

THE TRUE NORTHERNER.

Supplement—Paw Paw, Michigan, October 26, 1900.

THE REAL ISSUE COME TO LIFE.

CROKER'S PLAIN TALK

Former Views of the Tammany Leader on Expansion.

When No Election Was Pending He Talked in Favor of Holding What We Have—Said 16 to 1 Was Dead.

When no elections are pending such astute politicians as Richard Croker, the Tammany leader, will sometimes give expression to their real views on public questions. Mr. Croker, under date of January 6, 1899, contributed a signed communication to the New York Journal, Mr. Hearst's New York organ, which, by the way, is saying nothing against expansion in this campaign.

Mr. Croker's views, in part follow:

"I believe in expansion; I believe in holding whatever possessions we have gained by annexation, purchase or war.

"This policy is not only patriotic, but it is the only safe one to pursue. Any other policy would show weakness on the part of the United States, and invite foreign complications. This must be avoided; hence our policy must be vigorous.

"Every patriotic American and every democrat in particular should favor expansion.

"Jefferson was an expansionist, otherwise he would not have favored the acquisition of Louisiana, with its foreign population, which in Jefferson's time was quite as remote as the Philippines. In this age of steam and electricity, distance is no argument against expansion.

"I say by all means hold on to all that rightfully belongs to us. If the great country west of the Rocky mountains was filled with wild Indians at the present moment, how long would it take us to suppress them and make them respect our laws and our constitution? The same thing applies to the Philippines and any other country that may fall into our hands by the provinces of peace or war. It is an insult to the American people and to our flag even to suggest that we abandon the people we have released from bondage, or, what would be more disgraceful, that we sell them to the highest bidder. Such a proposition places the American people in the same category with the Chinese, who have neither patriotism nor a foreign policy, and are in consequence used as a door mat by the powers of the world.

"I think the 16 to 1 question as outlined in the Chicago platform a decidedly dead issue. This was fully demonstrated at the last election. We did not embody the 16 to 1 question in our (state) platform, and the result was that we elected every one of our congressmen."

Mr. Croker is an ultra expansionist and although he is supporting Mr. Bryan for local reasons no doubt, the fact still stays that he considers 16 to 1 a dead issue in New York. He is only too ready to drop it.

BRIGHT'S DISEASE.—High living, intemperance, exposure and many other things bring on Bright's disease. Foley's Kidney cure will prevent Bright's disease and all other kidney or bladder disorders if taken in time. Take nothing else. E. B. Longwell.

Opportunities for Business.

During the past year the Chicago & North-Western Railway Company built 474 miles of new line through the most fertile portions of Iowa and Minnesota. These new lines of railway are now in full operation and are dotted with promising towns, which are trade centers for well located communities. A descriptive pamphlet with a list of the business opportunities in each town may be obtained upon application to agents of the Chicago & North-Western Railway or to W. B. Kniskern, General Passenger and Ticket Agent, Chicago, Ill.

Among the Magazines.

A new magazine of high class has just come out in New York, published by Doubleday, Page & Co. The November number is the first. If the initial number is a criterion by which to judge the future, "The World's Work" will be a distinct and valuable addition to the magazine literature of the day. 25 cents a number, \$3 a year.

More than 95 million copies—to be exact, 95,237,523—of The Ladies' Home Journal have been issued since the magazine was first printed, 17 years ago. December, 1883, was the Journal's birth-month, and the first edition aggregated, all told, 20,000. The magazine was well received at the very start, and from that time on its growth has been phenomenally rapid, the increase never halting, until the circulation has reached 923,000 copies a month. During the past 11 months the increase has averaged 47,000 copies per month over the corresponding interval of last year.

The Curtis Publishing company bought The Saturday Evening Post because it believed that the public which demands its newspaper twice a day, would want a popular literary magazine once a week, provided it adjusted itself to the new conditions and rightly gauged the demand of the twentieth century. And that demand, it felt, would be for a magazine of the best quality that money and brains could make, sold at as low a price as modern machinery and methods could produce. To improve the quality and at the same time lower the price of a publication, two things are necessary—a great circulation and the best machinery that human ingenuity can devise. The first has been achieved, for The Saturday Evening Post has a weekly circulation of a quarter of a million, and new subscriptions are coming in at the rate of a thousand a day. Again, its ten new presses have just been installed in its new eight story building, which, together with its old facilities, give it the largest and most complete periodical plant in the world.

The great Trans-Siberian railway, described by Henry Norman in his series on "Russia of To-day," leads the November number of Scribner's Magazine. This railway is the commercial and political key to the far East and Mr. Norman traveled its entire length so far as completed, to Lake Baikal and beyond. He describes the wonderful industrial possi-

bilities of the country through which he passed and gives an entirely new idea of Siberia. Instead of a desert it promises to be the leading wheat-producing country of the world, and the railway opens up immense mineral possibilities. Mr. Norman says that since the great wall of China the world has seen no one material undertaking of equal magnitude. The cost of this railway will be about \$500,000,000, and its total length 5,486 miles.
