoeratic territorial central committee, he advises me that he will issue a similar call for a meeting of that committee to be held at Phoenix on the same day,

"I am also advised that the board of trade of Phoenix will invite representatives of commercial and business organizations in the various towns and cities of the territory to meet at Phoenix on that day for a like purpose.

"I deem it important that there be a full attendance at these meetings, as to a great extent the measure of our opposition to joint statehood will be estimated by the carnestness and the representative character of our efforts.

"I appreciate the sacrifice of time and expense that may be involved in this convention, but I trust that the extent of our opposition will not be measured by our unwillingness to make this sacrifice. I am advised by prominent men of all parties that the danger is grave—the effort and sperifice certainly ought to be equal to the

"Reduced rates, not to exceed one fare and one-fifth, will be given, and I am assured by the Phoenix board of trade that a hearty and cordial welcome will be extended to those attending these meetings. These meetings I suggest should afford the nucleus of tory-the only rivalry should be in the enthusiasm and earnestness with which these efforts are made.

"It is expected that prominent men of every political faith will be present to assist and counsel." Call Is Issued.

Attorney Ellinwood last night prepared the following call to the members of the territorial democratic com-

It is deemed of the gravest importance that immediate steps be taken to effect an organization in opposition to the proposed scheme of joint statehood for Arizona and New Mexico, and to this end I have concluded to issue a call for a meeting of the committee, to be held in Phoenix on Saturday, May 27, 1905.

You are therefore notified that there will be a meeting of the territorial democratic committee held in Phoenix, Ariz., on Saturday, May 27, 1905, at 10 o'clock a. m., for the purpose of giving expression to our views upon the question of joint statehood, and for the further purpose of creating an earnest, active and effective organization in opposition to the proposed merger of the two terri-

A like call has been issued for a meeting of the republican territorial central committee by its chairman, Hon, Jos. H. Kibbey, to be held at the same time and place, and it is contemplated that the two committees will meet in joint session, and further, that the meeting will be attended by the Phoenix board of trade and other civic and commercial organizations of the territory, as well as prominent citizens regardless of political affiliations.

I deem it the absolute duty of evry member of this committee to at-

# Maxwell Waited Long for Coin.

(From Friday's Daily.)

To have \$125 deposited in the Presott National Bank, but to be unable draw it out because of neculiar matters involved is the position in which Michael Maxwell has found himself for several months. Today the bank will hand him out the money, and his troubles in that connection will be at an end.

Maxwell has wanted the money, and the bank has wanted to give it to him, but they could not, in view of the fact that he had lost his certificate deposit, with little chance of ever getting it back. Cashier F. N. Fredericks was ready to pass out the coin at any time under the right circumstances.

On August 3, 1903, Maxwell went to the bank, and deposited \$90, that he had saved while working in a mine. On August 20 of the same year he deposited \$33 more, making the total of \$125. He accepted certificates of deposit, but was informed that he could not check against his deposit.

He returned to the mining camp satisfied, taking with him his certificates. In a suit brought against the bank a few days ago he alleged that these two certificates had been stolen from him by Jake Weeden, who took them to Cananca.

As soon as they were stolen Maxwell stopped payment at the bank. Not long afterward Weeden sent them from Cananca to the bank, with what appeared to be Maxwell's signature on the back. Maxwell claims that it was forged by Weeden.

The bank had the money, and Maxwell had no certificates; the question now was how could the bank pay him his money without the certificates, and be protected against their being brought in later and payment demanded upon them.

Maxwell employed Attorney J. E. Morrison, and the latter arranged with Maxwell's relatives to put up a bond to secure the bank against possible loss. The bond arrived yesterday from Wellsville, N. Y., and the money will be paid to Maxwell today.
