The Chastly Record

of deaths that result from malaria is frightful. There is no disease that is so insidious in its attack. Its approach is stealthy and it permeates every fibre of the body, and remedies, which if applied at the outset, by delay lose their power. Dr. Tutt's Liver Pills have proven the most valuable malarial antidote ever discovered. A noted clergyman of New York pronounces them "the greatest blessing of the nineteenth century," and says: "in these days of defective plumbing and sewer gas, no family should be without them." They are pleasant to take, being covered with a vanilla sugar coating.

Clarksville, Tenn.

CLARKSVILLE, TENN., May 7.—Our receipts in April were 3,746 hogsheads; sales, 2,921 hogsheads; stocks May 1st, 17,071 hogsheads. Our receipts to date are 16,616 hogsheads, against same time in 1889 of 11,651 hogsheads. Our sales for the week ending today were 920 hogsheads. The quality was, perhaps, a fair representation of the crop; the order of the off-rings is slowly improving. The market was active and strong on all useful grades of leaf and lugs in fair order, closing rather stronger, and higher prices are predicted later on, regardless of planting prospects, and speculators are confident and cheerful. The weather has been favorable for the plant beds, and complaints about them have ceased.

FINANCE AND COMMERCE

New York Stock Market.

Reported by C. W. Branch & Co., bankers and brokers, No. 1111 Main street.

NEW YORK, May 9.—The change in the last hour yesterday from a weak to a very strong market puzzled the people until today, when it became known that Gould's Missouri Pacific yesterday evening decided to issue 7,000,000 collateral trust bonds at 90, with a bonus of 7,000 shares of stock to pay for the floating debt. Then it was seen that the Gould party had been good buyers of stocks, and to-day the Gould stocks led the list, with Omaha, Richmond Terminal, Reading, and Delaware, Lackawanna and Western close behind. The whole market was strong and active, and the street firmly believes that the Gould party has been added to the list of aggressive bulls. There was good news from Washington, that the Senate Republicans agreed upon a silver bill, making certificates legal tender, and redeemable in coin. Out West there appears to be no change in the situation, but people here are confident that the market alone will force a settlement. In thoroughly healthy market trust stocks must score great advances, but it is dangerous when they monopolize attention. The bank statement to-morrow is apt to be bad, as the subtreasury took from the banks this week $5,500,000. There are no signs that the bull movement is over, and the street, as a whole, is confident of another booming market next week.

Grain and Cotton Exchange.

RICHMOND, VA., May 9, 1890.

OFFERINGS.

Wheat—118 bushels.
Corn—1,000 bushels.
Oats—1,500 bushels.
Rye—200 bushels.

SALES REPORTED TO SECRETARY.

Wheat—White, 32 bushels prime at at $1. Mixed, 30 bushels very good at $1. Shortberry, 10 bushels very good at 98c.; 30 bushels very good at 95c. Total sales of wheat, 118 bushels.

Corn—White, 600 bushels prime on private terms.

COTTON REPORT.

Market firm.

Quotations.—Middling, 11c.; low middling, 10¾c.; good ordinary, 10c.

Chicago Market.

Messrs. Baldwin and Farnum telegraph to Thomas Branch & Co., as follows:

CHICAGO, May 9.—Wheat—All through the early part of the session July hung around 98c., above and then below, tailers and ninth-hour bulls talking dollar and buying. Bull news was freely distributed by big local operator, and for once there was for sale all that any body wanted, and the loss made by those who bought early in their effort to sell out toward the close, shows plainly that this price is a little bit dangerous for buyers. It does seem as though all the effect of the government report, whatever it may be, had been discounted, and the day is not far off, if we have not already seen it, to sell at 90c. is a good, liberal price. Of course, if we do not raise more than five-eighths of a crop it is worth the present price, but a good many times their early reports of damages proved to be overstrained. Receipts, 471,000 bushels; shipments, 464,000 bushels; exports, 62,000 bushels of wheat; 14,081 packages of flour. Liverpool strong and active and 5d. higher. Corn was weak the entire day. We still believe it will sell lower before much further advance. Those who have sold out we advise to take it back on weak places. Cash was for the first time below May, and all the shippers and receivers were in market selling against their purchases for May option. This is no bull argument. Receipts, 794,000 bushels; shipments, 791,000 bushels; exports, 251,000 bushels. Liverpool market firm and ½d. to ¾d. higher. Oats—Early this morning shorts in May, in their anxiety to cover, bid the price up 2c. above yesterday's close, but after that they were tame and easier. Manipulation is accountable for the present price, helped, of course, by good cash demand. Provisions weak from opening to close. They look lower for a while. They have been strong only in sympathy with wheat, and should break. We look for a lower market. The best element are selling. We say sell on strong places, and should we get a reasonably weak spot take in some ribs and lard. Receipts to-morrow, 25,000 hogsheads. Cash trade dull.

New York Cotton Market.

[By Telegraph.]

NEW YORK, May 9.—Messrs. Hubbard, Price & Co. in their cotton circular to-night, say: "The London market to-day was favorable, and prices were advanced to 17 for silver, resulting in a sympathetic advance in cotton futures in Liverpool, which closed firm at 3 points over last night's prices. Spot sales, however, were small, only 7,000 bales, and it is evident that the better feeling is yet entirely speculative. In this market, an advanced some 3 to 4 points has been established in sympathy with the improvement in Liverpool. The tenders in Liverpool to-day are reported to be 13,000 bales, making over 77,000 bales thus far delivered upon May contracts. The interior receipts closely approximate last year's movement for the week, but the port movement to-day is very light."

Receipts at our ports estimated at 1,000 bales, against 1,152 bales last week. The spot market is easy at 1-16 cent advance in prices. Midland uplands, 12c.; sales, 187 bales. Transactions in futures, 32,000 bales. Futures closed as follows: May, 11.35@11.36; June, 11.35@11.36; July, 11.37@11.38; August, 11.35@11.36; September, 11.37@11.38; October, 10.86@10.87; November, 10.67@10.68; December, 10.65@10.66; January, 10.67@10.68; February, 10.72@10.73.

In Liverpool spot cotton steady. Midland uplands, 6 7-16d; Sales, 7,000 bales.

BANKERS AND BROKERS.

$150,000 CITY OF PORTSMOUTH, VA., 5 PER CENT. 30-YEAR BONDS, DATED JANUARY 1ST, 1890. INTEREST PAYABLE JANUARY AND JULY.

We control and offer for sale, at par and accrued interest, and recommend to investors, the above described bonds, reserving the right (which will very probably be exercised) to advance the price at any time without notice.

Portsmouth is a conservative and growing city, with a population of 12,000, most advantageously situated on Norfolk Harbor, opposite the city of Norfolk, Va.

It may now be considered practically the outlet and ocean terminus of three great railroad systems, to-wit: The Seaboard Air Line, the Atlantic Coast Line, and the Richmond and Danville, the two latter systems reaching the ocean over the Norfolk and Carolina Railroad (completed March, 1890), which they jointly own, extending from Tarboro, N. C., to Portsmouth, a distance of about 100 miles.

Besides these roads, a great addition was made to the railroad facilities of the port by the opening in February, 1890, of the Atlantic and Danville Railroad from Portsmouth to Danville, which road is now being extended under the charter of another company into the rapidly developing mineral region of southwest Virginia.

We take the following extracts from a letter just received from Mr. James H. Toomer, the chairman of the Finance Committee of the Common Council of Portsmouth, who, in her date of April 28th, 1890, writes us officially as follows:

* * * "The opening of the Atlantic and Danville Railroad has already done much for the city, and we are hoping for an increase of business in all lines. * * * Portsmouth has never repudiated any of her debts, and to-day there is no claim of any kind against the same and unpaid."

The assessed valuation of taxable property for 1889 was about $4,000,000. The true valuation for that year was conservatively estimated at $6,000,000. Since the close of the year, new and important railroad lines have been opened and other advances in the growth and prosperity of the city have taken place.

The assessment now being made should show a very material increase in values of all kinds.

The city tax rate of Portsmouth is $1.80, the same as that of Norfolk.

The total bonded debt, including this issue of bonds, is $501,300, or about $45 per capita, the per capita debt of Norfolk, for whose 5 per cent. bonds 108 has been bid, is $82. The bonded debt per capita of Danville, Va., a city but little larger than Portsmouth, and whose 5 per cent. bonds also command a premium, is $68. At par and interest these are decidedly the cheapest and most attractive high grade municipal bonds in the State.

The available assets of the city are valued at about $300,000, including one-half interest in the Norfolk County Ferries, $110,000, and public buildings valued at $85,000.

The legality and regularity of this issue of bonds has been examined into and approved by our counsel, Messrs. White & Garnett, leading lawyers of Norfolk, Va.

We especially recommend these bonds to savings institutions, fiduciaries, and others to whom absolute security is a greater object than a high rate of interest.

The bonds are redeemable after 1910 at par, at the pleasure of the city.
