THE late census of Maryville, com-  
pleted the past week, shows that  
growing young city to contain about  
2,600 inhabitants.

PATRICK O'SHEA was hanged in St.

of his wife, committed in that city in  
March, 1874.

BEN WADE says in answer to a so-  
licitation to be a candidate for Gov-  
ernor in Ohio, that he would rather  
beg for old clothes than seek an of-  
fice.

THE national debt was reduced in  
the amount of \$3,681,210 during the  
month of March just past. The debt  
has been reduced in the amount of  
\$9,453,492 since the 30th of last June.

THE return of Mr. John Young  
Brown to his home, at Henderson,  
Ky., was celebrated by the burning  
of Ben Butler in effigy by the sym-  
pathetic youth of that place.

THE largest passenger train ever  
passing over the big muddy at Coun-  
cil Bluffs, says the Nonpareil of the  
7th inst, went west yesterday. There  
were four hundred passengers, and  
three car loads of baggage. The pas-  
sengers were mainly emigrants, the  
average travel west of that class be-  
ing two thousand per week.

THE State Journal, published at  
Jefferson City, contains a tabular  
statement of the apportionment of  
the State School Funds made by the  
State Superintendent of Public  
Schools, March 31, 1875. Andrew  
county is credited with 6,160 school  
children, and is entitled therefore to  
\$1,961.83.

A NEGRO was arrested in Watha-  
na, Kansas, last week for an attempt-  
ed rape on the person of a girl aged  
ten years. He did not succeed in his  
devilish purpose. The father of the  
girl was restrained by his friends  
from shooting the wretch, who was  
committed to jail in default of \$2-  
000 bail. This is the rascal's second  
attempt at this villainy.

WE learn that a delegation of Sioux  
chiefs will shortly visit Washington  
for the purpose of negotiating with  
the government for the transfer of  
the Black Hills, and it is the opinion  
of Gov. Pennington, of Dakota, now  
in Washington, that a treaty for the  
possession of that portion of the  
Sioux reservation will be consum-  
mated within the next thirty days.

MESSRS. Moody and Sanky, the  
two Chicago evangelists who have  
turned Ireland and Scotland upside  
down, are now holding wonderful  
meetings in London. As many as  
20,000 people have attended their  
meetings at one time, while many  
have been turned away, unable to  
gain admittance. Nothing like it has  
been seen since the days of Whitfield  
and Wesley.

MR. AL. DUNNING, of Nodaway,  
met with quite an accident on last  
Sunday. He mounted a spirited horse  
and was engaged in driving out of his  
field a hog. By some means the horse  
fell, throwing Mr. D. to the ground  
and producing a dislocation of the  
shoulder. It was feared that internal  
injuries had resulted; but at last ac-  
counts he was getting along nicely.

DISPATCHES from Rhode Island in-  
dicate that the Republican State  
ticket is elected by a large majority.  
Returns give Hazard (regular Republi-  
can), 8,655, Lippeitt (independent  
Republican), 8,286, and Cutler (Dem-  
ocrat), 5,138 for Governor. Neither  
candidate having a majority, the elec-  
tion of Governor and Lieutenant  
Governor devolves upon the Legis-  
lature. The Republican majority on  
the balance of the State ticket is be-  
tween 11,000 and 12,000.

THE people of Louisiana are very  
much alarmed at the prospect of  
again being drowned out, as they  
were a few years ago. There fell an  
unusual amount of snow in the north  
and west during the past winter,  
enough it is thought to cause not on-  
ly the Mississippi to overflow, but  
the Missouri, also. Indeed it is  
through the latter stream that the  
apprehended flood will come, and the  
danger of a flood in our own State is  
imminent.

# NEW FIRM! NEW GOODS! DANFORD & CHITTENDEN,

Having purchased J. F. Colburn's Hardware Store and re-  
moved it to the N. E. corner of the Square, and purchased  
in St. Louis, a full stock of first class goods, consisting in  
part of STOVES and TINWARE, QUEENWARE, and  
GLASSWARE, WIDOW GLASS, LAMPS, TOOLS, of  
all kinds, Pocket and Table Cutlery, House furnishing goods,  
IRON, STEEL, and WHEELING NAILS, Garden and  
Harvest tools, and in short everything usually kept in a first  
class Hardware Store, we are now offering them as cheap as  
the cheapest, for CASH.

TREASURY DEPARTMENT esti-  
mates place the probable amount of  
silver that will be coined at the United  
States mints during the present  
month, between \$2,000,000 and \$3-  
000,000. When \$19,000,000 of silver  
coin has been accumulated, the ex-  
periment of paying it out in lieu of  
the present fractional currency, as  
provided by the specie resumption  
act passed at the last session of Con-  
gress, is to be tried.

LIFE IN THE OLD LAND YET.—  
Those who think all the spirit has  
been ground out of the Chinese by  
repressive laws and customs would  
do well to note the following from a  
Hong Kong letter:

"An insurrection broke out in Tien  
Tay, near Ning Po, in which 10,000  
farmers were engaged, against an in-  
crease tax on rice. A body of 5,000  
troops failed to subdue the rebellion,  
and the increase tax was removed."

HOW TO MAKE TIMES EASY.—If  
every man in the country, no matter  
what his avocation, would purchase  
what he wants in the country, and  
make it a point to spend his money at  
home, the whole country would soon  
be in a thrifty condition. Not a dollar  
should be allowed to go out of the  
country that could possibly be avoid-  
ed. Purchase of home farmers and  
patronize home merchants and home  
manufacturers. Every dollar thus  
spent is kept in circulation, and ev-  
erybody would feel better. Try it  
and see the result.—Ex.

A MAN became entangled in a fast  
revolving water wheel in a mill at  
Georgetown, Kentucky, and was  
whirled around at the rate of eighty  
revolutions a minute. He was un-  
conscious when rescued, but was not  
badly hurt. He said that his sensa-  
tions while being carried in a circle  
at such a velocity were very peculiar.  
At first he was terribly frightened,  
expecting instant death, but his per-  
ception was perfectly clear. Then he  
grew dizzy, and it seemed to him that  
he was rising higher and higher in the  
air. Next he felt as though in a  
dream, with a dim sense of imagining  
that he was being transported to the  
moon at a terrible speed. That was  
the last he remembered. A calcula-  
tion showed that he had been carried  
an aggregate distance of thirteen  
miles in about eight minutes.

FINE CATTLE.—Judge Downing  
who is noted all over the country for  
raising fine cattle, had a couple of  
young short horn bulls on exhibition  
in town last Monday. The oldest of  
the bulls, aged one year and six  
months, weighed 970 pounds, and the  
other, aged one year and five days,  
weighed 840 pounds. Mr. Gilbert  
Whitcomb purchased the youngest  
bull, and has had the care of it since  
February; he has given it no more at-  
tention than his other cattle have re-  
ceived, but the difference in growth  
and general appearance is astonish-  
ing. If our farmers generally, would  
follow Judge Downing's example, and  
replace their scrub stock with pure  
bloods, the wealth of our country  
would be doubled in a few years.—  
Maysville Register.

There is real satisfaction in know-  
ing that Missouri felons of every hue  
and type, are not to be distributed  
over the State for the purpose of hav-  
ing their muscle put in competition  
with that of honest, law abiding citi-  
zens, who have to work for a living.  
On the contrary, they are to be kept  
within prison walls, under constant  
surveillance, and compelled, we hope,  
to remember that they are deprived  
of freedom on account of their  
crimes. We do not favor cruelty; we  
would neither starve nor freeze a  
convict; we would not compel him to  
work when sick; nor would we im-  
pose tasks that he could not perform.  
But we would confront him every  
hour of his prison life with the fact  
that it means punishment for crime.

A considerable trade is being car-  
ried on between Australia and San  
Francisco in kangaroo skins. At the  
latter place they are much in vogue,  
and when tanned are said to produce  
a thin, supple leather, softer than calf-  
skin and more impervious to water.

er & Greenlee in another column.

A BOTTLE FULL OF JUVENILE  
GRASSHOPPERS.—During the week,  
our fellow-townsmen, A. H. Gilkeson,  
exhibited to us a bottle full of juve-  
nile grasshoppers that had been hatch-  
ed by putting the eggs in a bottle and  
keeping them four or five days in a  
warm room. Remembering that in a  
certain place in his garden the ground  
was completely permeated by them  
last fall when they were depositing  
their eggs, he visited that place a few  
days since for the purpose of ascer-  
taining if any eggs could be found,  
and on digging in the ground with  
his pocket knife he found them there,  
safe and sound in great quantities.  
He took a handful of these eggs to  
his house and put them into a bottle  
as above stated, and in a few days, to  
his utter astonishment, found there  
were "millions in it." This proves  
clearly that the severity of the win-  
ter has not hurt them, and as soon as  
the settled warm weather comes, the  
ground will be literally covered with  
a new crop of these abominable pests.  
As to what they will do when they  
come, remains to be seen.—Warrens-  
burg Democrat.

## Father De Smet and the Black Hills.

St. Louis, April 7, 1875.

To the Editor of the Globe:  
In the years 1833 or 1834 I was a  
clerk in the employment of C. D. Sulli-  
van & Co., jewelers, opposite the Plan-  
ter's House, St. Louis. Father De Smet  
was then on a visit to the city, and called  
at the store on business. In conver-  
sation with him, he told me of the great  
quantities of gold yet undiscovered, and  
that he told the Indians never to tell  
about it, and that he never would tell  
where it was as long as it was their  
abode; for, said he, if it was discovered,  
it would be the last of the poor Indian.  
Father De Smet told me then in private  
in what quantities it could be found, that  
he saw and handled it, and I believe he  
would not tell a falsehood. From what  
he told me, I think the locality where  
the heaviest deposits are has not yet  
been reached. Father De Smet under-  
stood chemistry too well to take mica  
for gold.

## A Successful Hunt—561 Mallards Bagged in 5 Days.

Last evening George Storrs, John L.  
Brown, W. C. Colburn, John and Sam  
Harrison and J. J. Kirkland, returned  
on the steamer Rock Island, from the vi-  
cinity of Munday's Landing, about 20  
miles below this city, from a grand duck  
hunt, and brought with them about  
three wagon loads of ducks, aggregat-  
ing altogether 561, almost exclusively  
mallards, there being a few sprigalls  
and spoon-bills, not over a dozen all  
told. The party also had six geese.

The score is as follows:

J. J. Brown,	154
G. W. Storrs,	138
W. C. Colburn,	75
Sam Harrison,	68
J. J. Kirkland,	68
Geo. M. Harrison,	58

Total, - - - - - 561

Mr. W. C. Colburn, of Detroit, killed  
three of the geese.

The largest number killed on any one  
day was last Tuesday, when 159 were  
bagged; then followed Wednesday with  
129 and Thursday with 117.

The party left here last Monday and  
did not do any shooting until Tuesday,  
making three days shooting. This is  
probably the largest pile of game ever  
brought to Hannibal by any party of  
hunters, and indicates fine shooting and  
hard work.—Hannibal Courier.

## Manhood: How Lost, How Restored!

Just published, a new edition of  
**Dr. Culverwell's Celebrated Es-  
say on the radical cure (without  
medicine) of SPERMATORRHOEA or  
Seminal Weakness, Involuntary Seminal Losses,  
Impotency, Mental and Physical Incapacity,  
Impediments to Marriage, etc.; also CONSUM-  
TION, EMIPSEY and FITS, induced by self-in-  
dulgence or sexual extravagance, &c.**  
Price, in a sealed envelope, only six cents.  
The celebrated author, in this admirable Es-  
say, clearly demonstrates, from a thirty years'  
successful practice, that the alarming con-  
sequences of self-abuse may be radically cured  
without the dangerous use of internal medicine  
or the application of the knife; pointing out a  
mode of cure at once simple, certain, and effec-  
tual, by means of which every sufferer, no mat-  
ter what his condition may be, may cure himself  
cheaply, privately, and radically.  
This Lecture should be in the hands of  
every youth and every man in the land.  
Sent under seal, in a plain envelope, to any  
address, post-paid, on receipt of six cents or  
two post stamps.
