UNCERTAIN ABOUT THE FIGHT. Govenor Mitchell of Florida Keeping

the Sports in Doubt. A Jacksonville special of Saturday ays: The prize fight situation remains practically unchanged. No fresh deliverance has come from Gov-ernor Mitchell, but his alleged accusation that the Duval countiy authorities were in collusion with the promoters of the contest, has been a fruitful theme for discussion in judicial and sporting circles. Of course, the judicial au-thorities deny that they are in callu-sion with the Duval Athletic Club in its efforts to pull off the contest, and they are jumping on the govenor for what they call his wanton attack on the judiciary. The governor's statement that he will regard no decision as to the law in reference to prize fights, save that of the supreme court has also caused much bitter comment from the officials of the lower courts. Ably defended as the assassin is been; strong as has the evidence aciduced to save his neck from the halter, the jury has found him sane-responsible for his act and demanded that he pay the highest price for his offense against the law. This price, however, is a sorry one at the best. The value to the world of one life, such as that of Carter H. Harrison, would weigh down the scales against the existence of a hundred such as Prendergust.

When Clerk Fitzgerald arose to read the finding of the jury the prisoner stood clutching the back of a chair, eyeing him with the most intense engerness, his long fingers nervously clasping the chair, his knees trembled violently, his face was flushed and his spiteful-looking month opened and closed as though he would say something, but lacked the power to speak.

"We, the jury, find the defendant, Patrick Eugene John Prendergast, guilty of murder, in manner and form as charged in the indictment, and fix the penalty at death."

Fitzgerald's voice, clear and calm, read out the finding and died away with a slight emphasis on the final Then Prendergust revealed himself the utter coward. His face turned pale; he opened his mouth to speak, but only a faint marmur came from between his hot and quivering He moved slightly and would have fallen to the floor but for the assistance of a baliff.
