

LEGAL ADVERTISEMENTS.

Sheriff's Sale.
By virtue of an execution issued out of and under the seal of the Circuit Court, for the county of Ottawa, on the second day of November, A. D. 1861, and to me directed, in favor of Joseph Hart, and against the goods and chattels, and for want thereof, then the lands and tenements, within my bailiwick, of Samuel Hart, the defendant therein named, I have levied upon all the right, title and interest of the said defendant, and shall expose for sale, at public auction, to the highest bidder, at the front door of the Court-house, in the village of Grand Haven, in said county of Ottawa, on Wednesday, the 15th day of January, A. D. 1862, at one o'clock in the afternoon of that day, the following described real estate, to wit:
The east half of the north-west quarter of section fifteen (15), in town seven (7) north, of range thirteen (13) west, in the town of Tallmadge, county of Ottawa and State of Michigan.
CHARLES J. PFAFF, Sheriff.
R. W. DUNCAN, Attorney. [143 w7 November 27, 1861.]

The above sale is postponed to the 12th day of February next, at the same hour and place.

Mortgage Sale.
DEFAULT having been made in the conditions of a certain Indenture of Mortgage, made on the 20th day of November, A. D. 1855, by William Notting and Jennie Notting, his wife, of Fillmore, Allegan County, Michigan, to Harn Jan Smil, of the same place, which said Mortgage was duly recorded in the office of the Register of Deeds of the county of Ottawa, in the State of Michigan, on the 23d day of January, A. D. 1855, at 8 o'clock A. M., on pages 182 and 183, of book C of Mortgages, upon which Mortgage, and of the accompanying the same, there is due at the date of this notice, the sum of eighty-two dollars and sixty-six cents (\$82.66), and, whereas, no suit, either in law or in equity, has been instituted to recover the same, or any part thereof, therefore, Notice is hereby given, that by virtue of a power of sale in said Mortgage contained, said Mortgage will be foreclosed by a sale of the Mortgaged premises mentioned in said indenture, and hereinafter described, which sale will be held at the place of holding the Circuit Court for the County of Ottawa, in the State of Michigan, at the Court House, in the village of Grand Haven, on the 14th day of March, A. D. 1862, at 4 o'clock in the afternoon of that day. The said Mortgaged premises being part of a certain forty-acre tract of land described as the north-west quarter of the south-west quarter of section thirty-two, in township five north of range fifteen west, and bounded on the east by a certain highway which runs from the north-east corner of said forty acres, to a point on the south line of said forty acres, forty rods east from the south-west corner thereof, bounded on the south and west sides by the south and west lines of said forty acres, and bounded north by a line parallel with the south line of said forty acres, and twenty-two rods distant from it, and running from the west line of said forty acres to the highway before described, containing by computation six and forty-one one hundred and sixtieths acres of land, more or less, in Ottawa County, State of Michigan. HARN JAN SMIL, Mortgagee.
H. D. PORT, Attorney.

Taggart & Farr's Patent.
The very best, and at the Lowest Price.

WE will refund the money to every dissatisfied purchaser. No other machine bears this guarantee and recommendation.
Our office is at 143, Lake Street.—We have no connection whatever with the Taggart & Farr Machine, with the very questionable concern below, notwithstanding the representations of a former partner (who undertook opposition, but lately left the business for a clerkship), or those gentlemen (excuse the term) who alternately profess to be his partners, or sons, or our successors, to suit the inquiries of customers.
With our machines, as now improved, we invite every practical test and comparison with the very best in market; and let come opposition or competition, we will court the one and defy the other. Send for a copy of our Sewing Machine Review.

The Hickory Grove Nurseries.
AT the head of Broadway, two miles above the Oliver House, Toledo, Ohio, would call the attention of
TREE DEALERS & NURSERYMEN
In want of Trees and Plants for fall trade, to their stock, which is now very large and promising, consisting of near 200 acres closely set, and having but a limited trade they are enabled to fill orders with healthy trees, not exposed to the usual perils attending shipments from eastern nurseries. Having 25 acres of apple trees, four years from the graft, will enable them to satisfy parties who value fruit trees, like timber, according to size. The younger stock is almost unlimited, very thrifty and fine. Send for a trade list. Office on 24 floor, Breed's Block, one minute's walk from R. R. Depot. If absenting in front of Broad, on P. T. NO person who contemplates purchasing a Sewing Machine for family or manufacturing purposes, should fail to send for one of our circulars, which contains cuts and full descriptions of the several styles, prices and samples of work, all of which we send by mail free. We claim to have the
BEST SEWING MACHINES
In the world for either Family or Manufacturing purposes. Read the following
Important Facts:
FACT No. 1.—This company being duly licensed, their machines are protected against infringements or litigation.
FACT No. 2.—These Machines make the lock stitch—like on both sides—and use a little less than half as much thread and silk as the chain or loop-stitch machines.
FACT No. 3.—These Machines are better adapted than any other Sewing Machines, to the frequent changes and almost endless variety of sewing required in a family. They will sew from one to twenty thicknesses of Marcelline, without stopping, and make every stitch perfect. They will sew from the finest gauge to the heaviest cloth without changing the feed, needle or tension, or making any adjustment of Machine whatever. Is not such a machine best adapted to family use? For work too heavy for our Family Machine, we recommend our larger sizes.
FACT No. 4.—These Machines make the most elastic seam of any sewing machine is used—a fact of very great importance in sewing elastic goods, or goods of any kind, on a bias.
FACT No. 5.—No Machine is more durable or more simple in its construction, or more easily understood. The reputation of these Machines wherever used will fully demonstrate each of the above facts.
FACT No. 6.—These Machines took the highest premium at the Franklin Institute Philadelphia, and at the New Jersey State Fair.
FACT No. 7.—These Machines took the highest medal at the American Institute, New York city, and highest premiums for fine Sewing-Machine work; also the highest premiums at the Mechanics' Fair, Utica, N. Y.
FACT No. 8.—These Machines can do the same thing whenever properly exhibited in competition with other first-class Sewing Machines.
FACT No. 9.—We warrant every Machine we sell to give better satisfaction than any other Sewing-Machine in the market, or money refunded.

THE
"GROVER & BAKER"
NOISELESS FAMILY
SEWING MACHINE!
HAS gained its wide-spread popularity, and its innumerable sales throughout the world, from the following facts, which over 50,000 families in the United States alone, who use them, are ready to endorse:
1. It makes the only seam formed by a Sewing Machine, in which each stitch is independently locked, and without dependence upon the other stitches for strength.
2. It makes the only seam that will admit of the thread being cut at every fourth stitch, without injury to the seam in wear.
3. It is unnecessary to fasten the ends of seams made by this machine. This is done by the machine itself, without the use of the hand needle.
4. The Grover & Baker stitch is the only one formed from two ordinary spools, and without winding from the spool into a shuttle from three to five times, for the under thread.
5. A seam thus formed is more elastic than any other made by a sewing machine, and is consequently very valuable in all goods that are to be washed and stretched under the iron.
6. The machine is adapted to all varieties of fabrics, serving each equally well, and requiring no adjustment for any kind of sewing, other than the adaptation of needles and thread.
7. It is more easily kept in order than any other machine, and need not be taken apart to be oiled.
8. The machine sews common spool cotton, silk and linen thread with equal facility.
9. The machine is so simple that an intelligent child of ten years can readily learn to operate and keep it in order.
10. By reason of its simplicity of construction and ease of management, it is best adapted to all the wants of the family.
Send for circular with cuts of the different machines. Address
GROVER & BAKER S. M. Co., Detroit.

CAUTION.
The public, in their eagerness to supply themselves with sewing machines making the Grover & Baker stitch, must not forget to purchase them of the parties who alone are authorized to sell them. All purchasers and users of fraudulent machines of this class will be visited with certain prosecution. Those who have already purchased a license for their use, before prosecution, on proper application. All machines sewing from two spools, and in which only one needle penetrates the cloth, and having a feed which allows the material to be turned at will, are infringements. GROVER & BAKER S. M. Co., 495 Broadway, N. Y.
A CARD FROM ELIAS HOWE, JR.
All persons are cautioned not to make, deal in, or use any sewing machine which sew from two spools and make the stitch known as the Grover & Baker stitch, unless the same are purchased from Grover & Baker Sewing Machine Company, or their Agents, or Licensees, and stamped under my patent of September 19, 1846.
Said company, and their Licensees, alone, are legally authorized under their own patent, and my said patent, during the extended term thereof, to make and sell this kind of sewing machine, and all others are pirates upon my said patent, and will be dealt with accordingly, wherever found. This machine is now confidently offered to the public as the best
FAMILY SEWING MACHINE
Now in use irrespective of Price.
We ask attention to the following points of excellence in West & Willson's Machine.
1st. Its simplicity, and the directness with which the power is communicated to the needles. This is a great desideratum and in this we claim a decided superiority over all other machines.
2d. The needle and needle bar are both straight and the motion direct; the needle bar is attached to a small wheel driven by a larger one, instead of to the long arm of a lever, as in most machines, with power upon the short one. The latter arrangement necessarily makes the motion of the needle both circular and weak, while the former gives strength and directness.
3d. The great power and directness of the motion enables us to sew all fabrics, from gauze to four thicknesses of leather, with almost equal ease, and the Machine can be made to run, without changing needle or thread, through all the different thicknesses, from a sheet of paper to heavy leather, and back and forth without dropping a stitch or breaking a thread. We know of no other family machine of equal capacity.
4th. It uses silk, cotton or linen thread from the original spools; unlike most machines, it will permit the seam to be turned at right angles at its highest speed; it takes much more room to sew than any other family machine for passing goods through, thus allowing to pass freely the heaviest garments, bed-quilts, &c., and it will turn up readily upon hinges attached to the stand, tho' this is seldom necessary, as both tensions are regulated from above.
5th. The Machine will do a greater variety of work than can be done by any other stitch. It will HEM, GULF, GATHER, EMBROIDER and CORN, and will do neatly and rapidly every variety of sewing that can be done by a similar stitch upon the highest priced machine. No machine will make and put upon garments the finishing cord as neatly as ours.
Send for a circular containing full particulars, price, testimonials, illustrations of stitch, &c. Machines warranted and full directions given, for using, without charge.
Orders for machines and circulars will receive prompt attention, by addressing

SEWING MACHINES.
THE CELEBRATED FRANKLIN & KEY.
STONE STATE
SEWING MACHINES!!
PRICE \$40 AND UPWARDS.
EVERY MACHINE FULLY WARRANTED!
It is now decided by the best Machinists and the public generally, that these Machines embrace the latest and most important improvements ever attached to Sewing Machines, namely: the new improved and enter-folding longer and reverse wheel. The Franklin and Keystone State are the only Machines that have these important improvements, which now gives them the preference over all others. Every one should examine and thoroughly test them, before making their selection, as they are rapidly taking the place of all others.
In these machines we do away with all the complicated screws, wires, shuttles, crooked and circular needles, or other machines, which render them at once greatly superior to any heretofore offered the public, for the many different kinds of family and manufacturing purposes. These Machines make the double-lock, fast stitch—a stitch that will not rip or ravel, though every fourth one be cut. This stitch is stronger and more elastic than that made by hand. It is decided by competent judges to be more than twice as strong as the stitch made with shuttles and bobbins.
The room under the arm renders them desirable for large work, and various kinds of quilting purposes.
These Machines make the only stitch with which you can outbolder.
On these Machines you can use any kind of spool silk, cotton or linen thread. These Machines are almost noiseless in operation.
Be sure to see them before purchasing, as they are giving a satisfaction heretofore unparalleled. They sew from two spools without rewinding. They will gather, hem, tuck, fell and quilt, on heavy or light fabrics.
A liberal discount to the Clergy, Agents and charitable objects. Send for a circular and sample of work.
We are also agents for Blake & Johnson's adjustable hemmer—the only one that makes the hem on the right side of the work.
Agents wanted in every County, Town and State in the North-west.
Drafts with orders for Machines, may be forwarded by Express or Mail.

FAMILY SEWING MACHINES
IN THE WORLD, WITHIN THE
Reach of all, we have reduced our Letter A, or transverse Shuttle Machine (with Hemmer) beautifully ornamented, to \$50.
THESE LETTER A MACHINES
Contain recent
VALUABLE IMPROVEMENTS.
We would ask for them (before purchasing elsewhere) the special attention of Vest-makers, Dress-makers, and all those who want light machines for manufacturing purposes.
Singer's No. 1 and 2 Standard Shuttle Machines, both of very general application and capacity, and popular in the family and manufactory. Prices reduced, respectively from \$125 and \$150 to \$60 and \$100.
Singer's No. 3 Standard Shuttle Machine for Carriage-makers and heavy leather work.—Price, complete, \$125.
The Singer Machines make the interlocked stitch which is the best stitch known. They are of great speed, easily understood, simple in structure, of great durability, adapted to the heaviest and lightest goods, are finished in the most perfect manner, and may be used for several years without requiring repair.
The Standard Machines for Tailoring, Boot and Shoe-making, Harness-making, Carriage-trimming, etc., will do more work, earn more money, and are cheaper than those of any other maker as a gift.
We have always on hand, Hemming gages, Silk Twist, Linen and Cotton thread on spools, best machine-oil in bottles, &c.

IMPORTANT!!!
WHEELER & WILSON'S
CELEBRATED
SEWING MACHINES,
With new improvements,
AT REDUCED PRICES!!!
These unrivalled machines, that have so long taken the
HIGHEST RANK
AMONG all mechanical inventions, for Sewing, have recently had important improvements introduced, and are now offered at prices to obviate all objection to their universal adoption. They are noiseless, with quiet speed and will hem, fell, gather, quilt and tuck with facility.
They are the original machine which perfected and brought into use the well known
Lock Stitch,
Which will not ravel or rip. They have maintained their high reputation against all chain or knitting stitch, and against all cheap and worthless devices called sewing machines.
They are now placed at prices within the reach of all.

CHILDREN
TEETHING
Mrs. WINSLOW, an experienced nurse and female physician, presents to the attention of mothers, her *Soothing Syrup*, for children teething. Which greatly facilitates the process of teething, by softening the gums, reducing all inflammation, will allay all pain and spasmodic action, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants.—We have put up and sold this article for over 10 years, and can say in confidence and truth of it, what we have never been able to say of any other medicine—never has it failed in a single instance, to effect a cure when timely used. Never did we know of an instance of dissatisfaction by any one who used it. On the contrary all are delighted with its operations, and speak in terms of commendation of its magical effects and medicinal virtues. We speak in this matter what we do know, after ten years experience and pledge our reputation for the fulfillment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be in 15 or 20 minutes after the syrup is administered. This valuable preparation is the prescription of one of the most experienced and skillful nurses in New England, and has been used with never failing success in thousands of cases. It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will also instantly relieve Griping in the bowels and wind colic, and overcome convulsions, which, if not speedily remedied, end in death. We believe it to be the best and surest remedy in the world, in all cases of dysentery and diarrhoea in children, whether it arises from teething, or any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints, do not let your prejudices, nor the prejudices of others, stand between you and your suffering child, and the relief will be yours absolutely sure—to follow the use of this medicine, if timely used. Full directions accompany each bottle. None genuine unless the fac-simile of CURTIS & PERKINS, New York, is on the outside wrapper. Price 25 cents per bottle. Principal Office 15 Center Street, N. Y. City.
