The resignations of these men are ready to be tendered to the Panama canal commission and are held in abeyance until the arrival of Secretary Taft, who has called a committee of the workmen that he will be on the isthmus on April 1 to confer with the dissatisfied employees.

Pneumonia was more prevalent than any other disease, twenty-six cases being reported.

LONDON, March 26.—"There may be a few small failures," said Lord Rothschild, "but the reports that a big financial house is in difficulties or that serious troubles are feared are mere inventions.
