Dr. HUNTER'S MEDICAL MANUAL AND HAND BOOK for the AFFLICTED—containing an

outline of the origon, progress, treatment and cure of every form of disease, contracted by promiscuous sexual intercourse, by self abuse or by sexual excess, with advice for their prevention, written in a familiar style, avoiding all nedical technicalities, and everything that would offend the ear of decency, from the result of sometwenty years successful practice, exclusively devoted to the cure of diseases of a elicate or private nature.

To which is added receipts for the cure of the above disses, and a treatise on the causes, symptoms and cure of the

TESTIMONY OF THE PROF. OF ORSTETRICS IN PENN. COL-LEGE, PHILADELPHIA.—DR. HUNTER'S MEDICAL MAN-UAL.—The author of this work unlike the majority of those works who advertise to cure the diseases of which it treats, is a graduate of one of the best Colleges in the United States. It affords me pleasure to recommend him to the infortunate, or to the victim of malpractice, as a successful and experienced practitioner, in whose honor and integrity they may place the greatest confidence.

JOSEPH LONGSHORE, M. D.

FROM A. WOODWARD, M. D., OF PENN. UNIVERSITY, PAIL-

ADMINIA.—It gives me pleasure to add my testimony to the professional ability of the Author of the "Medical Man-ual." Numerous cases of Diseases of the Genital Organs, some of them of long standing, have come under my no-uce, in which his skill has been manifest in restoring to per-fect health, in some instances where the patient has been considered beyond medical aid. In the treatment of Sem-nal Weakness, or disarrangement of the functions, produced by self abuse or excess of venery, I do not know his superior in the profession. I have been acquainted with the Author some thirty years, and deem it no more than justice to him, as well as a kindness to the unfortunate victim of early indiscretion, to recommend him as one, in whose proonal skill and integrity, they may safely confide then
al.F. WOODWARD, M. D-

"This is, without exception, the most comprehensive and intelligible work published on the class of diseases which it treats. Avoiding all technical terms, it addresses itself to the reason of its readers. It is free from all objectiona-ble matter, and no parent, however fastidious, e to placing it in the hands of his sons. The author has deworld many years to the treatment of the various complaint treated of, and 'with too little breath to puff,' and 'too lit treated of, and with too fittle bream of pair, and the presumption to impose, he has offered to the world at the merely nominal price of 25 cents, the fruits of some twenty years most successful practice "—Heraid.

"No teacher or parent should be without the knowledge imparted in this invaluable work. It would save years of pain, mortification and sorrow to the youth under their charge."—Panules, Adopting.

pain, mortification and sorrow to the yearn einer their charge."—People's Advocate.

A Presbyterian clergyman in Ohio, in writing of "Huner's Medical Manual," says:—"Thousands upon thousands of our youth, by evil example and influence of the pussions, have been led into the liabit or self-pollution without realizing the sin and fearful consequences upon themselves and posterity. The constitutions of thousands who are raising families have been enfeebled, if not broken down, and they do not know the sunse or the cure. Anything that can be families have been enfeebled, if not broken down, and they do not know the cause or the cure. Anything that can be done so to enlighten and influence the public mind as to check, and ultimately to remove this wide-spread source of human wretchedness, would confer the greatest blessing next to the religion of Jesus Christ, on the present and coming generations. Intemperance (or the use of intoxicating drinks,) though it has slain thousands upon thousands, is not a greater scourge to the human race. Accept my thanks on behalf of the afflicted, and, your coworker in the good work you are so actively engaged in."

THE SHORT CORN CROP OF THE SEASON is a calculty most seriously felt and deeply deplored by all. But not withstanding the crop will to a large extent, he cut off, it is not entirely without remedy. This is to be found in a machine known as Leavitt's Patent Portable Corn Mill and Crusher, which is recommended for the attention of the farmer and stock raiser as highly worthy of their especial notice.

The Mill instrong and decable, perfectly simply in The Mill sections and divisible, perfectly simply in its construction, and advirably adapted to the purposes for which it is designed, viz.—The shelling and granding of corn and croshing of corn and cob together, grinding, saitable for family use, three bushels of meal per hour; crushing corn and cob sit to eight bushels per hour, and shelling twenty bushels of corn in the same length of time—all of which it accomplishes with perfect case to the animals, (two horses being required,) and entire satisfaction of the nurchaser.

This Mill is desirable to the farmer and stock raiser for nanty reasons—
1st—It is the only portable mill having the combined capacity of grinding, shelling, and crushing corn.
2d—Unlike other portable mills, all extra gearing, framing, shalls, spindles, horse powers, and the like are entirely dispensed with.
3d—It exempts the possessor from a dependence upon water mills, which during seasons like the present, is quite uncertain, and frequently attended with many inconveniences and vexations delays.
4th—The use of this mill will secure to the farmer a saving of at least fifty per cent, in the quantity of grain consumed, whilst it is an admitted fact proven by those who have tried the experiment.

have tried the experiment, and established by scientific test, that stock fed upon crushed or ground corn, are more healths, thrive better, and fatten in much 'ess time than stock fed in a different manner,

By the old method of feeding corn upon the ground a In ce portion is wasted, and whatever nutriment the cob-may contain (about forty per cent) entirely lost. Whilst by crushing and proper feeding, a large and useless waste is avoided, and all the nutriment of the cob-secured—be-ing so much clear gain. These are facts; and worthy of

reful considera The undersigned having purchased the right to the above mill in Davidson, Robertson, Marshall, Giles, Dickson, and Hickman counties, Tennessee, persons wishing to purchase, will please address the undersigned at Nashville, Tenn. Sunt Transportation. STOVES, CASTINGS, TINWARE. W E respectfully call the attention of country merchant visiting Nashville to our extensive stock of TIN WARE, larger than any we ever had before, and which comprises all the articles that are in demand in country This extensive stock, which is well worthy of examina-ion, has been made by the best workmen that can be found

n the country, and with the utmost care.

To cash customera it will be sold with the smallest possible margin of profit. Cooking Stoves.—Our stock of Cooking Stoves, both of wrought and east iron is complete, and will be sold for cash as low if not lower than any other house in, Mashville who will offer an article of equal quality.

Heating Stoves.—We have agreater varioty of patterns of Heating Stoves for wood and coal than has been before offered in this market. To secure prompt, sales, we

will sell for cash at a small advance above cost.

Castings,—We have a large stock of hiellowware Castings, of the best and lightest quality, which we will sell at a very low figure.

Also, Dog Irons, Hark Mills, Sad Irons.

AS ECONOMY IS THE WAY TO WEALTH,

We again call the attention of the Ladies to an invest

got up expressly for their benefit— THESELF-HEATING SMOOTHING IKON. The advantages consist-1st, in Economy, one cent's worth of good charcoal furnishes fuel for a whole day's ironing. Hard wood coals from a common wood fire or stove answer the purpose just as well for those who live in the country.

2d. Convenience, being independent of a stove or furnace, and therefore capable of being used in any part of the house or yard.

8d. Saving of labor and time in avoiding the carrying of the Iron to and from the fire.

4th. Avoiding the discomforts of a hot room.

5th. The facilisating neatness—the iron never being

soiled by contact with the fire, but always retaining its perect gloss.

6th. Despatch—it involving the saving of all the time which is otherwise lost in exchanging the from and in keeping them in preper order. A mere inspection of the Iron properties of the properties of the Iron properties of the properties of the Iron properties of will satisfy any one that it is a decided improvement, and must come into general use.

Five hundred of these Irons have been sold in Nashville, and are always approved of, by good Housekeepers.

Our stock of Housefurnishing Goods is very extensive, and we will make it to the interest of families going to House-

keeping to give us the first call.

CORRES SOULE, MANUFACTURED BY HARCOURT, BRADLEY & CO., 44 Market St., Manchester. Principal Warehouse, 102 Wood St., Chespeide, Lendon, England. American Establishments, 38 Ann Street & 102 Nassau Street, New-York, U. S.

THE Hydromagen is a valuable discovery for profeeting the feet from damp or cold, and therefore a preventative of many Lung diseases, without any dectoring whatever. The Hydromagen is in the form of a sole, and worm inside the boot or shoe. Its medicated character is a powinside the boot or since. Its medicale I character is a powerful antidote to diseases.

For Gentlemen it will be found agreeable, warm, and healthy, to wear in the coldest as raimest weather, as the foot cannot become wet if the Hydroungen is inserted. Ladies may wear the lightest soled boots or shows in the most inclement weather with imponity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely experience of over-soos, as the latter cause the test to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in low weather, like milia rubbers. wear to pedestrians in key weather. Like melia rubbera. While the latter cause the feet to appear extremely large, while the sater cause the feet in appear extremely large, the Hydromagon, being a mere thin alice of cork prepared, peculiarly placed inside, does not increase the erre of the boot, or cause the foot to appear untidy. To Children they are extremely valuable, as they may enjage in exercise with comfort and healthy effects. Their expecse is so slight as to scarce need mention; besides, those who patronus them will find their pearly doctor's balls work diminished thereby.

As the Hydromagen is becoming move known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Gia-gow, Leeds, Dublin, Paris, Antwerp, Humburgh, and lierlin, our sales reached 1,752,450 pairs of Cork Soles. This year the number will far surpass that.

"The Profector," although but recently introduced into America, is making a rapid progress through the United States, the Canadas, South America, and the West Indias. It has for a long time been a staple article in England and on the continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate these facts enquire of any English resident in your vicinity of his knowledge of the beneficial effects of wearing the Protector, without remotions to nontroduced any kind. The cost of wearing these articles is a mere trifle, and one will last some years. No one who values the health of himself or his family will be without them. The Hospitals in this country are not alone recommending them, but rapidly introducing them.
