

THE STORE THAT
"THE GLOBE"
VALUES BUILT

THIS IS CERTAINLY A Busy Store!

BUSY in Every Department--For everyone reading a "Globe" Advertisement is firmly impressed by the plain spoken statements; the certainty that every garment will be found here exactly as represented. This is a store of character; of quality; a store where deception is unknown; where a child can buy as safely as its parents; surely it's a pleasure to have such a store to buy from.

"The Globe" is the originator of the progressive methods of Conducting the Clothing Business; surely we have imitators, but imitation is the sincerest form of flattery.

Now a few words regarding our Greatest of All Clothing Sales. As is our usual custom, we're Closing Out every Winter Suit, Overcoat, Raincoat, and Top coat, every Pair of Trousers, in fact every garment in the store is MARKED DOWN to a price LESS THAN THE COST TO PRODUCE.

\$10.75 for every Suit and Overcoat that sold for \$15.

\$14.75 for every Suit and Overcoat that sold for \$20 to \$22.50.

\$18.75 for every Suit and Overcoat that sold for \$25 to \$30.

Full Dress Suits that sold for \$25 are now **\$18.75**

Men's Trousers that sold for \$6.50 are \$4.85 and our \$5 Trousers are \$3.85 and so on down to \$4 Trousers at \$2.85 and \$3 Trousers at \$2.45. But the Store for All These Great Reductions is The Globe.

NEW ROLLING MILL TALK OF THE TOWN

Purchase of Defunct Plant Lends Color to Rumor Current at Steelton

The talk of the town at Steelton last several days has been on the current rumors that a new rolling mill will soon be erected at the local plant of the Pennsylvania Steel Company.

Just how large the new mill will be or where it will be erected is a matter of conjecture, as no announcements have been made at the local offices of the company. The announcement yesterday that the Pennsylvania Steel Company had purchased part of the equipment of the defunct Milliken Steel Company's plant on Staten Island lends color to the rumor that a large rolling mill will be built here.

A number of skilled mechanics from the local plant will be sent to New York Monday to dismantle part of the plant purchased there and ship it to Steelton. Just where this mill will be erected has not been announced at the local offices. The dismantling of Nos. 1, 3 and 4 open hearths will make considerable ground available and it is rumored that the new mill will be built there. A mill such as the one it is said will be built here would greatly increase the output of the local plant.
