Why

build up
the other man's
community
before
building up
your own.....?

It takes capital
to build up a community,
to carry on
its various industries.
The more money
the larger the industries
and the bigger
you can build.
A good way
to better your community
is to patronize
home industries.
Keep your money
at home,
and it will work
for the betterment
of the people there.
We respectfully

The writer notices that the Pleasant
Hill correspondent is boosting the corn
patch. That is what we like to hear.
We know our stock can't eat cotton.
If nothing happens to the corn between
now and gathering time I will have
close to 300 bushels of corn of my
own. We will gather between 600 and
700 bushels on the place. We have in
about three acres of peas, from which
we are now picking ripe peas; later
we will cut the vines for hay. We
have another patch of peas and sor-
ghum which will come on in about
four or five weeks, and still another
very late patch. I have velvet beans
and peas in most all of my corn. Also,
a big patch of sorghum just beginning
to head. I have my orchard planted
in peas, sorghum, goobers, corn and
sweet potatoes, for a hog pasture. We
have a large patch of sweet potatoes;
and about a three-acre patch of go-
obers, which we will pull for feed. I
have no cotton, but there is about 25
acres planted on the place—10 acres of
it Big Boll Round, which has a weed
as high as a man's head, but will do
well to get seed back. When will the
farmers learn to quit planting cotton?
Let's ship corn out instead of having
it shipped in. —FRECKLES.

delighted when the other story we have
the promise of begins in the Banner.

There was quite a bit of excitement
in our community this afternoon, when
Mr. Camm's house caught fire. The
members of the family were all busy—
some in the field and others around the
house, though no one had discovered
the fire. Mr. Shelby, in driving by
going home from town, first saw the
fire and gave the alarm. They soon
subdued the flames, and with but little
damage to the building, though the ex-
perience was a great excitement for
Mrs. Camm and little Miss Vole.

"Bad" colds are making the rounds
in this community. Almost every one
you see is sneezing. Guess it's this
pleasant change from sultry to cooler
weather. We all enjoy the weather,

Our Watermelon Friend.

Once each season Friend Morrow
(uh-huh, "Mister Munch") drives
around and presents us with a fine
watermelon. He grows delicious ones,
not going in so much for size as for
quality. Monday he guided faithful old
Star this way and stopped by long
enough to hand us one of his 30-pound
products, wearing a deep green jacket
with darker green stripes along its
sides. The next day, following a long
stand in cold water, we jabbed a case
knife into it and it fairly popped open.
It was a fine melon, sir, and you have
our thanks.

It may be said that Mr. Morrow is
no novice at growing fine watermelons
and cantaloupes, and right now has
coning on young vines of both, looking
as flourishing as you please. This
season he planted May 9th, June 9th
and July 7th, so he will have melons
for sale throughout the summer. Next
season he says he expects to make his
first planting during April and will also
perhaps plant the following three
months. We rather suspect if he was
but twenty-one years old and had his
present knowledge of melon culture he
might grow rich out of them, if so dis-
posed, before he was forty-five.

Pleasant Hill Wins First Place.

It was early last March that we re-
solved to keep something of a closer
tab on the Banner's correspondents—
by filing all envelopes as they came
back to the office. To be exact, we
saved the envelopes that brought in
the reports for the issue of March
10th, and have saved all that have
since come in. That's twenty-one
weeks, and we find that during that
time (not including the many news-
letters that have come to us from
Plain Dealing and Bossier City) we
have handled a total of 330 reports
from country correspondents. That
isn't a poor showing.

The Banner has a number of excep-
tionally faithful correspondents, and
many good ones. We will not attempt
to say who is best, or who is most
faithful. During the twenty-one weeks
our Pleasant Hill correspondent has
sent in 21 reports, thus scoring a 100
per cent record. The Brushy cor-
respondent takes second place, having
sent in 20 reports, and the Phillips
Hill and Oak Grove correspondent tie,
with 19 letters to the credit of each.
The Rocky Mount and Cotton Valley,
Route One, correspondents are each in
the 18 class; Arkana, 17; Kingswood,
16; Oak Hill and Red Land, 15 each;
Mot, 14; Plain Dealing, Route One,
13; Alden Bridge, 12, and Collinsburg,
Miller's Bluff and Shiloh, 11 each.
Those not mentioned sent in from nine
letters or down to one.

Some of the Banner's correspondents
who are right along making perfect
scores at present have not yet rep-
resented the paper so long as twenty-one
weeks—those at Alden Bridge, Collins-
burg and Concord, for instance. We
fancy that by the close of the year,
when we again intend to count envel-
opes, they will be heard from.

None of the Banner's correspondents
knew this count of their envelopes was
to follow, so it is as fair to one as the
other, and they all now have an even
break, for we have already made men-
tion of the count to follow at the close
of the year.

We certainly thank our Pleasant
Hill correspondent, and all the other
high-markers, and all the others for
what they are doing for us. There are
other good weekly newspapers with
good lists of correspondents, but we'll
gladly back the Banner's list against
anybody else's anywhere.

Very Strange.

An absent-minded man went into a
store to buy a jar. He saw one that
was turned upside down and cried:

"How absurd! The jar has no
mouth."

"Turning it over, he was
