

INDICTMENTS FOUND IN ELECTION FRAUDS

Campaign Against Tammany Law- Breakers Begins With A Dozen Arrests

NEW YORK, Nov. 10.—Ten indictments for violations of the election law, and two for assaults committed at the polls at the election last Tuesday were drawn up today by the grand jury.

It is said tonight that Attorney-general Mayer and State Superintendent of Elections Morgan have instituted a searching investigation of the alleged election frauds, which will be continued until the legislature meets. Morgan and the attorney general examined a number of witnesses in connection with the frauds, and also conferred with Henry E. Yonge, special counsel of Hearst, and discussed plans to prosecute the persons against whom charges may be brought.

Mutilated Ballots Found.
Two ballot boxes were found in a barber shop at 156 Third avenue. One of them was full of half, soiled and torn ballots, and the other was empty. This barber shop was the polling place for the first election district in the eighteenth assembly district, which is the district where Charles E. Murphy, of Hearst watchers found the boxes. Deputies from the state superintendent of elections Morgan's office took possession of the boxes.

Ovation to Jerome.
LAKEVILLE, Conn., Nov. 10.—Jerome, the re-elected district attorney of New York, arrived tonight to seek a short rest at his home here. The citizens of the town ten thousand strong turned out with a brass band and fireworks, and escorted him home, the big crowd carrying torches.

CROWDS VISIT THE BRITISH FLEET

EARL COWLEY TO WED IN CEYLON

NEW YORK, Nov. 10.—Thousands of sightseers visited the cruisers Berwick, Cornwall, Drake, and other ships of the British squadron anchored in the North river today. Watermen with small craft reaped a harvest in carrying the visitors to and from the ships. Many society folk were received aboard the British ships and there were also many visits interchanged by the British and American naval officer. The bluejackets of the two fleets were not behindhand in the exchange of courtesies. At every turn in the downtown streets today the British and American tars were to be encountered arm in arm, the latter piloting the way and showing their British cousins the sights of the town. Prince Louis of Battenberg and the commanders of the British warships were entertained at luncheon today by General Grant, commander of the Department of the East. Later they were received by Admiral Coghlan, commandant of the New York navy yard.

LONDON, Nov. 10.—According to news received in London, the marriage of Earl Cowley and Lady Hartopp will take place tomorrow in Colombo, Ceylon, thus happily ending the sensational Hartopp-Cowley divorce case. Lady Hartopp, it will be remembered, was recently divorced by her husband Sir Charles Hartopp, Earl Cowley being the co-respondent. There had previously been cross suits for divorce by Sir Charles and Lady Hartopp, which, after one of the longest and most expensive trials on record, ended in both petitions being dismissed. The second suit instituted by Sir Charles was undefended. Earl Cowley has had previous experiences in the divorce court, the Countess, Lady Violet Nevill, a daughter of the Marquis of Abergavenny, having brought a suit against him in 1897, which was defended, but resulted in the countess obtaining a decree. The countess is now the wife of Mr. Middleton Biddulph. Lady Hartopp is the daughter of Charles Wilson, the well known shipowner and member of Parliament for Hull. Lord Cowley, who is the third earl, belongs to the Wellington family, the first earl having been a brother of the first Duke of Wellington.

LEGISLATURE IN DOUBT IN OHIO

COLUMBUS, Nov. 10.—Complete returns of the state ticket except for governor are unavailable tonight, and the result is that both Republicans and Democrats continue to claim the election of all the minor state officers. The Republicans claim the lower branch of the legislature by 62 to 59. The Democrats claim it by the same majority.

On the face of the unofficial returns, the Senate is composed of 19 Democrats and 18 Republicans, but the Democrats claim it as 20 to 17.

AN UNWARRANTED SLUR.
While in Albuquerque last month to meet the Congressional party, F. M. Murphy was served with a subpoena to appear as a witness in the case of the Caledonian Coal company against the Santa Fe Railway company. An article in the Albuquerque Citizen is so worded as to convey the impression that Mr. Murphy had been dodging the officer and fell into a trap. As that gentleman passes through Albuquerque six or seven times every year, it is quite obvious that the subpoena could have been served at any time or for that matter could have been served in Prescott, as the matter in which he is to testify comes up in the United States court. It is quite probable that the slur made against the Prescott citizen was in revenge for his activity in the anti-joint stockhold fight.

BASEBALL RESULTS ON VARIOUS FIELDS

San Francisco	5	9	4
Seattle	4	8	5
Henley, Whalen, Wilson; C. Hall, Frary.			
Oakland	3	8	4
Portland	7	10	2
Bleasrud, Byrnes, Jones, Sness.			
Los Angeles	1	9	4
Tacoma	1	9	2
Hall, Eager, Brown, Hogan. Thirteen innings; game called on account of darkness.			

CAMPED IN THE RAIN.
F. A. Jones, passenger agent of the S. F. P. & P. returned Friday morning from a trip of inspection of the proposed route of the A. and C. railroad, in which he visited Quartzite, Ehrenburg, and other points in the Colorado river section. He was accompanied by a small party of Phoenix citizens, and was absent a week. It rained most of the time during the journey, and the experiences of the party were not of the most pleasant order, as they were compelled to camp out for three or four nights. Mr. Jones states that the country through which he traveled is one of wonderful mineral resources, and thinks that it will be among the most active sections of Arizona when opened up by the railroad which is in course of construction.

METROPOLITAN ALSO AIDED CAMPAIGN MANAGERS

Two Contributions Made In 1896 to Assist In Defeating "16 to 1"

NEW YORK, Nov. 10.—At the closing sessions of the week today, the Armstrong committee on insurance investigation has behind it a mass of details and figures which, while of apparent little interest to the laity, is of inestimable value to the committee. A great part of the week was devoted to the Metropolitan Life, the examinations of President Hegeman and James M. Craig, actuary of the company, being mostly of a technical nature. When the adjournment was taken today the examination of Hegeman had not been finished, and he will be called again next week.

Hegeman said that his company made but two campaign contributions, both in 1896. A thousand dollars was given to the Palmer-Buckler gold Democratic manager, and \$7,500 to the national Republican committee.

These contributions Hegeman said were made with the approval of the finance board and were more of a moral than a political move to assist in defeating the "16 to 1 heresy."

FRENCH CABINET READY TO RESIGN

HANLON FAILS TO DEFEAT HERRERA

PARIS, Nov. 10.—The Rouvier ministry met its first check today when M. Berteaux, the minister of war, peremptorily withdrew from the ministerial benches during an angry debate in the chamber of deputies, and thereafter announced his resignation.

For a time the entire cabinet hung in the balance, and Rouvier announced the readiness of himself and colleagues to give up their power unless they were supported by a substantial majority. After a debate of exceptional violence, a motion favorable to the ministry prevailed by a vote of 319 to 147. The crisis does not involve any important issue.

LOS ANGELES, Nov. 10.—Eddy Hanlon, of San Francisco, and Aurelio Herrera, of Bakersfield, fought a twenty round draw at the Pacific Athletic club tonight.

For the first ten rounds, Hanlon had all the better of it. From the eleventh to the eighteenth Herrera did the most effective work, his blows having more force, and Hanlon finding it difficult to get inside the Mexican's guard.

The eighteenth and nineteenth were Hanlon's on a slight margin. The twentieth was the fastest round of the fight, and it appeared that if it had lasted much longer that Hanlon would have won, as he had Herrera very tired and shaky at the finish.

RECORD MADE ON POTATO SHIPMENT

NOTABLE EVENT IN HERMIT KINGDOM

STOCKTON, Nov. 10.—The first complete trainload of potatoes ever shipped from California by a single firm was sent out today from here. It consisted of 35 refrigerator cars, containing a total of 9,450 sacks or 1,334,000 pounds of the tubers. The shipment is to Missouri river points. They were raised on the islands near Stockton. Last week 31 earloads were shipped from here.

SEOUL, Nov. 10.—The arrival of Marquis Ito tonight marks one of the most portentous events in the history of Korea. During his visit the Hermit Kingdom, once independent, will become a Japanese protectorate. Ito was received with Imperial honors. He will present the program of Japan.

FREIGHT CAR BURGLARS.

Three Men in Jail Accused of the Crime.

(From Saturday's Daily.)
Walter Gregory, deputy United States marshal, passed through here last evening on the southbound on his way to Phoenix from an official visit to the northern part of the territory. He delivered A. E. Stone, Abe Umbenham, and William Johnston, the latter a colored man, to the sheriff's office here, who were bound over to appear before the next United States grand jury by Court Commissioner Zuck of Holbrook, charged with breaking into a bonded and sealed box car on the line of the Santa Fe Pacific railroad at or near Winslow. Mr. Gregory stated that while passenger train No. 1 was running down the hill west of Williams yesterday afternoon that the two forward trucks of the engine jumped the track and bumped along on the ties a distance of two or three car lengths before the train could be brought to a halt. The track at the point where the accident occurred is situated at the edge of a deep canyon, and the loss of life and limb would probably have been very great had not the train been brought to a standstill as quickly as it was by the cool conduct and good management of the engineer in charge.

You can live without the Journal-Miner, but why should you

RUSSIA IS TRANQUIL EXCEPT IN POLAND

Count Witte's Ministry Selected Under Circumstances That Are Adverse

ST. PETERSBURG, Nov. 11, 2:55 a. m.—Except the kingdom of Poland, Russia seems for the time being to be literally tranquil. Telegrams from interior points report restoration of order in nearly all cities and towns, but in many cities, notably St. Petersburg and Moscow the better classes of the population are greatly disturbed owing to rumors of approaching attacks by the "black hundred," composed of the most ignorant types of the population, which, according to these rumors, are scheduled to take place in St. Petersburg tonight, and at Moscow tomorrow. In such emergency the strong hand of General Trepoft is being missed even by the factions which most execrated him.

The Witte cabinet may be regarded as now constituted as Count Lamsdorff minister of foreign affairs, and M. Manukhin, minister of justice, who retain their positions, leaving only the posts of minister of the interior and minister of education to be filled.

Witte's ministry as announced is a practical acknowledgment that he has abandoned hope of securing the active co-operation of the constitutional Democrats or other parties of center.

The only minister who is not a bureaucrat is M. Nemechaiff, the minister of communications.

The count is greatly disappointed at the refusal of the constitutionalists to support him, since it forces him to fight on two fronts, with the reactionaries on his right and the social Democrats and revolutionaries clamoring for a republic on his left.

Schools Closed.
ST. PETERSBURG, Nov. 10.—The universities and high schools throughout Russia are closed indefinitely by order of the minister of education.

Strike Continues.
WARSAW, Nov. 10.—The general strike continues. All the shops are closed except those of apothecaries and also several bakeries, which the strikers permitted to be opened to prevent starvation of the poor.

Rebellious Poland.
ST. PETERSBURG, Nov. 10.—It is announced that martial law will be declared throughout Poland.

Outbreaks Threatened.
MOSCOW, Nov. 10.—Alarming reports are in circulation that anti-Jewish outbreaks will occur simultaneously here and at St. Petersburg Sunday next.

LABOR LEADERS TO CONVE MONDAY

CATTLE MARKET STEADY AND STRONG

WASHINGTON, D. C., Nov. 10.—President Gompers and the other officers of the American Federation of Labor are preparing to go to Pittsburg, where the annual convention of the federation will open Monday. The coming convention is looked forward to with more than ordinary interest as several matters of unusual importance are to come up for consideration and action. Among other things the federation is expected to take a pronounced stand on the question of Mongolian labor, including Chinese, Japanese, and Koreans, and will insist on rigid exclusion. As to European immigration, the convention will declare for educational tests, and a poll tax, while the subjects of the eight hour day, child labor, sweat shops and federal injunctions will be treated according to previous policy.

KANSAS CITY, Mo., Nov. 10.—Some of the cattle that have been held out, waiting for cars, have arrived on the market this week, and receipts for three days amount to 61,000 head, considerably larger than last week. Cows have been selling strong all the time for the past ten days, with the exception of a slight weakness yesterday. Stockers have also been strong, feeders steady to weak, account of lower prices on fed steers, which are now coming freely. Range killing steers steady to a shade lower. Calves, especially stock grades, broke badly last week, 25 to 75 cents, but are selling steady this week. Good range killing steers sell at \$3.25 to \$3.00 this week, both from Colorado and the southwest; feeders, \$3 to \$3.50; stockers, \$2.75 to \$3.70. A drove of New Mexico feeders, 1950 lb., sold at \$3.37 Monday, and a big string of New Mexico stockers, 830 lb., at \$2.67 same day. Conners have shared in the advance on the stuff, bulk of range cows selling at \$2 to \$2.80, including canners, practically all of the Colorado cows between \$2.50 and \$3.10.

Fed sheep and lambs now constitute a large per centage of mutton receipts, and the market is stronger again this week, after a moderate decline first of last week. The limit on choice stuff is around \$7.50 on lambs, yearlings, \$6.00, wethers \$5.85, ewes \$5.35. Some Colorado lambs, 70 lb., sold today at \$7.20, and a big string of Utah feeding lambs, 48 lb., at \$5.75. New Mexico yearlings and wethers sold at \$5.85 yesterday, fed western wethers at \$5.75 today, and fed ewes at \$4.50, \$4.75, and \$5.25. Receipts 24,000 last week, 14,000 for three days this week, not enough for the demand, so that strength is the main feature of the market.

NEW INDICTMENT OF SENATOR BURTON

ST. LOUIS, Nov. 10.—The federal grand jury convened today, and returned an indictment late today against Senator Burton, of Kansas. It is stated that certain features of the former indictment against Burton which was quashed, are remedied by the new indictment.

The allegation is that while Burton was senator of the United States he accepted money from the Rialto Grain and Securities Co. of St. Louis for services rendered before the post office department in behalf of their company, which was being investigated by inspectors.

DIPLOMATIC APPOINTMENTS.

CHRISTIANIA, Nov. 10.—F. Nansen the Arctic explorer, is appointed Norwegian minister to Great Britain, and Christian Hauge, the present charge d'affaires at Washington, is appointed minister at that capital.

THE METAL MARKET.
NEW YORK, Nov. 10.—Silver, 62½%. Copper unchanged.

NOTICE.
The partnership heretofore existing between Ed. Shumate and L. M. Jackson has been dissolved by mutual consent. Ed. Shumate continuing the business, and L. M. Jackson retiring. The former will collect all outstanding accounts, and pay all indebtedness of the firm. ED. SHUMATE.
