31 PER CENT TAX ON WAR PROFITS

Will be Voted by Senate Today, According to Program of Finance Committee.

By United Press.

Washington, Sept. 5.—A thirty-one per cent tax on war profits will be voted by senate today. This is the program of the finance committee, which for many days has been battling the vigorous demands of scores of senators, led by Senators Johnson and Borah, for a heavier levy on the profits of war. The committee amendment will raise \$1,000,000,000, practically double the sum the committee originally planned to raise from this source.

"We have failed to get what we wanted out of this," Senator Johnson, California, said today. "But we have forced what amounts to victory. The committee has been compelled to nearly double the sum it planned to get from war profits."

Under the committee plans war profits are established as the difference between 1917 income of a corporation computed from two of the three years before 1914, plus from six to ten per cent on the invested capital, according to a general tax upon all profits.

On that date, when the second call is issued the forty per cent will report for duty as ordered.

Policemen Honored.

The police force was depleted by two men today, when Patrolmen Thomas F. Toolan and Edward W. Franzblau left for Camp Dix.

The men will be awarded gold badges, properly inscribed by the Patrolmen's Benevolent Association of the city.

The badges will be given to all men on the force who are called or who volunteer to go to the front with their organization, and on the reverse side with their names.

James Malcolm Crowell, of Lewis street, who went today, is an employee of the Colgate Company of Jersey City and was recently married to Miss Mary L. Griddle, daughter of Mr. and Mrs. E. Griddle, of Lewis street. He did not claim exemption on any ground.

John V. Hunt is the secretary to the local tax assessors and exemption claims for him by the local board of assessors on the ground that he was indispensable for their work this fall. The claim was not allowed.

John V. Hunt, of Lewis street, is under to move. John I. Bullwinkle, Richard F. Martin, Jr., and James P. Kennedy were likewise volunteers. The men who left today were under the direction of former Patrolman Toolan.

When the Metuchen board's contingent left the station at that place they were given a rousing send-off by a huge crowd that gathered to see them off. The men were all in good spirits and apparently more than willing to get into action at the federal cantonment.

GOOD NEWS FOR BATTERY MEN IN TWO WAYS

(Continued from page 1)

member, in an effort to gain a delay for the men who were drafted. It was feared that it would be necessary for the men to go to Camp Dix with the draft army, and then be transferred to the battery later if the ruling was favorable. But now they will be held out of the draft, at least until the October call, and will be given every opportunity to get into the battery. The War Department at Washington now has the name of every man called in the draft and the district from which he is called, and the boards will be notified to hold the men out until they receive further instructions from Sea Girt.

The battery officers have been notified by Acting Adjutant General Frederick Gilkyson to "assemble Battery B, Field Artillery, September 6, at the Y. M. C. A. building, Perth Amboy, 8 P. M., for inspection for federal recognition." Orders to report tonight and tomorrow night were issued at the completion of drill last night and the men will again be drilled tonight so as to put them in proper shape for the inspection tomorrow. The inspection will probably be made by an officer of the Eastern Department, from Governor's island, and will lead, those in charge believe, to prompt recognition by the federal government, and thus to rapid movement.

The question, "When do we leave?" is on the lips of every battery man. It seems that the entire personnel of the battery is more than anxious to get into motion and on their way to Sea Girt. Last night's drill demonstrated that the men are fit for service, that they are good working material, and that Perth Amboy will soon have a force of men of whom the city may be justly proud.
