## SPECIAL NOTICES.

Can any Medicine do Morel-The art of changing the hase metals into gold has not seen discovered, but the happy results of a discovery infinitely more important are fami-liar to the community, and have been so for the past twenty years. To exchange debility for vigor, sickness for health, apathy for energy, gloom for cheerfulness, is a much more desirable operation than to transmute lead into the reot of all svil. And that is what Hostetter's Stomach Bitters accomplish, and have been accomplishing daily ever since their introduction. Dyspepsia, biliousness, nervous uffections, constipation, intermittent fevers, rhoumatism, sick headache and general debility are no longer the bug-bears that they were a fifth of a century ago. The Blitters, taken as a protective medicine, prevent them, and taken as a remedy cares them, and the people know it. Hence their overshadowing reputation and enormous sale. The fame of the great vegetable specific is ever on the march, and at a pace that we competitor can live. It is to-day the foremost medicine of its class in the civilized world. Every now and then attempts are made to rival it, and sometimes a nostrum concected in the idle hope of sharing its popularity has a brief spurt of apparent puccess. But it is all filusion. One by one they sink like stones in the sea, while the great tonic, whose celebrity has been the cause of these blind ventures, continues to ride on the topmost wave of public favor, unappreached and unappreachable.
