cientific skill from vegetable ingredients, which rarely falls to cure the severest cases of Chills and Fever and the concomitant disorders. Such a remody the necessities of the people in mala-rious districts demand. Its great superiority over any other medicine yet discovered for the cure of Intermittents is, that it contains no qui-nine or mineral, and those who take it are free from danger of quinism or any injurious effects, and are as healthy after using it as before. It has been extensively anyloyed during the last thirty years in the treatment of these distressing

disorders, and so unvarying has been its success that it has gained the reputation of being infallible. It can, therefore, be safely recommended as a sure remedy and specific for the Fever and Agme of the West, and the Chills and Fever of the South. It counteracts the miasmatic poisen in the blood, and frees the system from its infin-eace, so that fiver and agus, shakes or chills, once broken up by it, do korreturn until the disease is again contracted.

The great variety of disorders which arise from

the irritation of this poison, such as Neuralgia, Rheumatism, Gout, Headache, Blindness, Touthache, Enrache, Catarrh, Asthma, Pai-pitation, Spienic Affections, Hysterics, Pain in the Bowels, Colic, Paralysis, and derange-of the Stomach, all of which become intermittent or periodical, have no speedier repiedy than AVER'S AGUE CURE, which cures them all alike, and protects the system from future attacks. As communities where Fever and Ague prevails, as it stays the development of the disease if taken on the first approach of the premonitory symptoms. Pravellers and temporary residents are thus enabled to dely these disorders, and few will ever suffer if they avail themselves of the protection this remedy affords.

For Liver Complaints, arising from torpidity, it is an excellent remedy; it elimitates this organ into healthy activity, and produces many remark-able cures where other medicines fail.
