gent reading family can less afford to be without. Many Magazines are accumula-ted. Harper's is edited. There is not a Magazine that is printed which shows more intelligent pains expended on its articles and mechanical executions. There is not confessedly, a more popular Magazine in the world.—New England Homestad.

A repository of biography and history, literature, sience, and art, unequaled by any other American publication. * * * The volumes are valuable as a mere work of reference and appropriate the state of the of reference as any encyclopædia we can place in our libraries. Harper's Magazine is a record of travel everywhere since the hour of its establishment. Livingstone and Gordon Cummings in Africa, Strain mong the Andes and Ross Browne in the East, Speke on the Nile and MacGregor on the Jordan—indeed, all recent travelers of note have seen their most important dis-coveries reproduced in these pages.
