We quite astion. tonished the parson by our haste, and

And considers the brief life of man. -Boston Globe.

The Trick Was Exposed.

WAS a young man possessed of sufficient means to enable me to live at my ease, when suddenly there came a blow which scattered my prosperity to the winds and forced me m labor in the general struggle of gainfor a living.

Securing a clerkship in the house of acreditor of our late firm, my first care was to look up a less expensive boarding house. I inserted an advertisement im several city papers, asking for reaamable board in a strictly private fam-My, and received a multitude of answers by next post. Out of this motley fustallment of epistles, there was but ome which pleased me, and I decided to answer that one in person immediantely.

Grace Kingsley was the name of the favored landlady writing to me, and the letter stated that her house was entirely private, she having no boarders whatever. I was much pleased with the fair, delicate handwriting, and an idea took possession of me that Grace was a young and fascinating widow. I was not disappointed when reached the house, and my ring at the doorbell was answered by the lady merself. She invited me into the par-For in a manner that was so courteous and yet so modest, that I had fallen in Move with her before I even crossed the

Before leaving my former boarding house, a letter was handed me by the postman, but I did not find time to examine it until I was comfortably enseenced in the parlor of Mrs. Kings-Bey's cosy establishment.

Opening it, I discovered it to be from wealthy uncle, residing in Vermont, who regularly sent me a letter every

year, but whom I had never seen. About a year previous my uncle made some pressing inquiries respect-Ing my matrimonial prospects, and stated that if I wasn't already married I should immediately enter into the wredded state and let him know of it or "he would never more be uncle of does not stay in Europe six weeks

Now, as my uncle lived in Vermont and I in Philadelphia, and I never days, and if he wants to take me up o anticipated the old gentleman would ever nay me a visit and discover the falsehood. I wrote to him and informed him that I was not only married, but also the father of a bouncing boy. This intelligence so pleased him that he sent me a gold goblet and a silver pap-spoon, to be presented to my child. I at first sat down and wrote a very romantic letter to my uncle, thanking him for the present and then visited the nearest jewelry store and turned both the goblet and the spoon into cash.

which I pocketed. I had received no further letters from my uncle until the one which I read in Mrs. Kingsley's parlor. The postscript to this one not only astonished. absolutely frightened me. It read

"P. S .- I have never visited Philadelphia, so I have decided to do so at once and get a look at you and your wife and child. You may expect me about the 10th of the month."

"Good gracious; my uncle coming to esit me." I exclaimed, "and it is past Down Upon the Suwanee River tears the 10th of the month now! I don't came to my eyes. Think of it! A Ger know at what moment he may pop in. What am I to do for a wife and child?

At that moment there came a terrible wing at the door bell, as if the man who house and could make as much noise as he pleased. A sickening sensation took possession of me, for I had a mis-

giving it was my uncle. Now, as good fortune would have it. Mrs. Kingsley had gone out for a few minutes and had requested me to have an eye to her child while she was gone. As I glanced at the cradle, and thought of my uncle at the door, a bright idea entered my mind. I determined in case the visitor was my uncle to claim

the youthful occupant of that cradle as my own. The visitor proved to be my uncle I knew him by the picture of him I had seen, and he likewise recognized me by my photograph. After a mutual recognition and handshaking, I ushered my honored relative into the parlor and

presented to him my newly claimed So far I had succeeded in deceiving my uncle, but the worst I feared was that when Mrs. Kingsley returned she might object to my claiming ownership in her child. Besides, to carry out my deception I must find a wife as well as an infant, and Mrs. Kingsley was the only one I could conveniently claim. The only difficulty was to get her consent to the deception, and this might be done if I could secure a private con-

versation with her before I introduced her to my uncle. I watched my opportunity, and gain ed an interview with her before she enfered the room. I told her, in a few brief, hurried words, the extent of my difficulty, and how I had taken the liberty of acting as papa for her little one. I then told her I must find a wife some where, and begged her to allow me to To this series of coincidences he introduce her to my uncle in that capacity. She laughed heartily at the suggestion, said she could comprehend road. my difficulty, and consented to my proposal, but warned me roguishly not to price of his work, but a lawyer simesesume upon the occurrence.

WISCONSIN SOLONS.

The Hagemeister primary bill was toed by Gov. La Follette on Friday. A this would appear strange to those wh remember the vigorous statements whi the Governor made on the question of the election of candidates by direct vot of the people, he sent to the Senate a long message explaining his position. He states that the measure is only drawn up to throw ridicule upon the very question which it appears to support, and that while it provides for primaries as the platform originally desired, it so insert obstacles in the way as to be valueless. The chief executive also complains that its provisions are so loose as to be uncon-stitutional in that it provides for its operation only so far as county elections ar concerned. Furthermore, it is presented that several of the large cities of the State when called upon to vote on the question have no election at the time specified and therefore would be franchised. The Senate reconsidered its vote on the bill taxing ice shipped out of the State 10 cents a ton, and advanced it to third reading. In his message vetoing the Hagemei

ter act Gov. LaFollette said: "Immediately upon the organization of the Legislature, many weeks before any bill was offered upon the subject of primary elections, it was boastingly announced and published that one of its branches had been so organized as to defeat the passage of any primary election legislation. Before the introduction of the primary election bill an attempt was made vance. Upon its presentation to the Legislature—so framed as to comply with cial treaties in 1903 is fixed on as an opportune time to bring about an anti-is accompanied by a working force of State—a systematic campaign of misrepresentation of the bill and its supportgeneral purpose of the measure, the plain meaning of its provisions, the certain ef-fect of the law in operation, the necessary and reasonable e case, each and Since the route was all furnished theme for persistent falsification and malicious assaults. With the defeat of the original bill the friends of defeat of the original bill the friends of been tried on it. primary elections offered to pass the Either they were neasure subject to approval by the people. This the opposition refused. A further concession was then offered, apply-

ing the primary election to municipal, county and legislative offices. This the let the people pass upon it, a mockery of platform pledges and judicious legislation alike is offered in the form of a bill which I am unable to approve. cannot divest myself of the binding character of my official obligation—not in any narrow partisan sense—but to all the people of the State, which forbids my sharing in the responsibility of giving then a law which violates that obligation and is manifestly so framed as to bring re-

proach upon the principle, even if it were at all possible to interpret or enforce it. The bill is wanting in specific provisions as to many important details which car not be supplied by conjecture or judicial legislation. Should it become the law of the State, it will be inoperative for this reason alone: By the provisions of this for the President. Probably he did not insist with importunate pertinacity on bill its passage by the Legislature with executive approval does not enact it into law. It is especially provided that it shall not take effect, and have the force of law until submitted for adoption or rejection at the spring or municipal elec-

tion of 1902. While the Legislature could have given it the force of law with the approval of the executive without condiion, it has not seen fit so to do, but has required before it shall become a law that t shall be approved by a majority of the legally qualified electors of the whole It is not a county option bill. At least, it is safe to assume that the Legislature did not intend to disfranchise any voting precinct in the State on the It cannot be assumed the legislative intent to exclude the elecors of any voting precinct in the State from the right to vote on the question of the adoption or rejection of the proposed law. The time of the submission by the wording of the referendum is, 'the spring or municipal election of 1902.' There is

provision in the hill for calling of s now provided for by law. So that i there be a single voting precinct in the State where no spring or municipal election in the year 1902 is to be held, the question is not submitted to all of the electors of the State; and as to each and nicipal election is to be held in that year the electors of such precinct are deprived of a voice or a vote on this subject and are necessarily disfranchised." At its closing hour Saturday morning

the Senate, amid a scene perhaps unpar alleled in the history of Wisconsin legis ation, adopted resolutions strongly con demning Gov. La Follette for his stric-tures upon the Legislature as set forth in his veto of the Hagemeister primar, bill. The resolutions were introduced by Senator Rochr of Milwaukee, who did s he said, from a sense of duty to his par ty, his fellow legislators and himsel After quoting extracts from the me sage reflecting on the Legislature, the resolutions closed with a protest agains the executive questioning the motive character of the legislators. Immediately an excited scene followed. Senator Mo Gillivray jumped up and denounced the resolution as cowardly and intended as a cover for the sins of the majority, and denouncing the stalwarts as not Republi-cans. Senator Miller in a warm defense of Gov. La Follette used the words "this subsidized Senate," and at once Senator

ould got be scared that way. Senator Miller finally withdrew his remarks about islature. "subsidized Senate," but the tion went through by a vote of 18 to 8. One of the last acts of the Senate was to concur in the Assembly bill authorizing cities to use voting machines. The bill authorizing the Governor to investigate State departments with a view to reducing clerical forces failed in the Assembly.
