THE WYANDOT CHIEF AT THE MOWINGMATCH

A Mowing Match came off on the 12th inst, on the farm of John Markel Esq. 4 miles south of Findlay. The Handcock Agricultural Board appointed the Committee, consisting of entlemen from Handcock c unty. There were a number of machine present, but the people were mostly interested in the contest between the "Champion" of Sprin, field. O., and the "Wyamlot Chief" or "Little Chief" as the larmers called it, from this place.

The Champion was represented by Mr Whitely, the inven or, who, it was said ad it got up expressly for the occasion and that the ones they were selling were not like-the one represented, as wa-proven by comparing it with another

The "Wyardot Chief," (not got up expressly for the competition.) was represented by Stevenson & Sears.

The Findley people all went their "bottom dollar" on the "Champion" which, they said, was sure to win," but when the Little Chief' started in they began ooking at one another and seemed t sy . Sue's business," and by the time so got one fourth of the way around the best machine and was sold to a Mr. Beach

right on the spot.

The follwing is the dynamometer test taken f om the books of the committee: Wyandot Chief Width of cut - 5834 inches crampion, 4352 style Wyandot Chief-Average draft, 225 lbs. 225 lbs. When we consider that the width of

cut and t e draft were the two things in which especially the friends of the "Champion" thought their machine could excell the "Calef" it will be seen that the for the very cordial invitation extended to us and we hope to be present on the occasion.
