The inventor has made improvements which have rendered it perfect as a STRAW AND CORN CUTTING MACHINE. It has given entire satisfaction to every one who has used it, and is the most superior machine in use, for the purpose for which it is designed. It is simple in all its parts, durable and easily kept in order. It is self-feeding, and easily worked by a boy 12 years of age.—

It will cut straw or corn in the shack from half inch to three inches in length. Many certificates might be pro-duced from Farmers who have used them, to prove their superiority over any other straw and corn cutter now in use. Persons needing such an article may rest assured that in it they will find a valuable acquisition to their farm ufacturing these machines, and he now solicits for them the attention of the public, and the farmers and planters particularly, of the South and West. He will hereafter be able to fill all orders rapidly, and ensures all machines to do the work for which they are designed.

Bush, than is of greater exteroal diameter at the bottom that at the top, which is secured to the back by four boilts, so that every block is in the form of a dove tail, which gives greater strength to a Stone than any other method which is required in small mills, where the stone is run with great speed, and becomes dangerous it not atrougly made. It also gives any weight to a stone of small diameter that is required without having it thick or high, that makes it top heavy.

This mill is a square trage made of wood or castiron, in the form of a bust, with Bridge-tree, Spindle Baiance, King Driver, and Regulating Screw, and grinds mon the same principle as a large mill, differing only in the Kunner Stone; this being of great weight enables it to grind nearer the center a greater quantity of grain with less power than any other mill now in use. This mill is postable, and may be attacked to steam, water, horse or hand power.

ALSO, sil sizes of Krench Burr Mill Stones, manufactured on the same principle.

Also, 211 sizes of Eronch Burr Mill Stones, manufactured on the same principle.
Joseph T. Burrows, of Cincinnait, is the inventor, for which he obtained Letters Patent in 1842. For allinfringements the purchaser will be hold responsible for the right of using.

of using.

Those Mills do not require a Millright to set them un; and all that's micessary to put them in operation, is to attach a hand to the pulley on the spindle, with a drum sufficiently large to rms a twenty-four inch Mill 240 revolutions per misute, attached to Gin, Steam, or Water Power. By the

steady application of two horse power the Mill will grind sex to 8 bushels per hour of good mealt and will grind wheat as well as corn. The thirty inch mill, if put to its fullest speed, will grind from ten to fifteen bushels per hour. These mills are warranted to be in warr respect

and will furnish one set of casting for patterns,

A had been hald for many years; by the use of three bot-lies of the Magnetic Olutment, had his hair entirely re-stored, and now has as beautiful a head of hair as any man could wish. His age is about 50 years.

A son of Mr. Warren, of this town, 14 years of age, had been affliced with the Asthma from his gradle. He had the benefit of the best medical advice that a loving and wealthy father could procure, without avail. It was one of the most aggravated cases I ever saw; he was emaciated al-most to a skeleton. By the use of a few bottles of the Oint-ment he was thoroughty cared, and for seven months past has enjoyed robust health.

This was an extreme case of inflammation of the spleen,

This was an extreme case of inflammation of the spleen, of long standing; has a variety of treatment from no less than eight different physicians, without receiving benefit—was cured by the use of only four bottles of the Magnetic Ointment. This was four months ago and the hady (a Mrs. Dunham,) is still in good health, and able to attend to her usual household duties. Thave treated two cases of Chronic Sore Eggs with the Ointment, both of the patients so nearly bland, as to need an attendant to lead them from place to place. One of them had been afficient is very the other about 9 years. They had tried the best physicians in the State, without benefit; and one of them had been under the treatment of the celebrated Dr. Muzzy, of Cincinnati, for eighteen months, and had expended hundreds of dollars in vain efforts to effect a cure. They are now by use of the Magnetic Ointment, nearly or quite cured; and are able to read and attend to any ordinary business. I have used the Ointment in a number of cases of Pilez, and in an case has it failed of giving summediate relief and generally a permanent cure. I have also used it beneficially in severe cases of Eryspielas. And hast but not least. I have within the hast year sipelas. And last but not least, I have within the last year cured four cases of CANCER by the use of the Magnetic Ointenent alone!

From a thorough trial of the Ointment in nearly every disease for which it is recommended, I can confidently recommend it to be one of the most useful remedies ever of-

fered to the public. Respectfully Yours, BURTON HUBBELL, M. D. Dated Jan 27, 1859, Amelia, Ohio,
The character of this Ointment, as an efficient remedy, is established in this city. There are quite a number of individuals who ascribe their restoration to health to the use of this extraordinary Ointment.

PHILADELPHIA MEDICAL HOUSE.—Established 15 years ago by DR, KINKELIN. The oldest, surest and best hand to cure all forms of scaret diseases of the skin, and solitary habits of youth, is Dit. KINKELIN, N. W. corner of Third and Union streets, between Spruce and Pine, one and a half squares from the Exchange, Philadelphia.

Take Particular Notice.—There is a habit which boys teach each other at the academy or college—a habit indulged in when by themselves, in solitude, growing up with the boy to manhood, and which, if not abandoned in due time, not only begets serious obstacles to martimental hapthe boy to manhood, and which, if not abundoned in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted, insidious and devastating affections. Few of those who indulge in this permitious practice are aware of the consequences, until they find the nervous system is shuttered, feel strange and mose-countable feelings, vague fears in the mind. The individual becomes feeble, he is unable to labor with accustomed vigor, or to apply his mind to study, his step is tardy and weak he is dail and irresolute, the countenance is downcast, the eves without matural lustre, shamefacedness is apparent.—These are symptome which should awaren his ettention of those miniarly, militate. these similarly afflicted.

If the victim be conscious of the cause of his decay, and having relinquished the odious practice, he suffers under those terrible nocturnal emissions, which weaken and shame him, producing mental and physical prostration. If he emancipate himself before the practice has done its worst, and enter matrimouy, his marriage is unfinitful, and his senses tell him that this is caused by his early follies.

Too many think they will hug the secret to their own hearts, and core themselves. Alast how often is this a fatal delusion, and how many a promising youth, who might have been an ornament to society, has faded from the earlil!

Young Men!—Let no faise modesty deter you from making your case known to one who, from education and remaking your case known to one who, from education and re-spectability, can alone befriend you. He who places himself under DR. KINKELIN'S treatment, may religiously confide

Coughs, Cods, Influence, Ashma, Bronchitis, spitting of Blood, and all other Lung Complaints tending to CONSUMPTION. THE GREAT COUGH REMEDY! READER! bare you a Cough, which you are neglecting, under the idea that it is only a common cold, that it will soon "wear itself out?" Let a friend tell you, in all kindness, what will soon be the probable result. In a short time, if you continue to neglect vonrself, you will begin to feel a sense of tightness and oppression across the chest, accompanied with frequent sharp darting pans. Then a dry, backing Cough will set in, and when you raise anything it will be a thick and vellowish, or white froshy matter, streaked, perhaps, with blood. If you still take no medicine, these understant vontrems will be a matter, streaked, perhaps, with blood. If you still take no medicine, these unpleasant symptoms will increase, and you will soon have Heetic Ferer, Cold Chills, Night Sweats, Copious Expectoration, and then Great Prostration. If you stilt neglect yourself, a few weeks or months will see you consigned to the grave, leaving your friends to mourn how rapidly CONSUMPTION did its work, and burried you away.—
Friend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Consumption progresses with more or less randitive to a later

Friend! have you no cause to be alarmed? In the above sketch you may see as in a glass, how every case of Consumption progresses, with more or less rapidity, to a latal termination. Of all the Thousands and Millions whom this great Destroyer his gathered to the tomb, every single case began with a Cold! If this had been attended to, all might have been well but, being neglected, under the fatal delusion that it would "wear itself," it transferred its deadly action to the substance of the Lungs, exciting there the formation of tubercles. Another, and another code added fuel to the flame, until these tubercles began to sollen and suppurate eaving, by their ulceration, great cavines in the Lungs. At his crisis, the disease is very difficult of sure, and oftentime sets at deflance all human means.

In the latter or worst stage, this medicine will oftentimes arrest the disease, or check its progress, and will always make the patient more comfortable, and prolong his life, and is therefore worthy of atriat,—but in its incipient or forming periods, Consumption is as curable as any other disease, and "Dr. Rogers" Syrup of Liverworth, Tar, and Canchalagon," if taken at this time, will cure it [267] AS SURELY AS IT IS TAKEN [261]. This is strong language, but we can refer you to numberless living witnesses to prove that it is TRUE! And therefore, we earneastly exhort every man, woman and child, who has a Cough, or is subject to Colds, to keep medicine by you in the house, and whenever you take Cold, do not "let it alone" to work mischief in your system, but eradicate it thoroughly, at once, by this power, fully healing compound and leave your Langs uninjured, to carry you in fall rigor to a good old are." pound and leave your Lungs uninjured, to carry you in full

rigor to a good old age! MOTHERS! Have you delicate, weakly children, who are always taking cold, and subject to Croup? Remember! There never was case of Croup, which did not originate in a Cold! And when your child goes to bed wheezing and coughing, you know not that, before morning, Croup may not set in, and ere you can get a Physician, your dear child may be beyond the reach of help. We know have the property or the property of the control of the contro ere you can get a Physician, your dear child may be beyond the reach of help. We beseech you therefore, as you value the lives of your children, keep this medicine by you in the house, and when your little ones take cold and commence coughing, give it to them at once, and rest notuntil the cough is entirely subdued. We conscientiously aver, after the most extended experience, that if this advice were followed no child need ever.

no child need ever DIE OF CROUP, DIE OF CROUP,
for the cold would be cared, before it could arrive at this aggravated and fatal stage. Let every Mother, especially, head well these remarks, that she may not be centre, when mourning over the early blight of some cherished blessom, have occasion bisterly to reasonach herself for her criminal neglect. It is an old adage, that "to be forwarned, is to be forcarmed."
Parents! so let it be in your case.
