CENTAUR LINIMENTS.

So nearly perfect are the recipes of the wonderful pain-soothing and healing Centaur Liniments, that we can confidentially say they will **alleviate any pain** arrising from flesh, bone or muscular derangements. We do not pretend that they will mend a broken leg or **exterminate boils**, but even in such cases they will reduce the inflamation and stop the pain. Nor can we gaurentee the proper results where the body is **poisoned by whisky**. Temperance is as necessary to a proper physical, as mental condition.

The White Centaur Liniment is particularly adapted to all cases of **Rheumatism**, Lumbago, Neuralgia, Eyrsipelas, **Sprains**, Itch, Chilblains, Cuts, Bruises, Stings, Poisons, Scalds, Sciatica, Weak Back, Pains in the side, Wounds, Weeping Sinews, **Burns**, Frosted Feet, **Palsy**, Ear-ache, Tooth-ache, Head-ache, Ulcers, Old Sores, Broken Breasts, Sore Nipples, Sore Throat, Croup, Diptheria, etc. The most of these complaints the Centaur Liniment will cure; all of them it will benefit. It will **extract the poison** from bites and stings, and will cure **burns and scalds** without a scar. The following is but a sample of a thousand similar testimonials;

ANTIOCH, ILL., Dec. 1, 1874.

"My wife has for a long time been a terrible sufferer from Rheumatism. She has tried many physicians and many remedies. The only thing which has given her relief is Centaur Liniment I am rejoiced to say this has cured her.

W. H RING, Postmaster."

It is an indisputable fact that the Centaur Liniments are performing **cures never before effected** by any preparation in existence,—like Chronic Rheumatism of **thirty years' standing**, straightening fingers and joints which had been stiff for six years, taking the soreness from burns, etc.

One dollar, or even fifty cents, invested in Centaur Liniment will be within reach **when an accident occurs**, and will do more good than any amount of money paid for medical attendance. When physicians are called they frequenty use this Liniment, and of course charge several prices for it.

The Yellow Centaur Liniment

is adapted to the tough sasm, muscles and flesh of the animal creation. Its effects upon severe cases of Spavin, Sweeny, Wind-Gall, Big-Head and Poll-Evil, are little less than marvellous.

Messrs. J. McClure & Co., Druggists, cor. Elm and Front sts., Cincinnati, O., say:

"In our neighborhood a number of teamsters are using the Centaur Liniment. They pronounce it superior to anything they have ever used. We sell as high as four or five dozen bottles per month to owners of horses and mules."

We have volumes of testimonials describing cures of Sprains, Kicks, Galls, Poll-Evil, Big-Head, and even Founders, which are little less than marvels. No owner of an animal can afford to be without a bottle of Centaur Liniment, which any day may prove worth twenty times its cost.

Sold everywhere, but prepared only at the Laboratory of J. B. Rose & Co., 46 Dey St., New York.

Castoria.

Cross, sickly babies and children may enjoy health, and **mothers have rest**, if they will use Castoria. Worms, feverishness, teething, **wind colic**, sour stomach and undigested food make children cross, and produce sickness.

Castoria will assimilate the food, **expel worms**, and correct all these things. For twenty years Dr. Pitcher experimented in his private practice to produce an effective Cathartic and stomach regulator which would be as effective as **Castor Oil**, without its unpleasant taste or recoil.

The reputation of his experiment extended. Physicians and nurses rapidly adopted his remedy, to which he gave the name of **Castoria**.

Castoria is as **pleasant to take as honey**, regulates the stomach and bowels, and does not gripe. It is adapted to all ages, contains no alcholol, and is **absolutely harmless** to the finest tender infant.

Try Castoria once and you will **never be without it**.

Prepared at the Laboratory of J. B. Rose & Co., 46 Doy street, New York. (1)-2-24-1ytw

The Bulletin

Will steadfastly oppose the policies of the Republican party, and refuse to be trammelled by the dictation of any clique in the Democratic organization.

It believes that the Republican party has fulfilled its mission, and that the Democratic party as now organized should be restored to power.

It believes the Radical tranny that has for several years oppressed the South should be overthrown and the people of the Southern States permitted to control their own affairs.

It believes that railroad corporation should be prohibited by legislative enactments from extorting and unjustly discriminating in their business transactions with the public.

It recognizes the equality of all men fore the law.

It advocates free commerce tariff for revenue only.

It advocates resumption of specie payment, and honest payment of the public debt.

It advocates economy in the administration of public affairs

CAIRO,

ILLINOIS.

The Trustees of the Cairo City Property desire to call public attention to the merits of their property, comprising a considerable portion of the City of Cairo, in Alexander County, in the State of Illinois, and lands immediately adjacent thereto.

This city, as is well known, is situated at the confluence of the Ohio and Mississippi rivers, at the head of uninterupted navigation on the Mississippi, being below obstructions by ice in the winter and low water in summer, and thus has a clear and open river communication at all times over the Mississippi and its tributaries, with all the country south, to the Gulf of Mexico and the Atlantic Ocean. Cairo has also the same character of communication with all the country north over the streams flowing by it, when those streams are not innavigable by reason of ice or low water.

Before the era of Railroads, Cairo had a commanding position as a centre of commerce and navigation. This importance of position she still possesses, but has now the additional advantage of being a great railroad centre, a number of the most important railroads in the Valley of the Mississippi converging to and having their termini there. Among these, coming from the north are the great Illinois Central Railroad, which traverses the entire state of Illinois from its extreme northern and north-eastern to its southern limits, and by its connections extends into all the great northwestern grain producing States; the Cairo and Vincennes, extending from Cairo to the City of Vincennes, in the State of Indiana, where its connections afford direct railroad communications with all Eastern cities; and the Cairo & St. Louis Railroad, affording a direct railroad communication with the City of St. Louis and all the railroads centering there. The roads coming from the South are the New Orleans, Jackson and Great Northern and the Mobile and Ohio Railroads, which give direct railroad communication with the cities of Mobile and New Orleans, and other Southern Atlantic sea ports, and by connecting roads with all the country south of Cairo; and coming from the southwest is the Cairo, Arkansas and Texas Railroad, which affords similar communication with Southern Missouri, Arkansas and Texas, and the principal cities of those States. This last-named road will give, also, direct connection with the Texas and Pacific Road when it is completed, thus giving direct communication with the principal ports of the Pacific Ocean. These railroads, terminating at Cairo, are now all completed and in successful operation, those in Illinois coming into the city on a bank of each of the rivers, Ohio and Mississippi, and terminating at their confluence, thus encircling the city. The Holly Springs, Brownsville and Ohio River Railroad, and the Cairo and Tennessee River Railroad, which will both terminate at Cairo, are in course of construction and will soon be completed, and other railroads both in Illinois and in States south of the Ohio river, which will also terminate at Cairo, are projected, and arrangements made to build them. The construction of these will greatly increase the railroad communications of Cairo

Its central location in the great Valley of the Mississippi, and the great wealth of river and railroad communication, gives to Cairo unsurpassed advantages as a commercial point, as it affords to her easy and cheap access to all the grain producing districts of the North and West, and similar access to all the agricultural produce consumers of the South, thus presenting the best location in the West for an interchange of the respective northern and southern commodities and productions

As a manufacturing location the position of Cairo is not less important. The crude materials of every description, which constitute the elements of manufactured articles, abound on every side, iron ore, coal, of superior quality, and timber of every character, more than others, being easily and cheaply accessible, and the rich agricultural region of the immediate neighborhood, as well as the more remote districts rendered tributary to it by river and rail, furnish supplies or the necessaries of life in such abundance as to render living exceptionally cheap When the manufactured articles are produced, the facilities for cheap distribution by river and rail are not equalled.

Cairo has a moral, intelligent, liberal and enterprising population of about 12,000—has a superior system of public schools, which, with others conducted by private enterprise, afford unsurpassed educational advantages—is possessed of well-established churches of nearly every denomination—has public and private buildings of a superior character—has a climate, which for salubrity and healthful influences cannot be surpassed—has a well-regulated and efficient municipal organization, its streets lighted with gas, and other metropolitan advantages, which make it highly desirable and in reality not to be excelled as a place of permanent residence.

Lots and land in Cairo are now offered at very low prices, affording favorable opportunities to purchase, and the owners present the location to the public as offering unrivaled advantages for the successful establishment of commercial or manufacturing enterprises, and the best locality in the country for profitable investment of capital.
