Burgesses of Towns in Central Pennsylvania

DR. C. E. DELANCY
NEWPORT, PA.

Newport, Pa., Feb. 19.—That the party sought the man, and the people ratified his selection is the reason why this town has one of its prominent physicians, Dr. C. E. Delancy, for burgess. Born in Landisburg, Perry county, attended the public schools of the district and Tressler's Academy at Loyseville. At the call of his country he enlisted and served his term of service, after which he was employed by the government under Quartermaster Major E. C. Rickenbaugh at Harrisburg and continued in service until one year after the close of the war, being the last man discharged from that department.

On his return he learned bricklaying and while engaged in this occupation bound to get an education, attended Williamsport Commercial College, from which institution he was graduated. We next find him a student at the New Bloomfield Academy, an institution which has sent out many noted men, whose first principal was the brother of the grandfather of the present Vice-president of the United States and also an instructor in physiology. While here he read medicine under the late Dr. William E. Ard, after which he took a course at the University of the City of New York from which he received his diploma and later took a post-graduate course at the University of Pennsylvania. He located in Loyseville for the practice of his profession and twenty-two years ago moved to this place. He enjoys a large practice, but with it all has had time to serve the community—three years as a councilman, and although the only Democratic member, was elected president; eight years as school director, five years of which he was president and during which time the fine \$32,000 school house was erected.

Dr. Delancy is a life member of the Masonic fraternity of Williamsport, and a member of the Harrisburg Consistory and Shrine.

CLEAN-UP PROMISED FOR WORMLEYSBURG

Ordinance Prohibiting Throwing of Ashes and Garbage in Streets to Be Enforced

PAVEMENTS MUST BE LAID

Burgess Hummel Will Order Arrears if Properties Are Not Improved by May 15

Wormleysburg is to undergo a number of big improvements during the coming Spring and summer months, according to Burgess J. Fred Hummel, and by the time Fall sets in the town will be a cleaner and better place to live in.

Burgess Hummel will, within the next few days, notify property owners that pavements and curbs must be laid in front of their homes and unimproved plots. This means that work will soon start on the laying of forty pavements and about three times as many curbs. The burgess will allow the property owners until May 15 to get the work started. If on that date no intention on the part of property owners is shown to do the work, the burgess will order the pavements and curbs laid and then the property owner will be forced to pay for the work or be prosecuted.

Crossings to Be Laid
Crossings over all of the streets and alleys are also to be made within the next few months and a bridge over First run at Second and Walnut streets will be built. A violation of the ordinance means a fine.

During the summer the streets will be cleaned and many of the unsightly dead trees which stand along some of the streets will be removed.

Life Insurance Companies

They Are Closely Observing Public Health Conditions

An examining physician for one of the prominent Life Insurance Companies, in an interview on the subject, made the astonishing statement that one reason why so many applicants for insurance are rejected is because kidney trouble is so common to the American people, and the large majority of those whose applications are declined do not even suspect that they have the disease.

According to this it would seem that a medicine for the kidneys, possessing rest healing and curative properties, would be a blessing to thousands.

Dr. Kilmer & Co., Binghamton, N. Y., who prepare Dr. Kilmer's Swamp-Root, the well-known kidney, liver and bladder remedy, claim that, judging from evidence received from druggists everywhere, who are constantly in touch with their customers, and also indisputable proof in the form of grateful testimonial letters from thousands of reliable citizens, this preparation is remarkably successful in sickness caused by kidney and bladder troubles. Every interesting statement they receive regarding Swamp-Root is investigated and the testimonial is published unless the party who sends it is reported of good character. They have on file many sworn statements of recoveries in the most distressing cases. They state that Dr. Kilmer's Swamp-Root is mild and gentle in its action and its healing influence is soon noticed in most cases. Swamp-Root is purely an herbal compound and Dr. Kilmer & Co. advise all readers who feel in need of such a remedy to give it a trial. It is on sale at all drug stores in bottles of two sizes—50c and \$1.00. However, if you wish first to test its great preparation, send 10 cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Harrisburg Daily Telegraph.—Advertisement.

The Trinity Reformed Church will hold its annual experience social in the church. Each member of the society is required to earn a dollar and at the social tell how it was earned. The ladies have extended an invitation to the residents of town to be present.

A NATURAL INFERENCE

The topic in the lobby of a hotel the other night turned to natural inferences, when Congressman James Young, of Texas, was reminded of an incident that happened on a railroad train.

On a particular afternoon one of the local trains happened to be overcrowded, and a large stern-faced woman, who was unable to find a seat, went into the smoking car.

"Well," exclaimed the large woman, after glancing scornfully at the man for a minute or two, "I thought that some of the men in here might be gentlemen, but I find that I was mistaken."

"Pardon me, madame," politely returned the man, extending his cigar case. "It was inexcusably thoughtless of me. The name of these, I think you will find them to your liking."

THIS HEN WORTH OWNING

Special to The Telegraph
Lykens, Pa., Feb. 19.—There are many records of hens laying double-yoke eggs and there are thousands of hens that lay every day for a certain period, but Jerome Warner, of this town, has a record-breaking hen. This hen laid two well-formed eggs of the regular size to-day. Mr. Warner has only the one hen and does not care to part with her if she keeps up her laying record. Have You Had the Grip?

There are certain disorders, such as the grip, that especially debilitate and make the body an easy prey for more dangerous diseases. Ask those who have had the grip regarding the present condition of their health and most of them will answer: "Since I had the grip I have never been well." They still have profuse perspiration, the persistent weakness of the limbs, the disordered digestion, shortness of breath and palpitation of the heart caused by the thin-blooded condition in which the grip almost always leaves its victim after the fever and influenza have subsided. They are furthermore, at the mercy of relapses and of complications, often very serious. In an attack of the grip there is a rapid thinning of the blood and not until the blood is built up again is complete health restored.

Dr. Williams' Pink Pills quickly make the blood rich and red, drive out the lingering germs from the system and transform despondent grip victims into cheerful, healthy men and women. Try the pills for any form of debility caused by thin blood.

All druggists sell Dr. Williams' Pink Pills. Get a box to-day and begin at once to regain your health. Write for free booklet, "Building Up the Blood," to the Dr. Williams Medicine Co., Schenectady, N. Y.—Advertisement.
