

Clarksville Chronicle.

J. B. NEBLETT, J. A. GRANT, Editors.

Rate of Advertising.—One Dollar per square of the Lines.

Single Copies of the Chronicle, Ten Cents.

CLARKSVILLE, MARCH 2, 1866.

To Advertisers.—All advertisements to be inserted in the Chronicle for less than six months, must be paid for when handed in.

A new Piano for sale at the Post Office, at cost!

QUARTER MEETING.—To-morrow and next day, Rev. J. B. West, will hold quarterly meeting at Salem Church, on the South side of Cumberland, and on the 24th and 25th inst. at the Methodist Church in this city.

OUR SUPPLEMENT.—We are again compelled to issue a supplement, and a much larger one than ever before, in which will be found an important city ordinance, a letter from General Forrest, other miscellaneous matter, and five columns of advertisements, local and foreign, all of which will repay a careful perusal.

Things have been distressingly dull, in the local line, this week. Items are as scarce as honest thoughts in old Thad. Stevens' breast. Should anything of sufficient importance transpire, before our next issue, we will lay it before our readers in a—horn!

We are under obligations to B. M. Turnbull & Co., Cotton and Tobacco Factors, New Orleans, for a late report of the markets in that city.

By the resignation of many Conservative members, the Legislature is left without a quorum, and can take no legal action.

REVIVAL.—Rev. Robt. S. Hunter, pastor of the Methodist Church, in this city, has a very interesting revival going on in his Church. Several have joined the Church, and a goodly number were at the anxious seat last night. There is a fine prospect for an extensive revival in his congregation.

REMARKS.—By buying coal oil at the Drug Store of Lorton Bro. Co., you will save 30 cents per gallon. They are selling the very best at one dollar. Try it.

The following order was issued by Major-General Thomas, at Nashville, on the 24th of February:

"All restrictions heretofore imposed on the sale of arms and ammunition, within the Military Division of the Tennessee, are hereby revoked."

By command of Major-General Thomas, R. W. JOHNSON, Bvt. Brig. Gen. U. S. A., P. M. G.

Read the advertisement of the Insurance companies, in our columns. The Home Insurance, New York, with a capital of \$2,000,000; the Hartford Fire Insurance, with a capital of \$1,000,000; and the Arctic Fire Insurance, New York, with a capital of \$500,000. These are all reliable companies, and in Mr. D. N. Kennedy, they have a most reliable agent in this place.

THE ELECTION.—The election of County officers comes off to-morrow, and the high character of our people gives all the assurance we can ask, that it will pass off with all the order and decorum that should be observed on such occasions.

TRACES.—Crusman & Chesnut have just received some additions to their stock of Groceries, a part of which consists of a choice lot of cheese, for a specimen of which we return the combined thanks of the office.

ENGINEER AND CLERICAL SCHOOL.—See the card of Prof. L. G. Marshall, who will open a School in this place, on Monday next, in the room formerly occupied by Dr. Ring. During his connection with the College here, Mr. Marshall established a reputation for learning which none will question, and as a gentleman, no one stands higher. With these intellectual and moral qualifications, backed by a happy facility for imparting knowledge, no man can present higher claims to public patronage. Mr. Marshall proposes to make his School a permanent institution, and we hope the support given him will enable him to carry out this intention.

A GOOD MOVE IN THE RIGHT DIRECTION.—We wish to call special attention to an ordinance which we publish in our supplement to-day, the aim and object of which should meet the hearty approval of every citizen, and which, if rigidly enforced, will bring compliance with its provisions. We would not have the people, at home or abroad, take the promulgation of this ordinance as implying any increase, at present, in the number of cases of Small-pox in the city. On the contrary, it is abating; and this step is taken for the purpose of clearing it out entirely and preventing the disease at any future time. This can only be done by a hearty co-operation with the city authorities, who are doing all in their power to effect this much desired end.

Mr. T. W. Neal, editor and proprietor of the Dyersburg (Tenn.) Gazette, paid us a flying visit on Tuesday evening last. Mr. Neal has been interested in the publication of quite a number of papers, among which were the Warren (Ark.) Sunbeam, Memphis Bulletin and Nashville Press. His experience in the newspaper line is extensive and varied, and he will no doubt give the people of that section a real live paper.

R. B. Tarpley, painter, has bought out the interest of his partner, J. W. Furkin, and will continue the business, having secured the services of his former partner. All who want painting done, can see specimens of the skill of these parties in the handsome front of Courts & Beaumont, and sundry others on Franklin street and the Square. Mr. Tarpley can, and will, give entire satisfaction to all who may require his services.

Our friend and fellow-typist, Tom, B. Reynolds, who followed the Memphis Appeal in its migrations until it was shelved out of Atlanta, has revised the Atlanta Appeal. Tom is a clever gentleman (what there is left of him—about 100 lbs., "fifin' weight"), a No. 1 printer, and deserves success in his new enterprise. By the way, Tom, do you ever go to the theatre on Saturday nights now?

PUBLIC LECTURE.—By invitation of the Creighton Debating Society, Dr. Wright will deliver a Lecture at Fowler's Hall, on Thursday evening the 8th inst. The Doctor's subject will be, "The Latter days of the Roman Republic." It is hoped that so praiseworthy an enterprise, as Public Lectures for the benefit of the Library of the Creighton Association, will meet with the approbation of all our citizens. The subject alone, is one of sufficient interest to entice beyond a doubt, a large audience. The attendance of the ladies is especially solicited by the Society. Admission 25 cents.—Good music will be in attendance.

THE DEVIL.—Next to the Freedmen's Bureau, the latest and greatest excitement in Kentucky is the—Devil. He is there beyond a doubt, for we have read the published certificates of several respectable citizens of Bracken county, solemnly avowing that they have seen the veritable Ancient Henry himself—no spurious imitation bearing the genuine proprietors' trade-mark—but the very devil, head, horns, tail, cloven-foot and all; and some have even smelted the sulphurous preparation with which his Satanic Majesty is supposed to "ole his hair." We do not doubt the story—we believe the "old boy" has been in Kentucky for several years, and will have to remain several years longer if he intends to settle up and get all that is justly due him. O tempora, O Kentucky, O the D—!

People's Store.—Having sold my entire stock to my brother, A. KING, I ask a continuance of the favors shown to me. Cash paid for hides, rags, dried fruit, furs, &c. Feb. 23, '66-2t A. KING Agent.

A TIMELY WARNING.—For several weeks past our exchanges have been replete with the accounts of extensive and ruinous conflagrations. Scarcely a city of any note in the Union has escaped the ravages of the devouring element, and the loss of life and property has been appalling in the extreme. Reading these accounts has frequently led us to ask the question: "What would become of Clarksville were a fire to break out in the business portion of the city?" and the answer can be none other than "ruin!" We respectfully urge the proprietors to look into this matter. The city owns a splendid engine, but it is entirely useless for want of repairs, the cost of which would be but trifling. With a small outlay of money, and the proper exertions, the engine might be put in good working order, an efficient fire company organized, and a system inaugurated which would, to a great extent, prevent even the probability of any extensive conflagration even were a fire to break out!

RIVER NEWS.—The River continues to decline with 10 feet on Harpeth Shoals. Forty six boats have passed our city, going up, during the month of February, all of which were heavily laden.—The shipment of Tobacco for the past week, have been larger than for any previous week of the season. Trice's Landing keeps the lead by several hogheads. Parties wishing to make shipments of freights or to travel on good boats, would do well to consult our advertising columns.

Great Reduction in Prices of Buggies. E. S. BRINGHURST & CO., have greatly reduced the prices of their Carriages and Buggies. They say they have facilities for underselling any city South of the Ohio River and are determined to do so, and all they ask of their friends, is to give them a call before purchasing elsewhere. All work warranted as represented.

To the Voters of Montgomery county. I would respectfully inform the Voters of Montgomery, that I am still a candidate for Sheriff, in view of the duties of my office as consular, I have been unable to canvass the county and see my friends, as I have desired. I ask your support, and pledging myself to fulfill all duties, in case I am elected, and will be as grateful for your votes, as if I had shook hands with every man in the county. Feb. 15, '66 R. H. OGBURN.

WHOLESALE AND RETAIL BY FINLEY & STEWART, Clarksville, Tenn. Who also sells BULL'S WORM DESTROYER, BULL'S SARSAPARILLA AND SMITH'S TONIC STRENGTHENING. FINLEY & STEWART, Druggists. Aug. 4, 1865-7

DR. JOHN BULL'S COMPOUND CEDRON BITTERS. The latest and most important discovery of the 19th Century.

NO man's name is more intimately connected with the history of Materia Medica of the United States, or more favorably known as a pioneer in medical discovery, than that of DR. JOHN BULL, of Louisville, Ky.

His inimitable preparation of SARSAPARILLA, has long stood at the head of the various compounds of that valuable drug. His COMPOUND OF WILD CHERRY has become a household word throughout the West and South. His WORM LOZENGES, in less than a year after their introduction, attained a reputation as widespread as the continent of America.

But the crowning glory of his life remains to be attained in his discovery, or rather combination, for he does not claim to be the discoverer of CEDRON, which is the basis of the Bitters now offered to the public. This honor belongs to the native inhabitants of Central America, to whom its virtues have been known for more than two hundred years. Armed with it, the Indian bids defiance to the most deadly malaria, and handles without fear the most venomous serpents. It is a belief with them that while there is breath left in the body the CEDRON is potent to cure, no matter what the disease may be.

While Dr. Bull is not prepared to endorse this extravagant pretension, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that as a remedy and preventive from all diseases arising from exposure, either to changes of weather and climate, or to the miasmatic influence, it stands WITHOUT A RIVAL, and justly deserves the reputation it has so long enjoyed in Central America and the West India.

And its attendant train of symptoms, it acts more like a charm than a medicine. There is nothing in the range of Materia Medica, that can for a moment bear a comparison with it in this disease. A full account of this wonderful plant may be found in the 11th edition of the U. S. Dispensatory, on pages 1387 and 1388.

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of CEDRON with other approved tonics, the whole preserved in the best quality of copper-distilled Bourbon whiskey which he is confident has no equal in the world.

It might furnish a volume of certificates, but the public have long since learned to estimate such things at their true value. The safest plan is for every one to test for himself the virtues of a new medicine. GIVE THE CEDRON BITTERS. One trial and you will never use any other.

It is not necessary to publish a long list of diseases in which the Cedron Bitters are specific. In all diseases of the Stomach, Bowels, Liver or Kidneys, In all affections of the Brain, depending upon derangement of the Stomach and bowels, IN GOUT, RHEUMATISM and NEURALGIA. And in FEVER AND AGUE.

It is destined to supersede all others. It not only cures these diseases but prevention. A wine glass full of the Bitters taken an hour before each meal, will obviate the effects of the most unhealthy climate, and screen the person taking it against diseases under the most trying exposure. Sold by Druggists and Grocers generally. DR. JOHN BULL'S Principle Office, Fifth Street, LOUISVILLE, KY. SOLD WHOLESALE AND RETAIL BY FINLEY & STEWART, Clarksville, Tenn. Who also sells BULL'S WORM DESTROYER, BULL'S SARSAPARILLA AND SMITH'S TONIC STRENGTHENING. FINLEY & STEWART, Druggists. Aug. 4, 1865-7
