BENNETT'S BRIDAL.

The New York *Herald*, the great sensational paper of the country, is conspicuously silent on the sensation of the day in New York city—the suddenly broken-off marriage of James Gordon Bennett, its proprietor, and the attack upon him by the enraged brother of the disappointed *fiancee*. But the other New York newspapers have not followed the example of their contemporary and their columns are full of rumors concerning the engagement, its sudden termination and the habits of the notorious if not famous Bennett. The engagement between Bennett and Miss May had existed for some two years, and was to have been consummated last week. It was the theme of conversation among the friends of the parties, the feminine portion being especially interested in the costliness and elegance of the bridal trousseau that had been ordered from Paris at an expense of twenty thousand dollars. But as the time drew near for the wedding, strange stories of the conduct of the groom-elect began to be circulated. Like Dick Swiveler, he developed an over-weening fondness for "the rosy," and while under its influence, was guilty of singular and unbecoming actions. On one occasion, the family of Miss May was invited to dine with him. An elaborate dinner was prepared, but alas, for the appetites of the visitors, the host, after the soup was served, gave orders that the rest of the *menu* with the exception of the dessert, should not be served, and his well-trained servants obeyed him to the letter. On another occasion, when a party of ladies and gentlemen were being entertained by him, he invited the ladies into his billiard-room to witness a trial of skill between some players. To the surprise of his feminine guests, he insisted on their taking positions on the billiard tables and immediately introduced into the apartment some game fowls, which engaged in a spirited contest, much to the chagrin and discomfiture of the ladies who were compelled to endure the unpleasantness of their position for upwards of an hour.

These are a few of the vagaries committed by the owner of the *Herald* after putting an enemy into his mouth to steal away his brains. He clapped the climax of his offenses against his bethrothed when he allowed her, vailed and orange flowered, to wait in vain at the threshold of the matrimonial altar, for his presence. The insult to the lady and her family was avenged by her brother with a horse whip and now all New York is in daily expectancy of a duel between the parties.

THE Louisiana legislature has passed a bill appropriating various sums of money to colored women "claiming to be martyrs of bulldozers." This is Kellogg's way of amending disorders in the state. If the Illinois legislature had voted "appropriations" to Mrs. Hinchcliffe and Mrs. Sisney and other women widowed and otherwise injured by the actors in the Williamson county vendetta, how the whole state would have condemned the unprecedented proceeding, and would have insisted that the only lawful course was to arrest and punish the injurers instead of compensating the injured. But a course of action that would have been all wrong in the Illinois legislature is all right in the Louisiana body. And then, the female victims of the bulldozers must be paid something for their testimony before the returning board. It helped the Hayes count wonderfully and was worth many honest votes to the party.

A GALVESTON newspaper, which has been at some pains to investigate the matter, declares that Gen. Grant, who has long cast a longing eye on Mexico, is laying the wires for the establishment of a protectorate in that country, of which he will demand to be made the head in the event of Hayes' inauguration; that as soon as he lost hope of being nominated by his party for a third term, he conceived this scheme, and that he has, for some time past, had confidential officers of the government and personal friends traveling through Mexico, noting the temper of the people there, and hearing how a protectorate extended by the United States would be received; and further that his proposed visit to Europe next summer is to "feel the pulse of John Bull and other nations interested in Mexico, upon the protectorate question."

A special dispatch to the St. Louis *Republican*, dated Springfield, Jan. 6th, gave the following information to that paper: "Ex-Congressman H. H. Finley, of New York, a confidential political friend of President Tilden, arrived here to-night and has been closeted several hours with Hon. Cyrus H. McCormick, of Chicago, chairman of the Illinois Democratic central committee, arranging for the Tilden convention to meet here on Monday. It is understood that Mr. Tilden desires that nothing shall be done in any way tending to excite the passions and prejudices of the populace into a war fever, or a disposition to resist by force the inauguration of Hayes. Mr. Finley will address the convention in behalf of Mr. Tilden, and will advise protestations against Republican usurpation in a conciliatory and corrective manner.

THE betting men of New York city are laying wagers for and against the probability of a Bennett-May duel.

THE inauguration of Gov. Cullom yesterday, was made the occasion for one of the grandest displays ever witnessed in Springfield. Large delegations from every county in the state were present and the military companies of Springfield, Jacksonville, Joliet, Chicago, Peoria and Danville took part in the procession. In the evening, the principal buildings and business horses were illuminated, as was also the new state house from the basement to the top of the dome.

MR. JUSTICE FIELD, of the United States supreme court, has drawn upon himself the condemnation of the Radical party by openly declaring his conviction that Mr. Tilden was fairly elected on the 7th of November, and by severely denouncing the action of the Louisiana returning board. These declarations were made at a dinner party given in Washington by a Republican senator, very recently.

AMONG the bills passed through the first reading in the Illinois senate on Saturday was one introduced by Senator Parish to pay Messrs. Andrew J. Duff and William J. Allen $5,000 each for their legal services and assistance in prosecuting for the state the vendetta band of Williamson county a year ago. It was referred to the committee on appropriations.

THE richest "diggings" yet discovered in the Black Hills are reported to be on Battle creek, twenty-five miles from Custer city. There the miners wash out from ten to fifteen dollars from each pan of dirt which is considered a very rich yield. Other settlements in the Hills are being deserted for this new field.

KELLOGG'S legislature has voted one hundred thousand dollars to the returning board for its services in counting in the Hayes electoral ticket in Louisiana. This is twenty thousand dollars apiece. Who wouldn't be a returning board at that rate of payment for "services?"

ANOTHER scandal will shortly be made public in the District of Columbia, says a Washington dispatch. The principal actor is Wm. J. Murtagh, editor of the Washington *Republican*, Grant's organ, and a particular friend of the president.

THE number of votes in the Illinois legislature requisite to elect a United States senator is one hundred and three. The Democrats and Independents, united, have this number and the Republicans have one hundred and one.

MRS. CHARLOTTE DEFOREST EGBERT, a sister of Commodore Vanderbilt, aged eighty-five years, died on Friday last, one day after her brother.

THE late snow storm in portions of Alabama, Tennessee and other Southern States, was the heaviest that has fallen for twenty years.

Two Detroit mechanics claim to have invented and will shortly place on exhibition, at five dollars a sight, a perpetual motion machine.

A "Washburne movement" is reported among the Illinois senators, Bluford Wilson, it is said, engineering the movement.

CENTENNIAL EXHIBITION

PHILADELPHIA, PA.

This great International Exhibition, designed to commemorate the one hundredth anniversary of American Independence, opened May 10th, and will close November 10th, 1876. All the nations of the world and all the states and territories of the Union are participating in this wonderful demonstration, bringing together the most comprehensive collection of art treasures, mechanical inventions, scientific discoveries, manufacturing achievements, mineral specimens, and agricultural products ever exhibited. The grounds devoted to the exhibition are situated on the line of the Pennsylvania Railroad and embrace 450 acres of Fairmount Park, all highly improved and ornamented, on which are erected the largest buildings ever constructed—five of these covering an area of fifty acres and costing $5,000,000. The total number of buildings erected for the purposes of the exhibition is near two hundred. During the thirty days immediately following the opening of the exhibition a million and a quarter of people visited it.

THE PENNSYLVANIA RAILROAD

THE GREAT TRUNK LINE

AND

FAST MIL ROUTE OF THE U. S.

Is the most direct, convenient and economical way of reaching Philadelphia and this great Exhibition from all sections of the country. Its trains too and from Philadelphia will pass through a grand Centennial depot, which the company has erected at the main entrance to the Exhibition grounds for the accommodation of passengers who wish to stop at or start from the numerous large hotels contiguous to this station and the Exhibition—a convenience of the greatest value to visitors, and afforded exclusively by the Pennsylvania Railroad, which is the only line running direct to the Centennial buildings. Excursion trains will also stop at the Encampment of the Patrons of Husbandry, at Elm Station on this road.

The Pennsylvania Railroad is the grandest railway organization in the world. It controls seven thousand miles of roadway, forming continuous lines to Philadelphia, New York, Baltimore, and Washington, over which luxurious day and night cars are run from Chicago, St. Louis, Louisville, Cincinnati, Indianapolis, Columbus, Toledo, Cleveland and Erie without change.

Its main line is laid with double and third tracks of heavy steel rails upon a deep bed of broken stone ballast, and its bridges are all of iron or stone. Its passenger trains are equipped with every known improvement for comfort and safety, and are run at faster speed for greater distances than the trains of any line on the continent. The company has largely increased its equipment for Centennial travel, and will be prepared to build in its own shops, at short notice sufficient to fully accommodate any any extra demand. The unequalled resources at the command of the company of the company guarantee the most perfect accommodations for all its patrons during the Centennial Exhibition.

The magnificent scenery for which the Pennsylvania Railroad is so justly celebrated presents to the traveler over its perfect roadway an ever-changing panorama of river mountain and landscape views unequaled in America.

The eating stations on this line are unsurpassed. Meals will be furnished at suitable hours and ample time allowed for enjoying them.

Excursion tickets, at reduced rates, will be sold at all the principal railroad ticket offices in the West, Northwest and Southwest.

Be sure that your tickets read via the Great Pennsylvania route to the Centennial.
