The Bulletin.

EX-GOVERNOR HENDRICKS will sail for Europe about the 13th of June.

THE Ohio Democratic state convention will be held at Columbus on Wednesday, July 25th.

OF THE one hundred and two counties in Illinois, Crawford, Calhoun, Franklin, Massac, Pope and Hardin are the only ones not burdened by railroad indebtedness. They have no railroads.

MULLINS AND HIGGINS, the Lincoln tomb robbers, were convicted in the Sangamon circuit court on Thursday, and sentenced to the penitentiary for one year each.

GOV. CULLOM has approved the bill in relation to insurance companies. This bill provides that the auditor of state may revoke the license of any insurance company doing business in this state which he may find to have made a false statement of its condition.

THE Republicans of Williamson county will meet in mass convention in Marion, on Monday, June 25th, for the purpose of nominating candidates for the various county offices to be voted for at the fall election.

IT IS charged that there is some one in the treasury department at Washington who keeps the whiskey distillers posted as to the movements of the special agents of the department. It would seem from this that the employes of the department have not profited by Avery's experience.

THE Blandville *News* denies that the mob who hanged the negro Pyle "built a fire under him, and burned his clothes off." Well, we have no doubt the story of the hanging was greatly exagerated before it reached our ears. However, we gave the particulars as they came to us, and if we were misinformed we were not to blame.

GOV. YOUNG of Ohio, "looks up the wine when it is red," and this fact may be the means for defeating him for re-nomination for re-election. The Western Reserve Republicans are a cold water set, and will not support him. Republicans in the Southern part of the state claim that Gov. Young is the only man who can carry Hamilton county, and without Hamilton county they cannot carry the state.

THE Villa Ridge correspondent of the Pulaski *Patriot* says the shipment of berries from that station for the last week has averaged about one car per day, "but should the present dry weather continue a day or two longer, the supply will decrease rapidly. Prices from the beginning have been fair, and hundreds of little towns throughout the state have been begging for fruit and unable to get work of it. The strawberries and fruit of all kinds is being largely increased yearly, and we predict that not many years hence Villa Ridge will be a leading shipping station but the country surrounding it will be the most desirable and best improved portion of Southern Illinois."

THE governor, among others, during the last week of the session of the Legislature, sent the following nominations to the senate, all of which were confirmed:

Trustees of the Jacksonville insane hospital, J. D. Beatty, Jersey county; Daniel R. Ballou, of Kendall county; Jno. C. Salter, of Jacksonville.

Trustees of the Elgin insane hospital—Chas. W. Marsh of DeKalb county, Increase C. Bosworth of Elgin, Frederick Stahl, Democrat, of Jo Daviess county.

Members of the state board of education—Michael Donahue of Dewitt county and Isaac Lessem of Quincy.

Trustees of the southern insane hospital at Anna—John E. Dietrich of Randolph county, E. H. Finch of Union county, and William P. Bruner of Massac county.

Trustees of the deaf and dumb institution, Jacksonville—Joseph M. Patterson, of Whiteside county; Melvin A. Cushing, of Woodford county; Stephen R. Capps, of Morgan county.

Trustees of Chicago eye and ear infirmary—David Goodwin, Wm. A. Felch and Perry A. Armstrong.

Canal commissioners—Joseph O. Glover, of Chicago; B. F. Shaw, of the Dixon *Herald*, and Martin Kingham, of Peoria.

THE small-pox having made its appearance in Du Quoin, it has spread among the colored population to such an extent as to become alarming, and the authorities are now using every effort to stay its progress. The *Tribune*, in order to correct the reports that have gone abroad concerning the existence of the disease in that city, says:

"That we have cases of small-pox in our city we do not deny, but that the people are dying off at the rate of from twenty to thirty in a day, we do deny very emphatically. Thus far we have lost two citizens (both colored), who had the disease in the regular form, but of the cases now existing, they are principally if not entirely of the varioloid form, and consequently not so severe and fatal. There are but two families of whites who are at the present writing (Tuesday) attacked with the disease, and in one the patients have recovered. There are, however, quite a number of cases among the blacks, and these have mostly been brought on from their own carelessness, in visiting persons and localities where they ought to have known, if they did not, that they had no business to go. Our authorities have taken the matter in charge, employed a physician to attend most of the sick, appointed a man to procure medicines and food for the afflicted and their families, and established a hospital at the fair grounds, where all who cannot receive proper care at home, or those who, for want of means, become charges of the city, will be taken and cared for until they entirely recover.

While we have no small-pox in Cairo, and do not believe there is the least reason to apprehend that it will make its appearance here, we suggest to the authorities the propriety of taking steps to have the city placed in a thoroughly sanitary condition. Small-pox is not the only disease superinduced by dirt and filth, and in order that we may guard against any and all contagious and epidemic maladies, we urge upon the board of health to look to the matter without unnecessary delay. Taken as a whole the city is in a very good condition, but there are a number of places that need looking after, and they should be attended to promptly.

GENERAL ITEMS.

—"EX-Secretary Belknap and family have left Washington never to return," says a New York paper.

—The death of two centenarians is announced—Rose Brady, in New York, aged 103, and Henry Johnson, a life convict at Sing Sing, also 103.

—On Wednesday last ex-Gov. Warmoth of Louisiana, was married to Miss Sarah Durand of Newark, New Jersey.

—There is trouble among the Republicans in Ohio. It is the opinion of old politicians there that the disaffection of well-known leaders, who are opposed to Hayes' administration, will result in the defeat of the party this fall.

—The Ohio Republicans, believing that they cannot elect their state ticket this fall, will move heaven and earth in their efforts to secure the legislature. They cannot afford to lose the United States senator.

—*Those burning with a desire to celebrate the centennial of something may gratify themselves on the fourteenth of June by observing the one hundredth anniversary of the adoption of the stars and stripes as the national flag.*

—A farmer in Springfield township, Noble county, Indiana, has been experimenting with the product of one head of wheat of a rare variety. Last year's sowing (the fourth) yielded one hundred and twenty bushels, at the rate of thirty bushels to the acre.

—Judah P. Benjamin, formerly secretary of state to Jeff Davis, is now one of the most popular lawyers of England, being the queen's counsel. His law practice is worth over one hundred thousand dollars per year.

—An election was held in Georgia on the 1st of May to ratify the amendment to the constitution forbidding the legislature ever to pay the fraudulent Bullock bonds. The returns so far as received show a light vote, but the amendment was ratified by a majority of ten to one.

—The Roman Catholics have recently opened forty mission schools in Alabama and Mississippi, and colored children will be educated in them free. The protestant societies, we believe, are still taking up collections to educate the heathen on the west coast of Africa, and the south-east corner of China.

—Ben Butler having denied that he either owned or expected to own any land in Colorado, has induced some one to investigate the records of Pueblo county, which show that in April, 1877, in consideration of the sum of $30,000, William Craig deeded to B. F. Butler 71,638 acres of land, and the records fail to show that the title to this land has passed out of Butler's hands. Butler will have to explain.

—The Democrats of Burke county, Connecticut, have passed this resolution: "Resolved, That we assure the colored race that they have been made citizens of the state; that we have no purpose to make war on them or their legal rights; that in the hands of the Democrats they receive a protection that they cannot get from any party in this country, and that we will stand by this assurance, whether they vote with us or against us."

—General alarm prevails throughout California at the prospective ruin of the farmers and stock-raisers of the state by the drouth. The San Joaquin and other great agricultural valleys are utterly bleak and desolate. In the foot-hills and valleys there are thousands of dead and dying sheep, and the bones of sheep and cattle whiten the fields. Mr. Hollister, the famed sheep king, who owns fifty thousand sheep in California, told a friend that if five thousand remain alive next spring he will consider himself very fortunate. Friedlander, widely known as the grain king, who controlled all the shipments of wheat from San Francisco, failed recently by reason of loans made to farmers. He used to pay six hundred dollars per month for accommodations for himself and family in the Palace hotel, San Francisco. In the northern part of the state, where rains never fail entirely, the prospect is better.

Curious Newspaper Tactics.

A Washington correspondent of the New York *Graphic* writes: Some attention is bestowed here on the course of the New York papers on the administration. The animadversions of the New York *Times* on the cabinet and its policy are exciting surprise in some quarters, but are quite well understood in others. The outside public do not comprehend the ingenious tactics of politicians and the newspapers under their control. The most clumsy kind of newspaper support is that which is always laudatory of an administration. The most effective aids to a party in power are those journals which give expression to the discontent of large sections of the party, but which are always to be relied upon when a national contests takes place. In its day, the New York *Tribune*, under Horace Greeley's management, was the rebellious organ of the party. It was always on the alert to censure whatever unwise measures the party managers might adopt; but when a congressional or presidential election took place Mr. Greeley never faltered. Hence the value of a press which will give voice to the discontent of a party, but which will prevent its adherents from going outside of the party lines, and finally influence them to vote the regular ticket, notwithstanding their embittered feelings. Old politicians will remember the signal instance of Greeley's opposition to the nomination of Zachary Taylor; his threat to go over to the Van Buren free-soil movement, and how finally, after having "spat upon the platform" of the Taylor Whigs, he advocated the election of "Old Zack."

Now matters are curiously reversed. Then, the *Times* was the official organ of the Whig and Republican parties; now, the *Tribune* occupies that position, and is benefited by the cordial support it gives the administration and its policy. There is reason to believe that the course of the *Times* is really dictated by Secretary Evarts, it is known that Mr. George Jones is on the most pleasant personal relations with President Hayes and his premier; and there is a report current here that Mr. Evarts, owing to the presidential contest, was paid retainers by the New York *Herald* to furnish it with political ideas on which to conduct the canvass. The story is that Mr. Bennett was not well satisfied with his office advisers, as he made a number of mistakes touching the policy of the day. At one time, it is alleged, he consulted Mr. Dana of the *Sun* as to the proper course for the *Herald* to pursue in given emergencies. It will be remembered that Mr. Evarts began his career as a journalist, and was a writer on Park Benjamin's paper about the time that A. Oakey Hall started on his office advisers, as he made a number of mistakes touching the policy of the day. At one time, it is alleged, he consulted Mr. Dana of the *Sun* as to the proper course for the *Herald* to pursue in given emergencies. It will be remembered that Mr. Evarts began his career as a journalist, and was a writer on Park Benjamin's paper about the time that A. Oakey Hall started on his career as a writer. The policy dictated by Mr. Evarts to the *Times* aims, it is said, to keeping in hand the discontented element of the Republican party, so as to have them cast their votes on the right side in the event of an election. It is admitted that the *Times* is able and bold in its new departure, and it is hoped it will retain sufficient influence over the discontented Republicans to keep them within the party lines.

The Eastern War.

Turkish Commander Dismissed—Danger of Russian Batteries—More Peace Talk.

(St. Louis Republican, June 1.)

The Ottoman ministry, it seems, have been compelled, by the menacing attitude of the populace or for other reasons, to dismiss Mukhtar Pasha, commander of the Turkish forces in Asia Minor. In addition to the charge of incompetency, which it will be remembered was the objection urged against him by the Softas of Constantinople, he is now accused of misrepresenting the strength of his forces and of malversation on a large scale. Information has been sent to Turkish representatives abroad that Ardahan has been recaptured by the Turks. Heavy rains prevent operations in the vicinity of Kars. The Danube is very high, and an inundaton near Oltenitza is much feared by the Russians, as in that event they would be obliged to remove their batteries now in that section to higher ground. News via Bucharest states that some Bashi-Bazouks crossed the Danube and captured fourteen Roumanian militiamen, the calves of whose legs they cut off. At last a good reason is furnished for the delay of the Egyptian contingent, which has been on the eve of departure from Alexandria for more than a week past. A Russian man-of-war carrying a store of immense guns is waiting for them in the Mediterranean. Meanwhile Turkish iron-clads are expected to undertake to escort the transports containing the Egyptian troops to Constantinople, and we may look for some fighting in that quarter. Russian movements are delayed in Romania by damage to railroads by floods, and the wet weather is beginning to have an ill effect on the soldiers. Reports from Russian sources state that Servia has resolved to maintain strict neutrality. A Paris paper says Russia will dispatch a reply to the English note which will be conciliatory. The talk of prospective peace appears to be increasing and this morning's dispatches throw some little light on the subject. It is noticeable that all the peace talk comes from Russian sources.
