A REPUBLICAN APPEAL.

(Continued from page one.)

policy will be repudiated by the people.

"The time has come when Louisiana must assist in this fight or let our industries perish. We can no longer sit back and watch the fight at a safe distance with the assurance that the north and east will protect us. The north and east have, largely, gone Democratic. Now is the time for Democrats to come in to the Republican party. William J. Bryan, three times the Democratic candidate for president of the United States, said in the Omaha World-Herald in 1896:

"The individual member of a party at all times reserves the right to vote against a nominee of a party and to abandon his party entirely whenever in his judgment his duty to his country requires."

"If abandonment of party is ever justifiable the voter must determine for himself when the time for abandonment arrives. When should he decide? The proper time, if not the only time, is after the party has adopted its platform and named its candidates."

"This must not be interpreted as an appeal in behalf of officeholders. The smaller the party, the more secure the officeholders; the larger the party, the greater the competition for the offices. It is an appeal to the business sense of those engaged in the protected industries of Louisiana."

"Unless you save the Republican party you cannot vote for Taft and protection nor against Underwood and free trade."

NO CAUSE TO DOUBT.

A Statement of Facts Backed by a Strong Guarantee.

We guarantee immediate and positive relief to all sufferers from constipation. In every case where our remedy fails to do this we will return the money paid us for it. That's a frank statement of facts, and we want you to substantiate them at our risk.

Recall Orderlies are eaten just like candy, are particularly prompt and agreeable in action, may be taken at any time, day or night do not cause diarrhoea, nausea, griping, excessive looseness, or other undesirable effects. They have a very mild but positive action upon the organs with which they come in contact, apparently acting as a regulative tonic upon the related muscular coat of the bowel, thus overcoming weakness, and aiding to restore the bowels to more vigorous and healthy activity.

Recall Orderlies are unsurpassable and ideal for the use of children, old folks and delicate persons. We cannot too highly recommend them to all sufferers from any form of constipation and its attendant evils. That's why we back our faith in them with our promise of money back if they do not give entire satisfaction. Three sizes: 12 tablets, 10 cents; 20 tablets, 25 cents; and 30 tablets, 50 cents. Remember, you can obtain Recall Remedies in Donaldsonville only at our store—The Recall Store, X-Ray Pharmacy, Edmond Richard, proprietor.

Church Notice.

Methodist Episcopal Church, South, corner Railroad avenue and Opelousas street, Rev. C. M. Thompson, pastor. Services on the second and fourth Sundays of each month at 11 o'clock a. m. and 5 p. m. Sunday School every Sunday at 9:45 a. m. Seats are free and the public is cordially invited to attend.

A SPLENDID SUCCESS.

(Continued from page one.)

grandmother was a common native cow, and the animal was born and raised in East Baton Rouge parish. On the male side, the animal used, all along the line, was the pure-bred Hereford. The steer in question is just over three years old and weighs about 1400 pounds. In contrast to this fine animal is a common native scrub steer of the same age. But instead of weighing 1400 pounds he weighs only 750 pounds.

Query: What is the use of wasting feed on a common scrub steer that will give you only 750 pounds, at three years old, when, by a little careful selection and grading, and of course feeding, you can get an animal weighing 1400 pounds at the same age, and with possibly a less amount of feed? Which is the better business proposition?

Hogs.

There are some breed of hogs on the train that many of our people have never seen nor heard of.

How about the large Yorkshire breed? These are very fine animals, and those on the train are good specimens. They are white in color, and are more or less of a large size, type, but attain to a very large size. The color may be objectionable, in the opinion of some people, on account of mange and other skin troubles, but the dipping vat used to kill ticks on cattle will keep the skin of the white hog free from these troubles and in good shape.

The Berkshire and the Poland-China are also to be seen, and are fine specimens. But there is the Hampshire breed, which is new to a great many of our people. This is a black hog, with a broad band of white around the body, including the shoulders. The breed is becoming quite popular in the south; attains a good size, and favors the bacon type.

The Duroc-Jersey is also there, and is a fair representative of this increasingly popular breed of hogs.

But, among the exhibit of hogs, the most impressive sight is a razor-back sow with her half Poland-China pig, which, at six months of age, weighed as much as its mother did when she was eighteen months old. This lesson shows the importance of good blood in grading up our native hogs.

Why waste feed on the scrub, when a little good blood on the male side will increase the size and quality of our hogs over 50 per cent? It is poor business.

The hog exhibit on the train is worth taking half a day off to see.

Corn.

The corn exhibit is a revelation. Just think of it—many farmers visiting the train would not believe it was raised in Louisiana.

"My," said one farmer, "if we could only raise corn like that in Louisiana it would mean something." He was fairly dumbfounded when informed that every ear on the train was raised right here in his own state. As has already been said, the train is showing to Louisianians what Louisiana really can do along agricultural lines. And many of us, yes, the majority, have not yet the faintest idea of what our soils are capable of yielding if only given a fair chance.

And so it is with many other crops which are to be seen on the train.

Other Things.

But, although of prime importance to successful farming, animals and crops are not the only things to be seen on the train.

Education has its exhibit, and without the education of our youth to be able to take advantage of all our wonderful possibilities, the demonstration train would be sadly lacking in its completeness. The State Board of Education is well represented, and has models of country schools and a host of other things that appeal to the visitors who realize the paramount importance of "bonding the willow while it's green" to the principles of an education which will develop the future successful citizenry of the state.

Domestic Science.

One of the most attractive demonstrations on the train, especially to the lady and girl visitors, is the canning plant, which is operated "while you wait." Just think of it: To be able to put up your fruit and vegetables for future table use by means of a simple little canning device which can be operated with the greatest ease. Everybody should see the canning plant at work. It may mean a great saving to the housewife who has plenty of fruits and vegetables to preserve for family use.

The Experiment Station Car.

The experiment station car is replete with almost everything that concerns the well being of the farmer—the live stock above described being a part of the station exhibit. And, lest we forget, visitors should not fail to ask questions about everything they see on the train. The train is a demonstration, not a show; and it is the purpose of those in charge of the various exhibits to afford all the information they can to those who seek it. In other words, the sole purpose of this demonstration train is education—not amusement.

Farm Machinery.

Farming cannot be made successful nowadays without the use of improved implements and labor-saving devices. Many of these are on exhibition, and are operated for the benefit of the visitors.

Live Stock Sanitary Board Exhibit.

The improvement of our live stock and the protection of them from the fatal and infectious diseases to which they are susceptible, are at the very

foundation of our agricultural prosperity.

In the case of our cattle improvement it means the eradication of the cattle tick; with our hog stock, it means their protection from hog cholera, both of which are under the supervision of our State Live Stock Sanitary Board.

If you want to know about hog cholera and the protective serum, you must not fail to see the board's exhibit on the train and obtain all the information you can about it.

Further, you should see the complete model of a dipping vat for tick cattle, and inquire all about how to construct one, and the essential solution which is used for killing the ticks and other forms of vermin on live stock. Cards will be found on the train for the asking which will afford all the information necessary, and will give you an idea of what the Live Stock Sanitary Board means to you.

A QUESTION TO FATHERS AND MOTHERS.

What is your son or daughter going to do when school closes?

You will admit they have no time to lose, no time to spend in idleness. Had you thought of what a great advantage it would be to them to place them in a school where they could receive a practical training to be used in everyday life, and where they could be surrounded by hundreds of bright, energetic, growing young men and women—young men and women who are working earnestly and faithfully, in order that they may qualify themselves in the shortest possible time to go out and succeed in the business world? We have now over 600 enrolled in daily attendance. New students are enrolling daily; others are graduating daily and are being placed in good positions through our employment department.

A thorough course of bookkeeping, business training, shorthand, and typewriting or telegraphy in our institution is one of the best estates you can give your child; it is a practical knowledge for which the business world pays cash.

If you haven't cash to pay for the course in full, write for our credit plan, which enables you to pay out of salary earned after course is completed. Write for our large illustrated catalog containing endorsements from hundreds of former students and their employers. Address: Tyler Commercial College, Tyler, Texas.

Good Roads Conference.

A good roads conference will be held in New Orleans April 9, in the auditorium of the Progressive Union. The automobile dealers are behind the movement, and they have planned an effective campaign for the purpose of developing the spirit of good roads, the idea being to bring about co-operation among all the counties and parishes, particularly in Mississippi and Louisiana, in opening up new roads and improving old ones in such a way as to give access to and from every section of these two states.

The speakers at the conference include Governor J. Y. Sanders of Louisiana; Mayor Martin Behrman of New Orleans; George H. Maxwell, the man who is leading the great national drainage movement; Chief State Engineer F. M. Kerr of Louisiana; John A. Kruse of Chicago, an engineer of national reputation; Gervais Lombard, Louisiana state highway commissioner, and President J. S. West of the Hammond Progressive Union, who will tell about the King split-log drag.

A MEDICINE AS GOOD AS YOUR MONEY.

Money Promptly Refunded if Dodson's Liver-Tone Fails to Take Place of Calomel.

The X-Ray Pharmacy sells Dodson's Liver-Tone as a perfect substitute for calomel. If you try one bottle and find that it is not just as sure in its action as calomel and at the same time gentler and without the bad after-effects of calomel, please call and get your money back. It will be given you promptly. Dodson's Liver-Tone is a vegetable liquid with a pleasant taste, that lives up to the liver, mildly but surely, instead of whipping it into action as the strong chemical calomel does. It is used by both children and grown-ups for constipation and inactive liver.

That is why the X-Ray Pharmacy is willing to guarantee it absolutely, not with another bottle, but with your money back. Isn't a medicine with a guarantee like this worth a trial?

A Bumper Cotton Crop.

According to the compilation of the census bureau at Washington the cotton crop of the United States for the year 1911 was equivalent to over 16,205,000 bales, which exceeds the former record crop of 1904 by more than 2,625,000 bales. That such a result should have been achieved despite the ravages of the boll weevil seems almost beyond comprehension and sets the imagination to wondering how much cotton this country is capable of producing in a year when no destructive agencies are in operation to curtail the output.

A new line of ladies' spring and summer hats and dress goods, including gingham, poplin, voile and other stylish materials, has just been received at Cheap Tony's.

The "buy at home" argument applies to all branches of industry in a community, without exception. Give us a chance to figure on your printing before sending away for it.

Buying at Home.

The advice to the people of a community to buy of the home merchant has been repeated for time immemorial by the local papers, and the home merchants as a matter of course expect the papers to take this stand in their favor. But there is an essential item that the home merchant often—very often—forgets, which will be found in the following from the Franklin Watchman:

"It is evident that a great amount of cash is sent from here to other places for the purchase of goods that could be furnished by the home merchant at such a small difference in price that it is not worth measuring."

"Every Monday morning exchange checks from the banks and money orders that go through the postoffice tell the sad story that money is sent away that should go to the home business man in the purchase of articles that are kept on sale every day."

"The local merchant extends credit to his customers when dollars and cents grow scarce, and for this reason he should be given the trade instead of sending to mail order houses."

"We have preached this doctrine for years, and have done all the quarring with the people, with little if any assistance from those most interested."

"Franklin has two newspapers. Both of them have labored long and loud to advance every local interest, uphold the home merchant and the quality of his wares, together with the low prices he demanded, but look through their business columns and see how few among the number advertise their articles and thereby extend an invitation to the purchasing public to visit their places."

"The lady folk constitute the main buyers in all towns. The men buy tobacco, toddies, and poker chips, and their wives and daughters purchase the groceries, clothing, laces and linens, furniture, etc., and they buy these things from advertisements in newspapers and catalogues. Their house duties do not afford the opportunity to go all over town and peep through the windows to find out what is offered for sale, and the merchant who uses this single plan is the loser, and will be until the end of time."

"These are the days of quick action. Every hour must count for something, and those who spend the money cannot use a great portion of their time promenade through the business district, hunting for things they should know about in their own homes."

"We have worked for the buy-at-home doctrine during the past several years, but one medium-weight draft horse cannot pull the load which requires a full team of business perchons to move."

"Those interested must get in the pulling game, or there might be nothing left to pull."

When quality and price are the considerations, we believe it is to your interest to let us figure on your printing.

AMENDMENT TO CHARTER

—of the—

St. Elmo Canning Company, Inc.

United States of America—State of Louisiana—Parish of Orleans—City of New Orleans.

BE IT KNOWN, that on this, the 16th day of the month of March, in the year of Our Lord one thousand nine hundred and twelve, and of the independence of the United States of America, the one hundred and thirty-sixth, before me, ALEXIS BRIAN, a notary public duly commissioned and qualified within and for the parish of Orleans, state of Louisiana, therein residing, and in the presence of the witnesses hereinafter named and undersigned:

Personally came and appeared Messrs. E. P. Brady and Benjamin Claassen, Jr., residents of the parish of Jefferson, city of New Orleans, respectively, of full age, herein appearing and acting in their capacities as chairman and secretary, respectively, of the ST. ELMO CANNING COMPANY, INC., a Louisiana corporation domiciled in Donaldsonville, parish of Ascension, state of Louisiana, organized originally by act before the undersigned notary on December 12, 1911, and pursuant to a resolution passed at a stockholders' meeting hereinafter mentioned, certified copy of the minutes of which meeting are hereto annexed as part hereof;

Who declared that at a general meeting of the stockholders of said corporation held on the 24th day of February, 1912, which had been convened for the especial purpose in accordance with law, and with the charter of said corporation was adopted by a majority of vote of the stockholders of the stock of said corporation, to-wit:

"ARTICLE IV.

The capital stock of this corporation is hereby fixed at the sum of Thirty-eight Thousand (\$38,000) Dollars, divided into and represented by thirty-eight thousand shares of the par value of one dollar (\$1.00) each, to be paid for in money or property paid or made over to the corporation. The capital stock of this corporation may be increased or decreased by proceedings taken in the manner prescribed by law. All of said stock shall be full paid and non-assessable, and transfers thereof shall not be binding on the company, unless recorded on its books. The corporation may begin business as soon as eight thousand (\$8,000) dollars of its capital stock is subscribed."

The whole as will more fully appear by the annexed certified copy

of the minutes of said stockholders' meeting.

And the said appearers having requested me, notary, to put the said amendment in authentic form, I do by these presents receive and amend in the form of this public act, to the end that said amendment may be published and recorded and thus be read into the original charter passed before the undersigned notary on December 12, 1911.

Thus done and passed in my office at the city of New Orleans on the day and date herein first above written, in the presence of E. L. Szabary and G. W. Schwitzer, competent witnesses, who hereunto sign the names with said appearers and me, notary, after due reading of the whole.
