### Random Notes

By JANE SIDLEY

One of the largest and most enjoyable of the many affairs given for Miss Margaret Nelson's house party guests was a garden party dance last evening with Miss Alice Bowie as a charming hostess at the home of her parents, Mr. and Mrs. Sidney J. Bowie, on Glenn avenue.

The lawn was like a scene in Fairyland, being attractively lighted by many bright colored Japanese lanterns and here Miss Bowie, wearing a becoming dancing frock of red and white net and a corsage of red Richmond roses, was assisted in receiving by Miss Margaret Nelson, Miss Dorothy Heller, Miss Elizabeth Marvel, Miss Leila Gordon, Miss Anne Gordon, Miss Dorothy Caley, Miss Gail Gilmer, Miss Annie Moore Provost, Miss Agnes Gray, Miss Caroline Sproull, Miss Gertrude Mealey, Miss Orlean Perkins, Miss Bland Tomlinson and Miss Mildred Badham.

The entire lower floor was prettily decorated with garden flowers. Mr. and Mrs. Frank Nelson received with Mr. and Mrs. Bowie.

Dancing was enjoyed until a late hour by 150 young people and punch and ices were served during the intermissions.

### Puts Ecru Shade in Curtains

"To produce a good shade of ecru when washing curtains, after the curtains have been washed thoroughly, rinse in clear water and then rinse in this preparation: Boil a small quantity of hay in a kettle of water for 10 minutes, strain through a cloth, rinse the curtains quickly in this, wring dry, if the curtains are to be stretched, add this preparation to the starch. It will give them the ecru shade that they possessed when new. To make an excellent Vernis Martin finish on iron rods or furniture cleanse the surface thoroughly and gild with any good brand of gilding paint. Let this dry for 24 hours, then treat with clear varnish. This Vernis Martin finish does not tarnish and may be washed with soap and water and not be injured.

A new member who leads off finely! We open the door wide for such and commend them warmly to the family in general. Whatever contributes to household love adds to the purpose never out of our minds—to wit: to fill this beloved land of ours with homes that deserve the hallowed name. We refuse to believe that they are so far out of fashion. The correspondence of our Corner is ample proof to the contrary. Each letter from a practical housewife penned in the spirit we have just read is triumphant evidence in favor of our declaration. Long live the American home!

### Dandelion Wine

"Please send me a recipe for dandelion wine in which lemons are used. If you haven't one, will you please ask for one? Through the Corner, perhaps, some of its readers may be able to help.

"Will you please give me by return mail or through the Corner a recipe for making dandelion wine?"

and little Una Dorgan Wade was her mother's only attendant, while Mr. D. T. Webster of Birmingham was his brother's best man. Preceding the ceremony Mrs. S. Taylor, wearing "At Dawn" by Cadman, and as the soft strains of piano and violin played by Mrs. Rowley and Miss Halliday echoed through the home the bride party entered in a procession of white and pink roses.

Only the family and a few closest friends were present at the wedding and among those who were of town were the bride's two brothers, Lyman Dorgan and Alfred Dorgan, from New Orleans, and the groom's brother, D. T. Webster, and his cousin, Miss Elsie Coleman of Etowah.

Miss Wade, wearing a pompadour silk and Chantilly lace, the little coat being fashioned of the lace, was like an old-time picture in her quaint, lovely gown, and the lace had with its pink rosebuds matching the flowers in her dress was most becoming to the fair, sweet face it shaded. She carried Killarney roses. Little Una made a pretty flower girl in her dainty dress of white net accented with a trim of pink rosebuds.

During the ceremony Mrs. Rowley played "O Perfect Day" to match the June day on which this truth was pledged. Following their marriage Mr. and Mrs. Webster were showered with congratulations and champagne punch was served from the dining room with a buffet lunch to the wedding guests.

The table was very lovely with Killarney roses and gladioli, the pink tint showing not only in the flowers which decorated the table, but in the bride and her attendant with rosebuds. During the time the guests were viewing the many handsome wedding presents, Mrs. Webster had exchanged her pretty pompadour silk for a traveling suit of blue, with a waist of blue chiffon and Roman silk combined and a blue hat.

Mr. and Mrs. Webster left on the 12:35 train for Jacksonville and will spend the rest of their honeymoon on the coast of Florida.

In the autumn Mrs. Dorgan and her little granddaughter, Una Wade, will go to Birmingham to make their home with Mr. and Mrs. Webster, who expect to go to house-keeping then.

Mobile regretfully relinquishes to the Magic City this youngest daughter of the late Wyman Clarke Dorgan, who has always been a popular member of Mobile society, but remembering how other Birmingham men have sought a lovely bride in this city and how generously loaned them back home for frequent visits, is congratulating herself that the distance is short and that "the home-comings" of Mr. and Mrs. Webster to Mobile will be frequent.

## And Now Comes a Word Concerning "Protean Woman"

By DOLLY DALRYMPLE

The thoughts of men everywhere are concentrated upon the remaking of the world's map, occasioned by the world war which has torn down old landmarks and devastated cities and towns and villages which will never be set up again.

Desolation to the western world has come, not from the foes within her gates, but from dissension within.

Men stand aghast at the changed conditions of finance, commerce and governments under which they struggle to

increased difficulties. The "weaker sex" will go to the wall? This is the essence of the new doctrine, that weakness of any sort disinherits. The new test is mainly a crude one—reference to physical brute force. What an enchantment, then, of "feminine charm" there must be in the future to enable woman to keep her power over man!

Well, heaven be praised, woman has had long practice in adapting herself to changing life conditions, even as her figure has had protracted and severe training in adapting its soft and rounded outlines to changing fashions in stays, La Mode, through the voice of the corsetier, commands: "Possess curved lines!" Woman, at once, develops curves. The mood of the oracle changes: "Be straight up and down!" is proclaimed. In instant obedience, woman becomes as slender and untapering as a broomhandle. In her inmost soul woman fears no future changes because within her lies the power boasted by the Apostle Paul, who wrote: "To the weak became I weak that I might gain the weak. I am made all things to all men."

To gain the strong, women will become strong, whether the strength demanded be the fearless spirit and physical vigor of a Valkyrie or the feminine charm of the subtle and diminutive Cleopatra, who was carried into Caesar's presence rolled in an oriental rug. Suffice unto the day is the evil thereof. Is the average woman's attitude toward possible chance. She knows it when the need arises, but she rarely looks ahead—she leaves the visioning of the future to the men!
