

Announcements.

Judge of Circuit Court. We are authorized to announce the name of Andrew D. Huff, of Jackson County, as a candidate for the office of circuit judge, at the general election to be held on the 11th day of August, 1877.

We are authorized to announce the name of John D. Huff, of Jackson County, as a candidate for the office of circuit judge, at the general election to be held on the 11th day of August, 1877.

The voters of the first judicial district, composed of the counties of Franklin, Saline, Harlan, Pope, Macon, Polk, Alexander, Taylor, Jackson, Wayne, Washington, Johnson, Boone, Wagoner, Muskogee, Nowata, and LeFlore, have elected, on the 11th day of August, 1877, the following as their judges of the circuit court: Andrew D. Huff, of Jackson County, and John D. Huff, of Jackson County.

HON. WM. A. HUNT of New Orleans is said to be the coming man for Judge Davis' place on the supreme court bench.

THE Democrats of Wayne county will hold their county convention for the nomination of a county ticket on August 11th.

GEN. ORD has one thousand troops concentrated on the Rio Grande from Fort Clark, along the region most subject to raids.

FOURTEEN life insurance companies in New York have \$135,000,000 loaned upon real estate, and report \$2,859,502 interest due and accrued.

THE republicans of Pulaski county have determined to hold a convention to nominate candidates for county offices, and all the faithful who desire to serve "the dear people" in the county offices are announcing themselves "subject to the republican nominating convention."

THE Memphis Avalanche having been asked to define Hayes' Southern policy, says no policy has been discovered to date. The president has simply turned the constitution of the United States loose, with instructions to roam through the states at its own sweet will.

THE Pan Presbyterian council now in session at Edinburgh, has unanimously voted to hold its next meeting in Philadelphia in 1880. This body represents the various sects which accept the fundamental doctrines of Presbyterianism, while differing in some details of church discipline.

THERE is trouble over the circuit judgeship in the second judicial circuit. The democrats nominated Hon. John H. Halley, and now a few of the defeated candidates are trying to get up a "people's convention" to put another ticket in the field. It is said, however, that Halley cannot be defeated.

PACKARD of Louisiana has been invited to make a speech before the Republican state convention of Pennsylvania, and relate his grievances. The president it is said takes this as an indication that the Pennsylvania Republicans are more in sympathy with Packard than they are with Mr. Hayes. It does look a little that way.

CHIEF JOSEPH is a wary customer, and has been playing it fine on Gen. Howard. The latter and his soldiers got Joseph and his band in a tight place and was about ready to pounce upon him, when Joseph sent a messenger to Howard to tell him that he wanted to surrender. While the messenger and Howard were talking, Joseph with his band of red throats moved off, and then it dawned on Howard that he had been duped, that Joseph had got up the talk in order to gain time. Gen. Howard is mad at Joseph and will look him if he can catch him.

GEN. ORD has received instructions from Washington that will have the result of preventing any collision between American and Mexican troops. The instructions just received are to the effect that General Trevine is to place troops on the Rio Grand at points where the Indians are likely to cross over, and he is to notify General Ord where those Mexican troops are, and in case raiders do cross over in their vicinity the work of punishing them is to be left to the Mexicans, and the United States troops are not to interfere.

It is given out from Washington that the Texas Pacific management are bringing influences to bear on the Ohio democrats to prevent them from adopting the customary resolution against subsidies at their approaching state convention. One of the arguments used is that if the northern democrats pronounce squarely against the policy, as they have been in the habit of doing, it will strengthen the administration republicans, who it is charged, hope to organize the House by means of an understanding that will support the Texas Pacific scheme.

THE strike among the firemen on the Baltimore and Ohio railroad continues, notwithstanding the arrival of several hundred United States soldiers at Martinsburg, West Va., where the strikers are congregating, they are undiminished and present a bold front. No freight trains have been moving for two days, but passenger trains are running unimpeded. The freight train men on the Pennsylvania Central also quit their trains at noon on Thursday, since which time but little freight traffic has been done. No disorders have occurred on the latter road, however.

THE Jonesboro Gazette of this week says: "Mr. Strunk, a German gentleman in company with Mr. Turlay, land agent of the L. C. R. Co., has been spending this week in the examination of railroad lands in the east part of Union and west part of Johnson counties with a view to locating a German colony. The enter-

prise is a good one, and no better field for the industry of his German friends can be found than the one he is exploring. There is no rapid slope of country anywhere, adapted to so many different products as this section of Illinois. Corn, wheat, tobacco and fruits and vegetables can all be grown here. In abundance, and every tough spot may be utilized in raising cattle, sheep, goats. It is to be hoped that the land will be taken up, and many families provided with more comfortable homes than can be found in any other locality."

MR. R. PERKINS, REGULAR JURY MEMBER IN OHIO THE PRESIDENT'S OFFICE. A Washington special of the 17th inst. An O. P. person, Ohio friend of the president informed me yesterday that the feeling against his southern policy was very strong in some sections. The outlook is not favorable for a Republican victory in October. This gentleman, assuming to be in order forbidding officials participating in political campaigns says it will have a disastrous effect, adding: "Unless the better class of citizens come forward and take a lead in the political contest, the control of party machinery will pass into the hands of political hummers, who will manipulate the elections in their own interests. It was the opinion of this gentleman that the president would see the necessity of recording his order regarding federal officials after the very first election on hand."

GRAIN IN SIGHT. GRAIN IN STORE IN CHICAGO AND OTHER CITIES. The Chicago Evening Journal of Tuesday, 17th, says: Chicago elevators, as per official returns, contain 299,322 bushels of wheat; 1,437,523 bushels of corn; 243,315 bushels of oats; 22,013 bushels of rye; and 108,390 bushels of barley, making a grand total of 2,108,563 bushels against 2,743,315 bushels one week ago, and 3,497,192 bushels at this period last year.

Milwaukee warehouses contain 250,222 bushels of wheat; 1,593 bushels of corn; 19,925 bushels of oats; 19,925 bushels of rye; and 109,421 bushels of barley.

New York and Brooklyn warehouses were stored with 455,927 bushels of wheat; 311,995 bushels of corn; 860,970 bushels of oats; 12,159 bushels of rye; 8,841 bushels of barley; 183,644 bushels of malt; and 119,700 bushels of peas.

Exports from the seaboard ports last week include 25,616 barrels of flour; 69,024 bushels of wheat; 1,080,326 bushels of corn; 3,073 bushels of oats; 22,849 bushels of rye; 9,838 bushels of peas; 4,705 barrels of pork; 2,257,672 pounds of bacon and 4,554,153 pounds of lard.

Grain in sight in the states and Canada, July 7, 1877. Wheat, 2,381,890 bushels; corn, 9,189,463 bushels; oats, 2,334,807 bushels; barley, 458,900 bushels.

WASHINGTON, July 16.—The National Republican recently announced, by reliable authority, that Ben Wade had become reconciled to the president's policy. This has led to a belief among the ex-senator to the Republican, in which he says: "While I am now, as ever, as a republican, anxious for the success of that party, believing that it has long more to sustain the rights of man and promote the principles of just government, any political organization of which we have any account, I cannot permit my sentiments to be misrepresented. Now, I should like to know who is your 'reliable authority' for the above statement? Certainly I have authorized no one to make such a statement on my behalf, since my name was published, I have written to no one on the president's policy, and I have spoken to very few persons upon the subject, and then always in defense of the sentiments of that letter, which few merchants oppose. I regret to say that all the late news, trumpeted in the south and in the north, has confirmed me in the correctness of the sentiments expressed in that letter. I will add that I greatly fear this policy, under the color of what is called 'local self-government,' is but an ignominious surrender of the principle of nationality for which our armies fought, and for which thousands upon thousands of brave men died, and without which the war was a failure, and our boasted government a myth."

MISCELLANEOUS ITEMS. The Benton Manifest says the wheat yield in Franklin county will be 300,000 bushels this year.

Three hundred miners have arrived at Bradwood to take the place of the striking miners of that place.

Grain shippers in Jacksonville have offered \$1 25 for new wheat, but no consignments have yet been reported at that price, or contracts made. The yield in Morgan county this season has been immense.

The Rev. Harry Spear, a Methodist pastor in Alton City, Illinois, confesses himself a thief, and has gone to prison. He stole a package of bills, worth \$1,000, while making a call on a bank cashier, who was a member of his congregation.

DEAD HORSES STANDING ERECT. The Danville Advertiser of the 7th inst. says: Mr. Smith was in town on Saturday with his hired man, and the two fell a singular story about a lightning stroke. Mr. Smith was on a grain field in the field, and his hired man was about twenty rods from him. Suddenly Smith heard the noise of thunder, and became unconscious. The man also heard the noise, but neither of them saw any flash of lightning. The man went to Smith, and in about twenty minutes he was restored to consciousness. Then attention was being given to the corpse. One of them was standing erect, with one foot lifted a little way from the earth, and the other was kneeling with his nose in the earth, and both were stone dead, and retained their positions until they were pushed over. The supposition is that in this case the electricity went from the earth to the sky.

GOLD IN MEXICO. (Special Dispatch to the New York Herald.) MANGON, Mex., July 14.—It is stated on good authority that gold was discovered yesterday in Oahu, twelve miles from this city, by men who were blasting for a reservoir. Several miners who have had large experience in the mines of California, have pronounced it a rich deposit. Pieces as large as a pea are pronounced pure gold. The excitement over the discovery is intense. A capitalist has agreed to invest \$15,000 in a stock company to raise the thing of the ledge is going on to-day. The owner of a half acre adjacent to the reservoir has been offered \$5,000 for his claim.

REASON DEALERS. R. SMYTH & CO., Wholesale and Retail Dealers in Foreign and Domestic LIQUORS.
