

tingled itself in peace as in war. In time of peace, a military surgeon had discovered the principle of transmission of the yellow fever germ, and had given up his own life as a martyr to science. Another had cleaned up a great city and made it a health resort, and had later rid Panama of disease so that a President could visit it in safety. The latter reference was, of course, to Colonel Gorgas, and evoked applause.

We present you with the Hanan Shoe.

"The absurd man is the one who never changes." - Bartholomew. This does not apply to a man who has found a shoe that is PERFECTLY comfortable. He should stick to it. But if you have experienced any shoe troubles—in the way they feel, in the way they wear, or in the way they hurt you—are just ripe for a pair of Hanan's shoes.

Two generations have been bent in perfecting the Hanan last and in modeling a perfect conform. The fruits of all this is here at \$6.00 and \$6.50 a pair. All leathers. The Berry shoe for boys is made like the men's—of good solid leather. By far the cheapest in the end \$2.00 to \$3.50.

Sundry changes in the by-laws were proposed yesterday, and were discussed. Some were approved and some disapproved. The modifications made before the next annual meeting for final consideration. To-day's Events. Two professional meetings will be held to-day, at which technical papers will be read. Only members of the association will be present.

At 5 o'clock this evening there will be a public lecture in the auditorium at the Jefferson by Major Seaman on the subject of hunting in Africa. The public is invited. The reception to be tendered by Governor and Mrs. William Hodges Mann in honor of the foreign delegates will begin at 5:30 to-night and end at 11.

President-Elect George Henry Torney was born in Baltimore on June 1, 1856. He graduated in medicine at the University of Virginia in 1876, and was appointed assistant surgeon in the United States Navy in 1872. Later he became passed surgeon, but resigned in 1875 to enter the army, where he was first assistant surgeon. He was made captain in 1880, major in 1894, lieutenant-colonel in 1892, colonel in 1905. His appointment as surgeon-general, with the rank of brigadier general, was made on January 14, 1909.

It was not until I became President that the first really serious effort was made to enforce the anti-trust law. We fought this matter in a successful conclusion, and we made both the interstate commerce law and the anti-trust law realities, and not shadows. "Who have been the people who attacked me most violently? The plain people of the men who represent the trusts. It is the representatives of the great corporations, their representatives in the press, their representatives in public life, their representatives in private life, the big corporation lawyers, and Harry Stimson is naturally feared by the great combinations which are either doing an illegal business, or which are so close up to the edge of an illegal business that they are always afraid that they will be hauled up for stepping over the line, and by the corporations, which, if not doing anything illegal, nevertheless, are enjoying special privileges, which ought to be made illegal.

Stimson does not tell you that if elected he can put a stop to the high cost of living; he cannot and none else can. But he does say that on certain big necessities, that, carrying out the course of action that he has consistently carried out in public life, a certain improvement can here and there be made as regards certain commodities controlled by great trusts."

"BUD" MARS MAKES FLIGHT Gives Clever Exhibition, but Does Not Try for Any Record. Norfolk, Va., Nov. 1.—"Bud" Mars, 16 one of Glenn Curtiss's biplanes, made four flights this afternoon, in the presence of 10,000 people, at the Jamestown Exposition Grounds, where the Norfolk Ledger-Dispatch's three-days' meet began. The highest altitude was 900 feet, and he apparently made no effort to establish a new record. He circled the "Lee Parallels" grounds nine times, and his last flight, and amused himself by diving down, within a few feet of the heads of spectators, and then shooting up in the air again. Glenn Curtiss will probably make several flights to-morrow.

URGES ALLIANCE TO USE BIG STICK

Dr. Campbell, of Asheville, Speaks Against Violations of Sabbath.

(Special to The Times-Dispatch.) Raleigh, N. C., November 1.—In his annual address before the North Carolina Lord's Day Alliance, in fifth annual session here, President R. F. Campbell, of Asheville, urged that the alliance see to it that there are no local committees in every town in the State that will use "the big stick" whenever there are violations or attempts to violate the Sunday laws of the State or the community. He declared that his local committee in Asheville is just now using its "big stick" on a movement to have Sousa and his band give a sacred concert in Asheville, December 4, for which Sousa is to require a \$1,000 guarantee. Dr. Campbell says the local committee is prepared to procure warrants for the arrest of Sousa and his band if they persist in giving the concert in Asheville, and that the only way Sousa can escape arrest will be to charter a special train after the concert and leave town before Monday morning, as no warrants against them can be procured on Sunday. The convention adjourned to-night, after an address by Rev. W. M. Vines, D. D., of Norfolk, on "The Sabbath and Our Christian Civilization." An address on "The Ethics of the Daily Press" was delivered this afternoon by Rev. Clarence C. Reynolds, of Asheville, and an address on "The Sabbath—A Day of Worship," by Rev. J. C. Leonard, D. D., Lexington.

To-night the North Carolina Lord's Day Alliance adopted resolutions directing its legislative committee to urge upon the approaching General Assembly the enactment of more comprehensive and effective Sunday laws, calling on ministers to deliver at least one sermon each year on Sabbath observance; urging ministerial associations to procure the enactment and enforcement of adequate Sunday ordinances in their respective towns, and declaring the Sabbath a divinely established for the physical and spiritual and moral well-being of the people. Old officers of the alliance were re-elected, except that Rev. L. F. Johnson, of Raleigh, was elected corresponding secretary instead of Rev. James O. Heisler, of Asheville. They include Dr. R. F. Campbell, Asheville, president; W. S. McManis, Raleigh, field secretary. Dr. D. Clay Lilly, of Richmond, discussed the Sabbath and forward movement. He took the ground that the State must care for the morals of the people, and for the environment under which people live and rear their families. Therefore, the State must guard the Sabbath against desecration. The church must form public opinion and influence the State for safeguarding the Sabbath. A charter was issued to-day for the Cooper Gun Company, Wilmington, capital \$100,000, by W. B. Cooper, I. W. Cooper and W. B. Surles, of Wilmington. There is also a charter for the Henderson Garage Company, capital \$1,500, subscribed by C. H. Turner, J. C. Skinner and others.

FOR INDOOR CHAMPIONSHIPS. New York Athletes Continue to Lead After Day's Events. New York, November 1.—The local athletes did not have it all their own way in to-night's events of the national indoor championships of the Amateur Athletic Union. Representatives from Yale and Harvard and from the Canadian, New England and Pennsylvania clubs figured in the scoring, but they could not overcome the lead gained by the local clubs last night. The star events of to-night were the 600-yard run and the five-mile run. In the former M. W. Sheppard, of the Irish-American Athletic Club, led into the stretch, where H. Gissing, New York, broke away from him and won by two yards. The five-mile race was easy for Tom Collins, of the Irish-American Athletic Club. The point score stands: Seniors—New York A. C., 77; Irish-American A. C., 67; Pastime A. C., 20. Juniors—Pastime A. C., 19; New York A. C., 18; Harvard and St. James A. A., of Rhode Island, tied for third place with 8 points.

"BATH TUB TRUST" PROBE Witnesses Tell of Getting Branches of Industry to Work Together. Pittsburg, Pa., November 1.—Further agreements among manufacturers of enameled ironware as to the selling conditions of their wares were brought out to-day in the government's investigation of the so-called "bath tub trust." Edwin L. Weyman, who yesterday told of his numerous agreements with manufacturers and jobbers, continued the narrative of his activity in getting the various branches of the industry to work together. Weyman told of a "blue book" which contained the names of plumbing supply jobbers eligible to make contracts with the sixteen manufacturers who are defendants in this action, and also identified a copy of the price list used by the jobbers. He said that he had made 95 per cent of the changes that appeared in the list since June 1, 1910. These prices were what the jobbers were to quote their customers. Weyman also told of a meeting at the Hotel Astor, New York, March 23 and 24, of this year, at which he declared, 91 per cent of the enameled ironware production was represented, and testified favorably on the agreement between the various manufacturers. The investigation will continue to-morrow and Thursday.
