

CROPS AND WEATHER.

The past week has been characterized by extreme heat and no rain with the exception of a sprinkle on Friday, which had the effect, however of relieving the heat and making Friday night comparatively comfortable. The weather is very beneficial to the cotton, which has suffered greatly from excessive rain and was in a very grassy condition at the beginning of the week. Injury to the cotton crop from excessive rain has been severe, in some retarding growth and in others retarding development of the plant at the expense of fruit. Shedding has been observed, notwithstanding the earliness of the season.

The remarkable musical talent of Miss Pollock has long been a source of constant delight to her friends, and has recently won recognition from the highest musical authorities, in the acceptance and publication of her work by such houses as Gardner, Oliver Ditson & Co., and Graebner. These houses publish no music except such as is of a very high grade, and which has received the approval of the most thorough musical critics. The acceptance of work by these publishers is a distinguished honor and one rarely conferred except upon well known and successful music writers. The songs composed by Miss Pollock possess a peculiar quality, entirely removed from the ordinary character of popular music, and showing the effect of her thorough classical education, as well as strong individuality and natural gifts.

Saved Again.

The execution of John Gibson, fixed for the 17th, was again postponed, this time once after the scaffold was erected. A telegram from Governor Stone saved his life until the court may consider the question involved in the appeal, viz: That no negroes sit upon the grand or petty jury which indicted and convicted the prisoner. The case of Gibson is already one of the most celebrated that has ever come up in the county, and to a man of less obtuse feeling the life of suspense which he has led during his numerous trials and sentences would be insupportable.

The meeting was composed of leading men in the various lines of professional and business life of the city, and upon motion of Mr. E. N. Thomas, Hon. Leroy Percy was called upon to preside. Upon motion of Mr. W. A. Everman, Mr. Harry W. Ball was elected secretary. Mr. Pohl gracefully waived his time honored privilege. Thomas (who with drew in favor of Mr. Larkin) G. B. Alexander and W. B. Cannon. Mr. Vaughn took the chair while the committee retired to select delegates. Marvelous Results.

From a letter written by Rev. J. G. Underman, of Dimondale, Mich.: "We are permitted to make this extract: I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at Rives Junction she was brought down with Pneumonia succeeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at Clark's Drug Store. Regular size 50c. and \$1.00.
