

HOME FOR A SCHOOL.

Board of Education to Investigate the Purchase of Westminster.

MEETING LAST NIGHT.

Matter was Brought up—Dr. F. W. Kitchel—Was Discussed in Full and all Favor the Idea—Walter Martin for Janitor of No. 6.—Many Applicants for the Job.

The Board of Education last night took up the matter of securing the old Westminster Home for a school house. The matter was brought up by Commissioner Kitchel and was discussed at length. It is well known that No. 6 is crowded beyond all reason and there seems to be no relief in this section of the city because No. 6 is too far away. The Westminster has historic value and it was argued that to convert it into a public school would be a way of keeping it forever for the public. Dr. Kitchel and Commissioners Poulson, Massopust and Woglom were appointed a committee to interview the owners of the building and ascertain upon what terms it can be secured. All the commissioners were thought favorable of securing the building.

Superintendent Shull reported as to the number of scholars in the schools. Many applications had been received for janitor of School No. 6. Walter Martin was finally elected.

The piano at the Westminster was offered for sale. A piano is needed for the schools and Dr. Kitchel, with a teacher, will look into the matter.

The resignations of Miss Emma E. Hollander, of No. 5, and Miss Mary W. Taylor were accepted.

POLICE COURT NEWS.

MACHINE FOR FIFTH WARD.

Voters will not have Old Familiar Ballots at Coming Election.

COUNTY GETS FOUR.

Other Machines are to be Placed in New Brunswick, Woodbridge and South Amboy—Ready for Delivery Ahead of Time—Commission to Watch Experiment Carefully.

Voters of the Fifth ward are to have the privilege of testing one of the new voting machines purchased by the State and which will be used at the November election for the first time. Instead of the regular ballots as heretofore the voter will press a key for each candidate for which he desires to cast a ballot.

With the exception of Camden, Passaic, Cape May and Morris counties, Secretary of State Dickinson has prepared a schedule showing where the eighty-one voting machines purchased by the State are to be placed. Middlesex county gets four to be distributed as follows: First district, Third Ward, New Brunswick; Second district, Woodbridge; Third district, South Amboy; Fifth Ward, Perth Amboy.

Instead of there being a delay in the distribution of the machines, as was feared, they are ready ahead of time. The date fixed by the commissioners for their delivery was September 15th. They have not been shipped before this because the commissioners have been waiting for the list of the polling places at which they will be used, which was to be prepared by the Secretary of State.

Yesterday one carload of the machines was shipped to Jersey City and one to Camden, from which points they will be distributed to the polling places designated by the Secretary of State.

Edward L. Phillips, one of the commission, says that the commissioners would prepare a form of instruction for the election officers of those districts in which the machines will be used, and when the machines are set up they will supervise their installation. The commissioners will also watch closely the operation of the machines and prepare a report upon their practicability for submission to the Governor.

The commissioners have purchased sixty-six machines from the United States Standard Voting Machine Company and fifteen of the Columbian type. The first named are said to be an improvement over the sample machines submitted.

Daily Fashion Sheet.

A DAINTY FROCK IN GRAY LINEN.

This is a pretty frock for morning wear. Any color linen or chambray could be used. A soft gray, stitched in white, with the tie of black and white dotted silk, makes a dainty frock when finished.

The most noticeable part of the waist is the shaped yoke, which comes down long in front. Two large button-holes are worked in this, through

which the ends of the tie are drawn. All the tucking is done with one tuck going one way and one another, making a box-pleat effect. The skirt has a plain yoke and a circular flounce stitched on.

The hat is a plain flat of the same color as the frock, with a large bow made like a daisy, put on the low crown and the ends tacked down to the brim. This is an extremely easy way to make a hat and pretty when finished.

SMOKED THE PEACE PIPE.

Red Men in Convention in Atlantic City Held Big Smoker Last Night.

BUSINESS IS RUFFLED.

Pennsylvania Delegation is Making Trouble for all Hands and the Outcome is Doubtful—Visitors Much Interested in the Storm Today and Crowd the Boardwalk in the Rain.

Atlantic City, Sept. 16.—The Indians who are attending the national convention here, became quite civilized last night. A big smoker was held at the Grand Atlantic Hotel where all the braves smoked the peace pipe. At the same time the squaws assembled in the parlors and played euchre. Today the delegates are enjoying the sight of a storm on the big pond. They crowd the board walk to watch the tremendous waves as they roll in upon the beach.

Business of more than usual importance marked the session held yesterday. It appears that the great council of Pennsylvania had refused to pay an amount equal to five cents per capita on its membership. One year ago the great council passed a law establishing an orphan's guardian fund, and levying a per capita tax of five cents per member each year to sustain the fund. Pennsylvania placed itself on record at the time as being against a general fund contributed by the entire order. When the time came to pay the tax the State refused to comply with the law. The matter of seating the representatives from that State was placed before the great council by a ruling made by the great inchoonee, that as the State had not paid its tax the credentials would not be received by the credentials committee. Past Great Inchoonee Thomas K. Donnelly, of Pennsylvania, entered an objection to the ruling, claiming his State had paid all the tax legally levied, and asserting that the law causing each State to pay an additional five cents per capita for the orphan's fund was not legally adopted at the Norfolk session held last year. The entire matter was then referred to a special committee of five.

The point was then raised as to the standing of those present from Pennsylvania who were not representa-

tives, and the great inchoonee ruled that, as the great council of that State was not in good standing, no one from that body was entitled to remain, and the entire delegation left the hall in a body.

The impression prevails that if the special committee decides against the State, which is likely to be the result, the delegation will quickly step up to the desk and pay over the amount of the arrearage. Others say the fight will be continued, and some think the tribes in that State will withdraw from the order.

A resolution recommending that the great council take into consideration the formation of an insurance branch was referred to a committee for a report.

Not Eloquent.

"Is Mr. Smith still waiting to see me?"

"Yes, Miss Ethel, he's been waiting nearly an hour."

"That's good. He's had plenty of time to think of something to say."—Chicago American.

A Serious Case.

Mary—I'm sorry to hear that you've not been feeling well. What seems to be the matter?

Jane—I suppose I am run down. Why, for the last month I haven't been able to put any heart into my shopping.—Brooklyn Life.

Most Helpful Book.

"Would you oblige me," said the reporter who gets novel interviews, "by telling me what book has helped you most in life?"

And after a thoughtful pause the great man answered, "My bank book."—Tit-Bits.
