But when I think (as I now have every feason to believe) it has saved my life, I am induced by a sense of duty to those afflicted as I have been, to make my case known, and recommend your Balsam as a medicine that can be fully armed on. About a year since I was attacked with Lung Fever, which left my lungs much diseased; my cough was distressing attended with with pain in my left side. I had seen Wistar's Balsam of Wild Cherry PUPPED UP in the papers, and I concluded to try it. I used bottle after bottle, which in TASTE and in its OPERATION resembled PAREGORIC, soothing emporarily. My disease had by this time BECOME FIRMLY SEATED; I had cold MOHT SWEATS, HECTIC EVERS, SWELLING OF THE LIMBS, &C., Showing CON-TRAND CONSUMPTION! To illustrate the use of the GALVANIC BELT, suppose To illustrate the use of the GALVANIC BELT, suppose the case of a person sufficied with that bene of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temperature tief, but which leave the patient in a lower state, and with in jured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Aske a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence on-hagin to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEISIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO FRADE CATE THE DISEASE OF YEARS.

For about ticenty years I had been suffering from Dyapepsia. Every year the symptoms became worse, nor could tobain permanent relief from any course of medical treatment whatever. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rhematism, which for year after year, caused me indescribable anguish. Farther: in the winter of '45 and '46, in consequence of presching a great deal in my own and vertous other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my postoral labors. My nervous system were some thoroughly prestrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other.
