

Cool in summer—warm in winter
The General Says:
 Neither the hot winds of summer nor the cold blasts of winter can penetrate our roofing or wall board. Roofs covered with wood shingles, slate, or tile, need one or more layers of our insulating materials under them to keep the building cool in summer and warm in winter.

The use of wall board as an improvement over lath and plaster is becoming universal. Being a non-conductor of heat, it saves fuel in cold weather and keeps out the hot winds and heat of the summer. The great service and very low cost of our materials have led to their enormous use everywhere.

This month-long October occasion is planned to emphasize the close relation that exists between Kaufman's and Harrisburg. Therefore its offerings are such as will best please keen, observant shoppers, who are glad to do their shopping at a saving, at the start of the new season.

The NEW is in evidence all over the Store—but much of it is at mid-season or end-of-season prices. That is where this sale differs, and will continue to differ, from other sales; because we shall keep the month crowded with offerings that are of interest NOW—the goods you would normally buy in October at FULL prices. Because of the extreme care and common-sense with which these offerings have been planned, we expect this month of October to establish a new high mark for a single month's sales in this store.

We cannot refrain from extending our thanks to the people of Harrisburg and vicinity for their hearty response to this Anniversary Sale's opening on Saturday and today. We ask you to kindly watch our daily announcements. Something out of the ordinary for you each and every day.
