PIONEER PAPER OF ARIZONA

PRESCOTT JOURNAL-MINER, WEDNESDAY MORNING, SEPTEMBER 21, 1921

FIFTY-EIGHTH YEAR

SENATE TO HAVE TAX BILL AND MANY AMENDMENTS TOMORROW

Administration Council to Start Monday on Problem of Idle Men

MRS. ARBUCKLE CLASPED UPON FRONT PORTION OF HER HUBBY

(Special to the Journal-Miner)
SAN FRANCISCO, Sept. 19.—Roscoe Arbuckle and the wife, from whom he has been separated for more than four years, had a reunion today in the visitors' room at the city prison where Arbuckle is awaiting trial on a charge of murder.

He is accused of causing the death of Miss Virginia Rappe through an episode at a drinking party in his suite at the St. Francis hotel.

Arbuckle clasped Mrs. Minta Durfee Arbuckle in his arms and then affectionately greeted her mother, Mrs. Flora Durfee. The three, with the prisoner's brother, A. C. Arbuckle of San Francisco, then sat down for a half hour of conversation.

Resume Grand Jury Work
The grand jury resumed its investigation of the Arbuckle affair tonight, subpoenas having been sent out for Dr. M. E. Rimmwell, the attending physician, in most of Miss Rappe's illness, Miss Joyce Clark, one of the participants in the party, Dr. Jabor Kingston and Reginald Morley, two men who were reported to have some knowledge of the affair, and several other witnesses.

Joyce Clark was questioned by District Attorney Matthew A. Brady and his deputies today but refused to sign a statement and accordingly was ordered to appear before the grand jury.

BELGIAN CRAFT LANDS; YANKEES UNHEARD FROM

(Associated Press Night Wire)
BRUSSELS, Sept. 19.—But one of the three balloons piloted by American aeronauts which left Sunday in competition for the James Gordon Bennett trophy, has been heard from up to shortly before midnight tonight. Eight of the 14 starters had been accounted for.

LONDON, Sept. 19.—The Belgian entrant in the James Gordon Bennett international balloon race, the Belgica which started from Brussels Sunday, commanded by Lieutenant De Myster landed safely today at Powerstock, near Bridgeport, Dorsetshire.

It was the Belgica which carried aloft a Belgian soldier who became entangled in the ropes and was drawn into the basket.

BIG TIME BALL

National League
Pittsburg, 2; New York, 1.
Boston, 9; Cincinnati, 6.
St. Louis, 5; Philadelphia, 3.
Brooklyn-Chicago, rain.

Washington-Cleveland, not scheduled.

Coast League
Portland, 10; Seattle, 9.
Only games played.

JOBLESS WORKERS REFUSED AN AUCTION IN NEW YORK; HARDING ANNOUNCES 38 COMMITTEEMEN

HARDING APPOINTS HOOVER AS CHAIRMAN THREE WOMEN PICKED

(Associated Press Night Wire)
WASHINGTON, D. C., Sept. 19.—Announcement of the names of 35 men and three women who have accepted President Harding's invitation to participate in a national unemployment conference here beginning next Monday was made tonight by Secretary Hoover. Other names will be announced later, he said, when all replies are received.

The list includes Secretaries Hoover and Davis, Julius Barnes of Duluth, Samuel Gompers, Charles M. Schwab, and John L. Lewis of the Mine workers' union.

The women are Ida M. Tarbell of New York, Mary Van Cleeck of New York, connected with the Russell Sage Foundation, and Elizabeth Christman of Chicago, an officer of the National Woman's Trade Union League.

Mr. Hoover has been appointed chairman of the conference which it was said, would at once dissolve itself into special committees for the formulation of plans. These committees, he asserted, would no doubt seek co-operation from other representatives of labor, employers and civic bodies.

SLAVE MARKET CALLED OFF BY COPS; LEDOUX SAYS END ACHIEVED

(Associated Press Night Wire)
NEW YORK, Sept. 19.—Urban Ledoux announced abandonment of his plan to hold a "slave auction" of the unemployed tonight after police had dispersed a crowd of his followers in Bryant park and prevented him from distributing food to the jobless.

He said his action would not be necessary because the "high-handed interference of the police will cause the wrath of public opinion to make right the present situation in New York."

He appeared first at Cooper Square with a wagonload of buns for the hungry, but the police ordered him to move on. He returned the buns to the bakery at the police orders but charged that he could not get his money back.

STIFFEN RATES SHORT COTTON

(Associated Press Night Wire)
NEW YORK, Sept. 19.—The cotton market today recovered from the decline of last week. Offerings were much smaller and reports that holdings of spot cotton in the south had shown a tendency to withdraw their offerings on the decline, seemed to revive confidence in values on the basis of small crop figures. The price of January contracts advanced to 19.80 or \$7 per bale above the closing quotation of Saturday.

Is Business Dull? Not for Journal-Miner Advertisers

Oscar W. Bruchman, local clothier, did \$752 worth of business yesterday and Saturday, of which amount \$500 was taken in on new fall suits for men and young men. On Saturday \$415 worth of business was done, and yesterday the store took in \$337.

Why? Because of the pulling power of Journal-Miner advertising, Bruchman said yesterday. "The results for these two days in my store," Bruchman said, "show what newspaper advertising in the Journal-Miner will do."

Results. That's what the advertiser wants. And that's exactly what he gets when he buys advertising space in the Journal-Miner. Circulation plus service brings results—when it's Journal-Miner circulation.

IRISH CABINET FEELS CONFIDENT MEETING WITH BRITISH WILL BE HELD AND SUCCEED

(Associated Press Night Wire)
DUBLIN, Sept. 19.—Members of the dail eireann cabinet reviewed the situation today, giving attention to Premier Lloyd George's telegram. After the session, a reply was dispatched. So far as the Sinn Fein's position is concerned, it did not appear to change in any way.

It is announced, Mr. De Valera's desire for a conference is strong as is that of his colleagues. Members of the dail eireann do not believe that the notes forwarded to Mr. Lloyd George were open to the construction that they claimed recognition as a sovereign state. As some expressed it, their idea of a conference is one which may lead to association with the British commonwealth and if they fail would leave them in no worse position morally than when they entered.

The general impression among members and their supporters was that a conference would be held.

COBBLER UNION WARFARE CARRIED ON WITH BOMBS; OLD STAGER ADMITS HEADS INDUSTRY

(Associated Press Night Wire)
CHICAGO, Sept. 19.—A confession that he had planted and exploded more than 60 bombs during the last year was obtained, according to the police, from D. W. G. Smith, one of five men arrested today while bombing the shoe repair shop of David Kremen. Fourteen hundred sticks of dynamite and 100 sticks of TNT were seized by the police, following the capture of the men.

The bombing was said to have been the result of rivalry between the International Brotherhood of Shoe Repairmen and the United Shoe Repairmen. Kremen is a member of the former.

Richard Burke, who hurled the bomb and who was shot in an attempt to escape, is said to have told the police that he supplied bombs for several labor unions and also the men to throw them.

CATTLE RATES CUT 20 PER CENT ON LONGER AS WELL AS SHORT HAUL, IT'S ANNOUNCED

(Associated Press Night Wire)
SAN FRANCISCO, Sept. 19.—Transcontinental livestock rates on all lines are to be reduced 20 per cent for the period beginning September 20 and ending December 31 as an emergency measure to assist the stock raisers in tiding over the present unsettled market conditions, G. W. Luce, freight traffic manager of the Southern Pacific company announced today.

The reduction in the transcontinental haul is in addition to the short haul reduction for livestock announced by the carriers recently.

The transcontinental reduction covers cattle, sheep, goats and swine.

Surplus Copper Enough Left to Supply U.S. Nearly Year U.S.G.S. Brands Story False

(Associated Press Night Wire)
WASHINGTON, D. C., Sept. 19.—Surplus copper stocks in the United States were estimated today by experts of the geological survey at between 750,000,000 and 1,250,000,000 pounds. At the survey little credence was given reports that the great surplus remaining after the war had been disposed of.

An appreciable reduction in stocks of blisters has been noted recently but only a comparatively slight reduction in refined copper, it was said, and the surplus was estimated to be sufficient to supply domestic consumption at the present rate for at least six months and possible a year.

DAM BUILDERS CHANGE SCENE

They are changing the contours of the country out at the Williamson valley damsite. Contractor Caldwell received as visitors, Art Davis, manager of the company, and Jerry W. Sullivan, owner of the land, and showed them how the long hogback is being raised to accommodate the lake of irrigating water soon to be impounded in Williamson wash.

Over half of the earthwork is completed. Just now, teams are scoring the ridge for the concrete core that will extend for 2,250 feet along the center of the earthen portion of the dam. Plans are being made for installing a steam shovel on the ridge in order to expedite the filling when the core is completed.

The dam is now visible from the top of the ridge south of the Sullivan home ranch. It shows up as a long scar across the landscape, showing where Caldwell's crew has plied the old fresas for the past three months. Below the dam is a small colony very comfortably established in tent houses. Everything is complete, even to a pen with six pigs and an old-fashioned cistern where the butter is kept cool by evaporation.

A job of scraper work has put the roads into the damsite from both the Williamson valley and Ash Fork roads in good shape. In fact these roads are better than the main travel highways, for the rains did things to the Ash Fork road that the county has not had time yet to repair.

An earthen dam containing 7,000 yards of material, has been erected about five miles below the main damsite, and this will impound a lot of water for temporary use. A large tract of the excellent level land will be plowed this fall by the contractor and planted to potatoes in the spring.

TAX PLANS OF SMOOT AND THE BOOZE TARIFF OF CALDER WILL BE SNAGS; HOPE SPEEDY ACTION

(Associated Press Night Wire)
WASHINGTON, D. C., Sept. 19.—The tax revision bill will be sent to the president by late in October, Chairman Penrose predicted today in announcing that the senate finance committee had formally approved the house measure as amended.

Neither the Smoot manufacturers' sales tax nor the Calder proposal to impose a tax of \$6.40 a gallon on all alcoholic liquors withdrawn from bond for other than manufacturing purposes will be included in the measure as it will be presented to the senate Wednesday. The authors have given notice, however, that they expect to present these amendments in the senate.

Senator Penrose said that it was planned to take the bill up immediately and ask for final action. He added that some features, particularly the excess profits tax repeal and the proposed reduction of the maximum income surtax to 32 per cent, would be opposed "from certain quarters" but there seemed to be a desire to expedite passage.

REWARD OUT IN SLAYER SEARCH

Melvin W. (Bugs) Burnett, who for the past week has been the object of a search through the hilly country near Congress Junction by men from the sheriff's office here, for the shooting and killing of Jim Brown at Congress Junction, will be caught if the efforts of the county are successful.

A reward of \$250 for the capture of Burnett was authorized yesterday by the board of supervisors, and notices offering the reward and containing a description of Burnett will be scattered over the country between here and Mexico. Efforts of the sheriff's men have thus far proved fruitless. It is believed that Burnett is in hiding in the hills, awaiting his chance to dash across the border.

Before finally approving the bill, the committee voted two additional changes.

Under one, amusement admission charges not exceeding 10 cents would be exempt from the one cent tax proposed by the present law. Under the other, hotels would pay a tax of 10 per cent on the amounts charged to transients for rooms if the sum exceeds \$5 for one person and \$8 for two persons.

EARLY COPPER PRODUCTION IS BUT TALK, SAYS

W. F. Staunton, Official of Verde Central, Believes Talk of Early Resumption Premature Under Present Conditions.

Any talk of the early resumption of copper production is rather premature at this time, according to W. F. Staunton, Los Angeles mining engineer and financier, who is interested in the Verde Central mine adjoining Jerome. Reports received here Saturday to the effect that a large purchase of American copper by Germany had about depleted the American reserve stocks of the yellow metal are without proper foundation, Staunton believes. While he was not prepared to give any definite estimate of the size of the American copper surplus, for the simple reason that no one knows what it is, he believed it to be in the neighborhood of eight or nine hundred million pounds.

Under the present conditions, any attempt to produce copper at a market price of 12 cents would result in a lowering of prices, for consumers would simply withdraw from the market and allow another surplus to accumulate.

A parallel to the copper situation was found by Staunton in the changed conditions of the cotton market. Estimated underproduction in the south has caused cotton quotations to rise approximately seven cents during the past week, with the result that the market is stimulated, and such cotton as is grown can be sold at a reasonably profitable figure. When a similar condition obtains in the copper market, he said, it will be time enough to talk of the resumption of production.

DEFENDANT AT WAGE SUIT APPEALS CASE

Whether N. A. Hall, defendant in a suit to collect alleged unpaid wages, owes H. B. Moisa the sum of \$154.52, will be determined in the superior court here, following appeal from two decisions in the justice court at Clarkdale, favoring the plaintiff. Hall yesterday, through his attorney, H. M. Gibbs, filed the appeal in the superior court. Justice D. L. Robinson twice heard the case at Clarkdale, giving judgment in full amount in favor of the complainant on August 16.

Moisa in his complaint alleges that Hall employed him to work on his Hall's ranch, about January 1 last, at a monthly wage of \$90, and that the defendant refused to pay accrued wages due him, and still so refuses. He asks for judgment in the full amount in addition to attorney's fees. Moisa is represented by J. H. Rutherford of Jerome.
