

government and institutions. It will endeavor to guard with vigilance and defend with unwavering earnestness and faith the rights and intests of all the States, and the essential princilas which constitute the basis of the Republic. We shall oppose all invasions of these, and be charged in such a war as this, and thereuphold, to the utmost of our ability, the union fore that the conquered stand in no need of of the States under them. Feeling that they are endangered by the revolutionary schemes of the Radical politicians who now hold the Legislative power of the Government, we shall abate

cthing of our past opposition to their meacure With these views, which are no less than mound convictions, we cannot and will not resitate to defend the unfortunate South from the asparsions and impositions heaped upon its people, and urge that Justice and Right shall he moted out to them.

# Our Manufacturing and Do-

#### mestic Interests.

We shall constantly admonish the Souther people to be self-reliant, and shall do what we muy he able to induce the establishment of manufactories in our midst for our home products. To this end we will pay special attention to the cost and statistics of manufacturing. and exert ourselves to encourage the diversifieation of Southern industries and the develop ment of Southern resources.

### cial Column.

Every department of business has an immidiate interest in the markets of the country, and In its financial fluctuations and condition. The man who falls to keep himself properly advized as to the rise and fall of the markets, as controlled by the laws of demand and supply. and the relative condition of the currency, is exposed to constant loss, and must necessarily fall behind his more intelligent and enterprising neighbors. In order to make our paper valuable as well as interesting, we shall continue to make this a SPECIAL PRATURE. Our Daily Market Reports, domestic and foreign, by telegraph, and our City Reports, gotten up at heavy expense, have challenged the commendation of our best business man ; while our current Financial Reports from all the leading money centres of the country are fuller than have over been published by any other journal in Tennessues.

## Upon the Subject of Agriculiure

And kindred topics, we shall also give an extensive variety of valuable and interesting matter-the best adapted to the farming classes of our State, which will, in a great measure, supply the place of a family agricultural paper,

## For the Family Circle,

And for the special pleasure and profit of the young, each week we will give a general literary and religious miscellany. Nothing shall find its way into our columns unfit for the perusal of the mothers and daughters of the land. Deprecating the demoralizing sonsationalism of many contemporary journals, we shall eachew that character; striving to give theireader substantial matter, preferring to be useful rather than ensational.

Decisions of the Supreme Court.

ARTEMUS WARD'S WILL.

The will of Charles F. Browne gives \$500 each to two children of Mr. Higinsn, his agent.

To his mother he leaves a life interest in the whole of his real estate, the value of which is at least \$25,000, and at her death it passes into the hands of Horace Greeley, as trustee, for the purpose of founding an asylum for decayed printers.

His library is to be competed for by the boys at present receiving their education at the school in which Mr. Browne was educated.

The rest of his personality is devoted to the object of providing for the education of George Stevens, an intelligent youth of mar20 td ourteen, who has been his constant attendant and companion for the last two years. The will provides for his apprentieeship for two years in a printing office and then his removal to college for the perfecting of his education. Mr. Browne stated that his object in wishing George to go first into a printing office was "that he night ascertain how little he knew, and now important it was to learn."
