NEW YORK. June 12.—The stock market to-day was characterized by strength, and just prior to the close of business there was a stamp in Distillers and Chicago Gas. Distillers was rather heavy all day and refused to respond to the advance in the general market, and in the last fifteen minutes of business it fell slightly to \$84, or about 2 per cent. for the day. The break was due to a rumor that the quo warranta case had been decided against the company. The story was circulating to believe the close, but it was impossible to confirm it. Chicago declined, but later recovered nearly all of the decline. The railway list was strong, and on good long-run combination with an advance of one-half per cent. was recorded. Susquehanna and Western preferred was an exception and sold up nearly 4 points on the belief that the company had weathered the storm. It is understood that the money required to meet its present obligations has been provided for, and that a practical railroad man will have charge of the company's operating department in the future. In addition, it is asserted that the company will be found working in harmony with the big anthracite roads in the future. The rise in the general list was based on the outlook on the railroads and a better market for coal for the first week in June. Among the conspicuously strong stocks were the Vandervelde, the Grangers, Pacific Mail, Missouri Pacific, Louisville and Nashville, and Southern Railway, all on the road. The last named rose to 114 for the common and to 41½ for the preferred. The strength of the latter was due to reports that J. Pierpont Morgan had taken a large interest in the company. London. The Illinois Central was in better demand on the announcement that the miners in the Wheeling and Lake district had returned to work. In the industrial stocks, except for Chicago Gas and Distillers, Sugar was the feature and advanced to within a fraction of 120 on the improvement in the trade conditions. When Distillers and Chicago Gas closed, however, the stock fell to 112, and continued closing lower. The advance in prices for the day ranged from 3½ to 2 per cent., the Vandervelde leading. Susquehanna and Western preferred gained 2½ per cent.; General Electric, 1½; Standard Oil, 1½; Chicago Gas 2 per cent. Sales were 350,000 shares of which 40,000 were St. Paul, 85,000 Baltimore and Ohio, 35,500 Sugar, and 26,800 Distillers. The bond market was active and strong, being quoted on \$275,000. The sales of listed stocks totalled approximately 300,000 shares, and of unlisted stocks, 45,555 shares.

Money on call easy at 16½ per cent., last loan at 1 per cent., and closing off. Long-term call, 1 per cent.; paper, 3000, per cent.; bar silver, 65¢. Sterling exchange firm, with actual business in bankers' bills at \$850,000; for sixty days and 480,000 for demand; paper, 3000; commercial bills, 3000. Government bonds higher. State bonds firm. Railroad bonds strong; Silver at the board was dull.

Treasury Balances: Coin, \$92,330,600; currency, \$65,197,000.

CHICAGO.

CHICAGO, ILL., June 12.—The buyers discovered that the opportunity to break prices in wheat had arrived this morning. They were not slow to avail themselves of this opportunity, and the decline shown at the close tended to the success achieved. The rains of last night made it possible to engineer a stumper, the buying against puts early being the only real evidence of the market's condition. This proved a weak element during the last hour, for the sellers of them turned sellers of wheat to protect themselves. It was argued that the showers would increase the yield of wheat and that the convention was apparently made that they would prevent further deterioration, and that a contention of normal conditions would leave the country in a favorable position for the coming year. July wheat opened at 70¢, sold between 80¢ and 84¢, closed, at 78¢, 70¢, 78¢, 70¢, lower than yesterday. Cash wheat was up 10¢, and futures trading was in progress but at the close prices were nominal.

The country gold early in the session, and the price of grain held all day. It was not, however, a very active or important market, but the sentiment favored lower prices, and they declined. The rains and particularly adverse advances in the crop market made the bearish view of the situation, which, taken in conjunction with a weak market, resulted in lower prices. July corn opened at 50¢, sold between 50¢ and 52¢, closed, at 51¢, lower than yesterday. Cash corn was up 10¢, and futures trading was in progress but at the close prices were nominal.

July oats quiet and weaker. Options active and lower; June, 32¢; July, 31¢; September, 32¢; No. 2 white, 30¢; No. 2 mixed, 29¢; No. 3 mixed, 28¢; rye, 30¢; oats, 30¢; rye, 30¢.
