

A Republican State Convention is hereby called to meet at the Academy of Music in the city of Minneapolis, on WEDNESDAY THE 21ST OF MARCH next, at 12 o'clock P. M. for the purpose of electing delegates to the National Convention...

The apportionment of delegates is made upon the basis of the Republican vote of last fall for Governor, as follows: One delegate for each 500 votes of major fraction thereof, and also one delegate for each county at large.

ADDITIONAL FACTS CONCERNING THE ST. CLOUD LAND OFFICE.

If Mr. Charles A. Gilman were as successful in all things as he is in financial operations, the two-column production which appeared over his signature in the last issue of the Land Office Organ, could not but have contained something which would have tended to leave his reputation and the reputations of those who are associated with him, in somewhat better odor than they now are.

FOR MEMBER OF CONGRESS.

Although it may be early in the canvass to make political prognostications; yet, if the general expression of the people is to be regarded, the renomination of Hon. John T. Averill for Member of Congress from this District is as good as a thing accomplished.

In due time, we will give a brief outline of the political records of the individuals comprising the "Ring." They are notorious as the base deserters of all parties—betrayers of trust—now bound together by a common purpose of plunder.

A fearful war is going on between the St. Cloud Journal and the St. Cloud Press. The Journal accuses the Press of being a Land Office ring who have grown rich by a corrupt use of the opportunities afforded by the Land Office, and that they form "a pine land ring powerful, corrupt and dangerous."

The facts are these: The editor of this paper went to St. Paul on Tuesday, remaining away until Thursday noon, and his absence was well known to Mr. Gilman. On Wednesday evening at half past six o'clock, this gentleman put in an appearance at this office, and seemed quite surprised at finding our foreman, who had accidentally been detained. He stated that he had a communication for the paper, and was told, just as he expected to be, that this was a matter which the foreman had nothing to do with.

With exceeding modesty, the ex-Register refers to the matter of his hasty resignation. He devotes four and one-half lines to it. But he neglects to state that this resignation followed immediately on the heels of the report of the Commission appointed to examine into these fraudulent scrip matters—a coincidence which is rather remarkable, considering that (as Mr. G. states in another place) "no one in St. Cloud had anything to do" with this scrip. It is interesting to observe at what odd times people will insist upon resigning flat offices.

Mr. Gilman makes a correction as to the matter of salary. We had stated that "he is now the owner and occupant of one of the most elegant residences in the State, besides holding a fortune in lands. Accumulations of this magnitude, on a salary of \$3,000 per year, require a degree of business management which honest men seem scarce to possess."

Supported by official authority, charges have been publicly made against the Saint Cloud Land Office of so important a character as to call for prompt attention from the proper Department. A commission should be appointed to make a thorough (and public) investigation, with power to send for persons and papers—a commission composed of men who cannot be tampered with. It is stating nothing novel to say that the ability which can make a fortune in three years out of \$1,400 per year understands the use of money.

There are other matters connected with the management of the St. Cloud Land Office to which we would also like to draw the attention of the Department.

BOLTING.

The Organ makes the statement that THE JOURNAL has bolted the Republican nominees for Governor and Congress since 1867. To prove the utter falsity of this, it is only necessary to refer to the files of the paper itself, which can be seen by any one.

But how about the "Ring"? To go no further back than two years ago—H. C. Wait, who was a delegate to the Convention which nominated Gen. Averill for Congress, openly bolted him. We imagine Gen. A. himself will need no additional information on this point.

Last fall, this same Wait, with McClure, Gilman and Clarke, howled through the streets and on the corners their anathemas against Gov. Austin, and thought he could get him to relinquish his claim for about \$20. The man, being poor, had not the money to give, and so retraced his long way homeward, defrauded of the land and of the money which the trip cost him.

It is any part of the duty of a Land Office "to remove" these filings for \$20, or any price?

PEOPLE'S COLUMN.

St. Cloud, March 16, 1872. Hon. Chas. A. Gilman. My DEAR SIR.—As you have seen fit, in the last number of the Organ, to address about two columns to "Messrs. Kerr, Collins and Mitchell, Editors and Proprietors of the St. Cloud Journal," I hope you will pardon me for a prompt reply to my third of your scattering charges.

In conclusion, I suggest that when you again rush into print, you drop that "You're another" style of argument. If all you say is true, it does not relieve you from the suspicion which naturally fastens itself upon a man who pleads an indebtedness of \$3,000 in 1867, builds a private residence worth \$12,000, and advertises 60,000 acres of choice land for sale in 1872—all upon a salary of \$1,400 to \$2,000 per annum.

I subscribe myself personally your friend, politically I cannot say as much. L. W. COLLINS.

EDITOR JOURNAL.—The following communication was presented early on Wednesday morning to the editors en masse of the St. Cloud Press, for publication in that sheet. After a careful reading, they expressed a perfect willingness to publish, and promised, if I would leave the manuscript, that they would insert an editorial in this week's issue explaining why it would not appear until next week, and promising that it should then. I accordingly left the manuscript, and was somewhat surprised, late last evening, to receive it back with the information that, upon mature deliberation, they had concluded that it would not benefit the editors or interest the readers of the Press, and therefore declined to publish it.
